Fourth Semester Diploma Examination In Printing Technology

Digital Printing

[Maximum Marks : 100]

[Time : 3 Hour]

PART – A

[Maximum Marks : 10]

I. Answer the following question in one or two sentences:

Marks

1. Define inkjet printing
2. Write any two differences of Ionography and magnetography
3. What you meant by print head?
4. List the two types of plates used in digital offset
5. Brief about the working principle of Laser printing

[5x2=10]

PART – B

[Maximum Marks : 30]

II. Answer any five full questions:

1. Explain the characteristics of Inkjet Inks
2. Explain about toner jet technology
3. Narrate about Ink Cartridges used in Inkjet printer
4. List the specifications of any three digital offset machines
5. Tell about the applications of digital printing on commercial presses
6. Explain the working of Photo Multiplier Tube
7. List any five properties of substrates used in digital offset Machine

[5x6=30]

PART – C

[Maximum Marks : 60]

[Answer one full question from each unit]

UNIT - I

- III. Explain the working of
a) Drum Scanners [7.5]
b) Flat bed Scanners [7.5]

OR

- IV. List any five advantages of digital printing compared to conventional printing with example. [15]

UNIT - II

- V. Explain in detail about various parts of an inkjet printer. [15]

OR

- VI. Brief explanation of
a) Thermal Inkjet [7.5]
b) Piezoelectric Inkjet [7.5]

UNIT – III

- VII. Explain in your own idea about.
a) Laser Proofer [7.5]
b) Inkjet Proofer [7.5]

OR

- VIII. Explain the industrial applications of the following.
a) 3D printing [7.5]
b) Variable data printing [7.5]

UNIT – IV

- IX. Explain the properties of ink used in Digital offset printing. [15]

OR

- X. With a neat sketch explain the functional parts of a direct imaging press. [15]
