Women education is the need of the hour. Without educating the women of the country we can't hope for a / developed nation. Women play a vital role in the all round progress of a country. If we want to make // democracy successful, women must be educated. They are the real builders of happy homes.

It is said that if we /// educate a man, we educate a man only, but if we educate a woman, we educate the whole family. This (1) highlights the importance of female education. It is a fact that women are the first teachers of their children. It / is in their lap that the children receive the very first lessons.. We must give up our conservative outlook and // create an atmosphere in which not a single woman remains uneducated.

Women have three major roles to perform in the /// course of their life. They have to discharge their duties as good daughters, good wives and good mothers. Apart from (2) these important duties, they have to prove themselves as good citizens of a free democracy. Hence, it is necessary to / give women a different kind of education from the one given to boys. Their education should be such as may // enable them to discharge their duties in a proper way. Educated women are well aware of their duties and rights./// They can contribute the development of the country in the same way as men do.

Society runs on two wheels, (3) both the wheels must be equally strong to run smoothly. It is a good sign that today's women are not / considered a weaker sex. They are being taught properly right from their childhood. As a result we see women working // in almost every field. They work even in police and defence departments. Our constitution grants them equal rights more rights /// as compared to men.

Although legally and theoretically women are now considered as equal to men yet there are people (4) who refuse to give them their due. They think that the women are inferior to men and ill treat them / and misbehave with them. All right thinking people should protest against it. They should try to broaden the outlook of // those who have conservative feelings for women. Female education is important and all the

impediments must be removed from the /// way of their education. Let's take a view to extend a cooperative attitude in imparting education to the women folk. (5)

Dear Sirs,

This is the season when we are tempted to look ahead and try to glimpse the course our/ lives will take in the New Year. Looking at the prospects for international peace and security, I believe that we// must be realistic. Quite clearly, the world as a whole does not seem ready to turn over a new leaf /// although there are some grounds for believing that the difficulty and danger, as well as the successes, will stimulate stronger, (6) better concerted efforts to overcome the obstacles to real peace and to the changes that peace would give to the /betterment of the lives of all peoples everywhere.

The two-third of the world became poorer still, relative to the other// third. Within the United Nations, the financial crisis brought us close to a crises of confidence in the Organisation itself. /// And over all these setbacks loomed the growing dangers of a nuclear armaments race and even of full-scale war.

Sincerely yours(7)
