(5 x 6 = 30)

PART – C

(Answer one full question from each unit . Each question carries 15 marks)

UNIT – I

III (a) Illustrate the organization of maintenance department in a spinning mill of 25000 spindles. 7

(b) Explain planning, scheduling and controlling of maintenance.

8

OR

- IV (a) Write short note on types of bearings used in Textile mill. 7
(b) Give the use of .inside caliper , screw gauge, leaf gauge, depth gauge 8

UNIT – II

- V (a) Write short note on erection tools and equipments. 7
(b) Discuss the procedure for metallic wire mounting in cylinder . 8

OR

- VI (a) Write short note on Vibration measurement. 7
(b) Illustrate the methods of damping. 8

UNIT – III

- VII (a) Suggest the routine maintenance programme for Sliver lap machine . 7
(b) Describe the comber needling for half lap . 8

OR

- VIII (a) Suggest the lubrication programme for Blow room. 7
(b) Explain the overhauling schedule of Ring frame. 8

UNIT – IV

- IX (a) Write short note on up keep of boilers and kiers. 7
(b) Discuss the defects due to improper maintenance of looms. 8

OR

- X (a) State the maintenance schedule for cleaning of sizing machine. 7
(b) Prepare a maintenance schedule for dyeing machines. 8
