

COURSE TITLE : MIG AND TIG WELDING
COURSE CODE : 5309
COURSE CATEGORY : A
PERIODS / WEEK : 5
PERIODS / SEMESTER : 75
CREDIT : 3

TIME SCHEDULE

MODULE	TOPIC	PERIODS
1	Welding Theory	20
2	Welding Practical	55
TOTAL		75

COURSE OUTCOME:

1. Understand the Welding
2. Understand and Do the Welding Exercise

MODULE I

1.1.0 UNDDERSTAND WELDING

- 1.1.1 Define welding
- 1.1.2 Define weldability
- 1.1.3 List the weldability factors
- 1.1.4 List the types of welding
- 1.1.5 Types of welding joints
- 1.1.6 List the welding positions
- 1.1.7 List the welding accessories
- 1.1.8 Describe gas welding
- 1.1.9 Describe oxy acetylene welding
- 1.1.10 Describe welding and related process
- 1.1.11 Describe the welding equipments
- 1.1.12 Define pressure regulator
- 1.1.13 Classify pressure regulator
- 1.1.14 Describe arc welding
- 1.1.15 Describe gas metal arc welding (MIG)
- 1.1.16 Describe advantages of MIG welding
- 1.1.17 Describe gas tungsten arc welding (TIG)

Module II

- 2.1.0 Do the practical exercises
- 2.1.1 Hand balancing
- 2.1.2 Butt joining
- 2.1.3 Lap joining
- 2.1.4 T – Joint
- 2.1.5 Corner joint
- 2.1.6 Horizontal welding
- 2.1.7 Vertical welding
