Modules

4 official module sections detected.

Topic entries

16 source-aligned topic entries retained.

Study mode

Theory and application emphasis.

STUDY METHOD

How to use this lesson

First pass

Read the official source declaration, dashboard and module transcript. Mark unfamiliar terms without changing the official terminology.

Second pass

Use each topic card to build a definition, principle, steps or components, application and exam answer. Attempt the Q&A before opening the answers.

Practical evidence

Where the course is laboratory or workshop based, maintain an observation notebook with procedure, instruments, readings, safety points and conclusion.

Revision pass

Return to the source excerpt, coverage table, activities and model paper. The generated paper is practice material, not an official examination paper.

LEARNING OUTCOMES

Objectives, outcomes and mapping

Course objectives

- To enable the student to prepare condensed reports of given matter in indirect form through stenography.
- To attain language proficiency.
- To provide theoretical base in stenography.

Course outcomes

CO	Official outcome	Study level
CO1	phraseography to develop dictation speed, to attain 10 Applying a speed of 90wpm. Interpret vowel indication, halving principles 1 & 2	See official syllabus
CO2	and doubling principle. Improve speed to attain 95 11 Applying Identify diphone and medial semi circles. Develop	See official syllabus
CO3	speed to attain 100wpm. Relate Reporting style in 9 Applying leading English dailies. Compare prefixes, suffixes, contraction and figures.	See official syllabus
CO4	Apply speed @ 100wpm and summarise the 13 Applying dictated passage in reporting style.	See official syllabus

CO-PO mapping evidence

Row	Extracted official mapping
CO1	CO1 3 3
CO2	CO2 3
CO3	CO3 3 3
CO4	CO4 3 3

Complete syllabus coverage

Every detected official module is represented below. Each module contains topic cards and an expandable official syllabus transcript to preserve source terminology.

Module coverage

Module	Official heading	Topic entries	Hours
Module 1	dictation speed, to attain a speed of 90wpm.	4	As specified
Module 2	principle. Improve speed to attain 95 wpm.	4	As specified
Module 3	Relate Reporting style in leading English dailies.	4	As specified
Module 4	100wpm and summarise the dictated passage in reporting style.	4	As specified

MODULE 1

dictation speed, to attain a speed of 90wpm.

This module is presented from the official syllabus scope for Shorthand English (Condensation. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 1 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: dictation speed, to attain a speed of 90wpm.
- Official duration: As specified

- Official topic entries captured: 4
- The full source excerpt is preserved below for coverage checking.

3 Applying. practice lists and exercises Make use of dictation writing skills by recalling

3 Applying. practice lists and exercises Make use of dictation writing skills by recalling is an official topic in Module 1 of Shorthand English (Condensation. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 3 applying. practice lists and exercises make use of dictation writing skills by recalling should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 1-3 Applying. practice lists and exercises Make use of dictation writing skills by recalling definition/meaning. steps, application. Technical terms English-

and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying

and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying is an official topic in Module 1 of Shorthand English (Condensation. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, and practicing special contractions and translate 2 applying. the dictated matter. rephrase the theory of advanced phraeography. applying should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify dailies by giving dictation and translate the 2 Applying. same. Develop speed to 100wpm for taking down using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, dailies by giving dictation and translate the 2 applying. same. develop speed to 100wpm for taking down should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What dailies by giving dictation and translate the 2 Applying. same. Develop speed to 100wpm for taking down means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 3-ാം ദ്വീപ് ദൈനംദിനം ഉപയോഗിച്ച് നിർദ്ദേശം നൽകി തർജ്ജമ ചെയ്യുക 2 ഉപയോഗിച്ച്. തുടർച്ചയായി. വേഗം 100wpm ന് താഴെ എടുത്ത് എഴുതുക. നിർവ്വചന/അർത്ഥം എഴുതുക. എഴുതുക. എഴുതുക, steps, application എഴുതുക. എഴുതുക. എഴുതുക. Technical terms English-ൽ എഴുതുക. എഴുതുക.

Official syllabus detail and terminology

The following excerpt preserves official syllabus terminology for this module.
Educational explanations below are separate elaboration.

Relate Reporting style in leading English dailies.

M3.01	Recall diphonic or two vowel sounds and practice exercises. Apply speed to attain 100wpm.	2
Applying.		

M3.02	Explain medial semicircles and practice exercises. Apply 100wpm speed on dictation.	3
Applying		

M3.03	Compare reporting styles in leading English dailies by giving dictation and translate the same.	2
Applying.		

M3.04	Develop speed to 100wpm for taking down dictation and translate the same.	2
Applying		

Contents:

Diphonic or two vowel sounds – Practice exercises - Medial semicircle - practice exercises

– Familiarise with reporting styles in dailies – speed practice @100wpm.

