

THIRD SEMESTER DIPLOMA EXAMINATION IN TEXTILE TECHNOLOGY

TEXTILE WET PROCESSING - I

(Maximum Marks : 100)

Time : 3 Hours

PART – A

Marks

I Answer the following questions in one or two sentences. Each question carries 2 marks:

1. Define the term contact angle.
2. State the object of bleaching .
3. Define the term ML ratio.
4. Why reactive dyes are called so?
5. What do you mean by Vatting ?

(5 x 2 = 10)

PART – B

II Answer any five questions . Each question carries 6 marks:

- 1 List the advantages of oxidative desizing.
- 2 List the objectives of scouring and state the importance of scouring .
- 3 Define mercerization and state its importance .
- 4 Explain the physical and chemical theories of dyeing.
- 5 Explain the classification of colouring matters.
6. Discuss the properties of Azoic colours.
7. Explain the classification of Vat dyes according to the method of application .

(5 x 6 = 30)

PART – C

(Answer one full question from each unit . Each question carries 15 marks)

UNIT – I

III (a) Discuss the need for desizing process .

3

(b) Describe the working of Roller singeing machine with neat sketch.

12

OR

- IV (a) List the advantages of rot steeping. 3
- (b) Explain the acid steeping process with neat sketch and mention the merits and demerits. 12

UNIT – II

- V (a) Why Hydrogen peroxide is called Universal bleaching agent ? 3
- (b) Compare Sodium and Calcium hypochlorite in terms of their properties and chemical behavior. 12

OR

- VI (a) List the disadvantages of hypochlorite bleaching. 3
- (b) Explain the working of hank mercerizing machine with sketch. 12

UNIT – III

- VII (a) Differentiate dyes and pigments.. 3
- (b) Discuss the properties of Acid dyes and explain it's method of application on wool. 12

OR

- VIII (a) Differentiate natural and synthetic dyes . 3
- (b) Discuss the properties of Basic dyes and explain it's method of application on cotton. 12

UNIT – IV

- IX (a) Why sulphur dyes are called so ? 3
- (b) Discuss the properties of Sulphur dyes and explain it's method of application on cotton. 12

OR

- X (a) Write short note on mineral colours. 3
- (b) Discuss the dyeing of viscose with azoic dyes. 12
