

**COURSE TITLE : CNC PROGRAMMING ON LATHE AND MILLING**  
**COURSE CODE : 5308**  
**COURSE CATEGORY : A**  
**PERIODS / WEEK : 5**  
**PERIODS / SEMESTER : 75**  
**CREDIT : 2**

**TIME SCHEDULE**

| <b>MODULE</b> | <b>TOPIC</b>                               | <b>PERIODS</b> |
|---------------|--------------------------------------------|----------------|
| 1             | CNC Programming on Lathe & Milling machine | 75             |

**COURSE OUTCOME:**

1. Understand CNC Programming on Lathe & Milling machine

**MODULE I**

**1.1.0 Understand CNC Programming on Lathe & Milling machine**

- 1.1.1 Do program editing and simulation
- 1.1.2 Do Exercises on trainer machines
- 1.1.3 Observations of manufacturing in CNC production shop
- 1.1.4 Understand Non conventional machining –EDM & Wire EDM

**CONTENT DETAILS**

**MODULE I**

CNC Programming on Lathe & Milling machine-Program editing and simulation-Exercises on trainer machines  
Observations of manufacturing in CNC production shop-Non conventional machining –EDM & WCEDM
