6. Write a short note on mobile operating systems.
7. State the characteristics of CDMA 2000.

(5x6=30)

PART – C

(Answer one full question from each unit. Each question carries 15 marks.)

Unit – I

- III. (a) List and explain the various channel allocation techniques used in cellular systems. (5)
(b) Explain any five mobile and wireless devices. (10)

OR

- IV. Name and explain the applications of mobile computing. (15)

Unit – II

- V. (a) Give an overview of broadcasting systems. (6)
(b) Explain the components of operation subsystem in GSM system architecture. (9)

OR

- VI. Discuss about the digital audio broadcasting. (15)

Unit – III

- VII. (a) Give the merits and demerits of WLAN. (8)
(b) Present the concept of Bluetooth technology. (7)

OR

- VIII. Explain IEEE 802.11 WLAN system architecture in detail. (15)

Unit – IV

- IX. (a) Write a note on VoIP. (7)
(b) List and explain the different types of VPN. (8)

OR

- X. Explain idea, applications and advantages of WiMAX. (15)