Compare prefixes, suffixes, contraction and figures. Apply speed @

Module study routine: Read the source wording, make a one-page concept map, practise one short answer and one structured answer, then review the Malayalam support notes.

MODULE 4

100wpm and summarise the dictated passage in reporting style.

This module is presented from the official syllabus scope for Shorthand English (Condensation. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 4 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: 100wpm and summarise the dictated passage in reporting style.
- Official duration: As specified
- Official topic entries captured: 4
- The full source excerpt is preserved below for coverage checking.

3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation

3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation is an official topic in Module 4 of Shorthand English (Condensation. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 3 applying. suffixes. practice all exercises. make use of speed writing skills for dictation should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

ACTIVE RECALL

Module-wise questions and answers

These are practice questions based on official topic coverage, not official examination questions.

Module 1

Define or explain 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling. (3 marks)

Answer: Begin with the standard definition or identity of *3 Applying. practice lists and exercises Make use of dictation writing skills by recalling.* State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□□□ □□□□□□.

Define or explain and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying. (3 marks)

Answer: Begin with the standard definition or identity of *and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying.* State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□□□ □□□□□□.

Define or explain Apply advanced phrases to improve dictation 3 skill to 90wpm Practice speed dictation @90 wpm and. (3 marks)

Answer: Begin with the standard definition or identity of *Apply advanced phrases to improve dictation 3 skill to 90wpm Practice speed dictation @90 wpm and.* State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□□□ □□□□□□.

Define or explain translate the same applying special contractions 2 Applying. and advanced phrases. Special Contractions - practice exercises - translation-

Advanced Phraseography-practice exercises - speed @90wpm Interpret vowel indication, halving principles 1 & 2 and doubling. (3 marks)

Answer: Begin with the standard definition or identity of *translate the same applying special contractions 2 Applying. and advanced phrases. Special Contractions - practice exercises - translation- Advanced Phraseography-practice exercises - speed @90wpm Interpret vowel indication, halving principles 1 & 2 and doubling*. State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□□□ □□□□□□.

Module 2

Define or explain 2 Remembering and practice exercises. Illustrate halving principles section I and. (3 marks)

Answer: Begin with the standard definition or identity of *2 Remembering and practice exercises. Illustrate halving principles section I and*. State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□□□ □□□□□□.

Define or explain practice exercises. Apply 95wpm speed for 3 Applying. dictation and translate the same. Illustrate halving principle section II and Understanding.. (3 marks)

Answer: Begin with the standard definition or identity of *practice exercises. Apply 95wpm speed for 3 Applying. dictation and translate the same. Illustrate halving principle section II and Understanding..* State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□ □□□□□□.

Define or explain 2 practice exercises. Explain the application of doubling principles. (3 marks)

Answer: Begin with the standard definition or identity of 2 *practice exercises*. Explain the application of doubling principles. State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□ □□□□□□.

Define or explain and practice exercises. Practice speed dictation 4 Applying. to get the speed @95wpm. Vowel Indication - Practice exercises - Halving principle section I - practice exercise - grammalogues - Halving principles section II - practice exercises - grammalogues - Doubling principle - grammalogues - practice exercises. Identify diphone and medial semi circles. Develop speed to attain 100wpm.. (3 marks)

Answer: Begin with the standard definition or identity of *and practice exercises*. Practice speed dictation 4 Applying. to get the speed @95wpm. Vowel Indication - Practice exercises - Halving principle section I - practice exercise - grammalogues - Halving principles section II - practice exercises - grammalogues - Doubling principle - grammalogues - practice exercises. Identify diphone and medial semi circles. Develop speed to attain 100wpm.. State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□ □□□□□□.

Module 3

Define or explain practice exercises. Apply speed to attain 2 Applying. 100wpm. Explain medial semicircles and practice. (3 marks)

Answer: Begin with the standard definition or identity of *practice exercises*. Apply speed to attain 2 Applying. 100wpm. Explain medial semicircles and practice. State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□ □□□□□□.

Define or explain 3 Applying exercises. Apply 100wpm speed on dictation. Compare reporting styles in leading English. (3 marks)

Answer: Begin with the standard definition or identity of 3 Applying exercises. Apply 100wpm speed on dictation. Compare reporting styles in leading English. State the governing principle, list the key components or stages, and close with one relevant application or observation. Use the exact official terminology preserved in the module transcript.

Malayalam support: □ □□□□□□□□□ □□□□ definition, □□□□□□ principle/steps, □□□□□□ application □□□□ □□□□□□□□ □□□□□□.
