

COURSE TITLE : ARCHITECTURAL DRAWING II
COURSE CODE : 4186
COURSE CATEGORY : A
PERIODS/WEEK : 6
PERIODS/SEMESTER : 78
CREDITS : 3

TIME SCHEDULE

Module	Topics	Period
1	Data collection and analysis.	15
2	Functional planning	21
3	Preparation of two dimensional drawings.	27
4	Presentation drawing	15
TOTAL		78

Course Objective :

Sl.	Sub	Student will be able to
1	1	Collect standard data related to spatial and functional planning.
	2	Make case studies of existing similar buildings.
	3	Analyse the data collected and finalise the requirements
2	1	Study the features of site and analyse it.
	2	Incorporate design element based on the site analysis.
	3	Design two storied buildings based on functional and aesthetic requirement.
3	1	Prepare plan section and elevation of the designed buildings.
	2	Prepare submission drawing.
	3	Prepare presentation drawings.

After completing this course student should be able to:

Module I: Data collection and analysis.

1.1.0. Collect data from space standards.

- 1.1.1 Know the standards specified in NBC and Kerala municipal building bye-laws.
- 1.1.2 - Know the types of building according to KMBR.

1.2.0 Make case studies of different types of buildings

- 1.2.1. Compare standard data in KMBR and case study data

1.3.0. Prepare design brief

Module II: Functional planning.

2.1 .0. Understand the space requirements for various public occupancies

- 2.1.1 Design a Day care centre,/ primary health centre/cafeteria/Architect's office
- 2.1.2. Design two storied buildings
- 2.1.3. Design a Doctor's residence/Design three bedroom residence.
- 2.1.4. Design Community hall/small recreational club

Module III: Preparation of two dimensional drawings.

3.1.0. Preparation of two dimensional drawings of single and double storied buildings

- 3.1.1 Understand the buildings with flat, pitched ,combined roof

3.2.0. Understand the submission drawing

- 3.2.1-Draw the detailed plan elevation, section.
- 3.2.2. Draw site plan.
- 3.2.3 Draw service plan

Module IV: Presentation Drawings

4.1.0. Understand methods of presentation

- 4.1.1 Know various rendering techniques.
- 4.1.2 Know rendering with pencil, pen, colours

4.2.0. -Understand the rendering mediums

- 4.2.1 Draw the rendered plan with furniture layout, elevation of single storied buildings
- 4.2.2 Draw the rendered plan with furniture layout, elevation of double storied buildings

NOTE: USE GOOD QUALITY ROUGH BUTTER & TRACING SHEETS TO PREPARE DESIGN AND DRAWINGS.

CONTENT DETAILS

Module I: Data collection and analysis.

Data from space standards, time saver standards - Kerala municipal building bye-laws - types of building according to KMBR, residential – commercial – educational – medical – assembly - case studies of different types of buildings - Day care centre - primary health centre – cafeteria - Architect's office - two storied buildings - Doctor's residence - three bedroom residence - Community hall - small recreational club

Module II: Functional planning.

Single storied building design- design a Day care centre - primary health centre – cafeteria - Architect's office - Design two storied buildings – Doctor's residence, three bedroom residence. - Design public buildings- Community hall, small recreational club

Module III: Preparation of two dimensional drawings.

Two dimensional drawings of single storied buildings- plan elevation, section - buildings with flat, pitched, combined roof-- a Day care centre, primary health centre – cafeteria - Architect's office - two storied buildings - Doctor's residence - three bedroom residence - Community hall - small recreational club- submission drawing- site plan - Service plan

Module IV: Presentation Drawings

Presentation methods - rendering techniques-basic tonal patterns, light reflection and absorption, contrast- rendering mediums - pencil, pen, colour, the rendered plan with furniture layout, elevation of single storied buildings- cafeteria, Architect's office, rendered plan with furniture layout, elevation of double storied buildings- Doctor's residence

REFERENCE

1. Kerala Municipality Building Rules
2. Joseph De Chiara & John Callender - Time savers standard for building types
3. Robert W Gill - Rendering with Pen and Ink
