

COURSE TITLE : LANDSCAPE ARCHITECTURE
COURSE CODE : 6182
COURSE CATEGORY : A
PERIODS/WEEK : 6
PERIODS/SEMESTER : 90
CREDITS : 4

TIME SCHEDULE

MODULE	TOPIC	PERIODS
I	Principles of landscape planning	25
II	Softscaping elements	25
III	Hardscaping elements	25
IV	Mughal gardens	15
TOTAL		90

Course Objective :

Sl.	Sub	Student will be able to
1	1	Understand the objects of landscape design
	2	Comprehend the different styles of landscape design
	3	Know the elements and principles of design
2	1	Identify plant materials suitable for a landscape
	2	Identify hardscaping elements suitable for a landscape
	3	Design a landscape layout for a given site
3	1	Prepare presentation drawings
	2	Analyse planning principles applied in Mughal gardens

MODULE I: PRINCIPLES OF LANDSCAPE PLANNING

1.1.0. Understand the objects of landscape design

- 1.1.1. Define landscape architecture
- 1.1.2. List out objectives of landscape architecture

1.2.0. Comprehend the different styles of landscape design

- 1.2.1. Differentiate between formal garden and informal garden

1.3.0. Know the elements and principles of design

- 1.3.1. Classify elements into aesthetic elements, man-made elements and natural elements
- 1.3.2. State principles of landscape design
- 1.3.3. State the role of water as an element of landscape design
- 1.3.4. Identify the effects of different types of still, flowing, falling water bodies and moving water with applied pressure
- 1.3.5. State the role of soil as an element of landscape design
- 1.3.6. Define grading
- 1.3.7. List out objectives of grading
- 1.3.8. State principles of grading
- 1.3.9. Illustrate the role of rockery as an element of landscape design
- 1.3.10. Explain how the above said elements are incorporated in a landscape
- 1.3.11. Explain how each principle is applied to a landscape design

MODULE II: SOFTSCAPING ELEMENTS

2.1.0. Identify plant materials suitable for a landscape

- 2.1.1. Illustrate the role of plants in landscape design
- 2.1.2. State physical requirements of plants
- 2.1.3. Classify plants according to horticultural purposes
- 2.1.4. Define and give examples of bulbs, corms and tubers
- 2.1.5. Identify the botanical names, common names and nature of growth of plants

2.1.6. Describe the modes of propagation of plants

2.1.7. Identify suitable plants for a landscape

2.1.8. Explain how plants are maintained in a landscape

2.2.0. Understand lawn , it's making and maintenance

2.2.1. Define lawn

2.2.2. Differentiate between lawn and turf

2.2.3.. List out objectives of making lawns

2.2.4. Explain how lawns are made and maintained

2.2.5. Identify suitable grasses for a lawn

2.3.0. Understand indoor landscape

2.3.1. State the role of indoor plants

2.3.2. Identify plants for an indoor garden

2.3.3. Select plants suitable for a terrace garden

MODULE III: HARDSCAPING ELEMENTS

3.1.0. Identify hardscaping elements suitable for a landscape

3.1.1. State the functions of different hardscaping elements in landscape

3.1.2. Identify suitable materials and method of construction for pavements/walkways and fences in a landscape

3.2.0. Understand garden lighting

3.2.1. Identify suitable method of lighting in a landscape

3.2.2. Identify suitable site furnitures in a landscape

3.2.3. Select suitable methods to connect levels

3.2.4. State functions of retaining walls

3.3.0. Draw details of physical elements

3.3.1. Draw plan ,elevation and view of all physical elements in a landscape

3.4.0. Design an interior courtyard incorporating all elements and principles of design

3.5.0. Design a terrace garden incorporating all elements and principles of design

3.6.0. Prepare presentation drawings

3.6.1. Prepare rendered plans in colour

MODULE IV: MUGHAL AND JAPANESE GARDENS

4.1.0. Analyse planning principles applied in Mughal gardens

- 4.1.1. State the concept behind the design of mughal garden
- 4.1.2. Identify features of Mughal garden
- 4.1.3. List out elements used in Mughal gardens
- 4.1.4. Classify different types of Mughal gardens
- 4.1.5. State features of each type of Mughal garden
- 4.1.6. Explain with sketches planning principles, elements and features of Taj Garden, Agra
- 4.1.7. Explain with sketches planning principles, elements and features of Shalimar Bagh
- 4.1.8. Explain with sketches planning principles, elements and features of Nishant Bagh

4.2.0. Understand features, elements, design principles and classification of Japanese garden

- 4.2.1. State the concept behind the design of Japanese garden
- 4.2.2. Identify features of Japanese garden
- 4.2.3. List out elements used in Japanese gardens
- 4.2.4. Classify different types of Japanese gardens
- 4.2.5. State features of each type of Japanese garden

MODULE-I-- PRINCIPLES OF LANDSCAPE PLANNING

Landscape architecture-definition-objectives- formal garden and informal garden-elements of landscape-aesthetic elements-line-plane-form-texture-tone/colour-light/shade-climate/season/time-scent/smell-physical elements-natural elements-plants-water-land form-rockery-man made elements-shelter structures-earth related structures-enclosure structures-engineering structures-outdoor furnishings –sculptural component-special buildings-Principles of landscape –proportion/scale-proportion in voids-proportion in plants-proportion in hardscaping elements-balance-symmetrical balance-assymmetrical balance-perspective balance-repetition/rhythm-unity/contrast-transition-simplicity-water as an element of landscape-purpose of water displays—aesthetic purpose-visual-auditory-psychological-cooling effects-functional reasons-recreation-circulation control-utilitarian-water
