

COURSE TITLE : DESK TOP PUBLISHING
COURSE CODE : 3101
COURSE CATEGORY : B
PERIODS/ WEEK : 5
PERIODS/ SEMESTER : 75
CREDIT : 5

TIME SCHEDULE

MODULE	TOPIC	PERIODS
1	Introduction to Design and Layout	18
2	Typography and color	20
3	Design features of printed products	17
4	Computer aided designing and Advertising	20
TOTAL		75

COURSE OUTCOMES:

G .O.	ON THE COMPLETION OF THE STUDY OF THIS MODULE STUDENT WILL BE ABLE :
1	To apply Design principles and layout in designing
2	To understand text, visual images and color in designing
3	To Comprehend design features of different Printed product
4	To understand computer aided designing and Advertising medias.

MODULE I INTRODUCTION TO DESIGN AND LAYOUT

1.1.0 To apply Design principles and layout in designing

- 1.1.1. To define graphic design
- 1.1.2. To explain various elements used in design
- 1.1.3. To describe the use of design principles in designing
- 1.1.4. To identify the Gutenberg diagram of eye direction
- 1.1.5. To define Layout and types of layout

MODULE II TYPOGRAPHY AND COLOR

2.1.0 To understand text, visual images and color in designing

- 2.1.1 To understand the text designing aspects
- 2.1.2 To distinguish Legibility and readability
- 2.1.3 To identify different visual images.
- 2.1.4 To identify the importance of color in designing
- 2.1.5 To explain the color theories and their applications
- 2.1.6 To explain the psychology of different colors

MODULE III DESIGN FEATURES OF PRINTED PRODUCTS

3.1.0 To Comprehend design features of different Printed product

- 3.1.1 To explain the designing of different printed products.
- 3.1.2 To identify different imposition schemes
- 3.1.3 To explain about dummy

MODULE IV COMPUTER AIDED DESIGNING AND ADVERTISING

4.1.0 To understand computer aided designing and Advertising medias.

- 4.1.1 To compare different designing software
- 4.1.2 To define advertising
- 4.1.3 To identify different medias used for advertising

CONTENT DETAILS

MODULE - I

Design – Introduction to graphic design – goal, audience, venue and budget. Design elements- line, shape, value, and format, texture – visual and tactile, type, color and space – negative and positive.
