

COURSE TITLE : MINI PROJECT
COURSE CODE :
COURSE CATEGORY : A
DAYS / SEMESTER : 5 days
CREDITS : 5

General Outcome:

GO	On completion of the study of this course the students will be able:
1	To create an Industrial environment and culture within the institution.
2	To set up production lab utilizing the infrastructure of the institution.
3	To standardize laboratories to industrial standard, thereby giving exposure to industrial housekeeping standards.
4	To provide students hands on experience on, troubleshooting, maintenance, fabrication, innovation, record keeping, documentation etc thereby enhancing the skill and competency part of technical education.
5	To promote the concept of entrepreneurship.
6	To inculcate innovative thinking and thereby preparing students for main project.
7	To set up self maintenance cell within departments to ensure optimal usage of infrastructure facilities.

The Objective of mini project work is to make use of the knowledge gained by the student at various stages of the diploma course and to enable the students to work in convenient groups of not more than six members in a group on a project involving theoretical and experimental studies related to Printing Technology.

Identification of project titles and project activities, which can be taken in them, should begin well in advance. Students should also be asked to identify suitable project and project activities, which can be taken by them. One teacher is expected to guide, supervise and evaluate the project work of 4 - 6 students.

The following factors are to be considered while selecting the mini projects

1. The project has to be done by the students themselves and not by any outsider, that is, the diploma students with their own knowledge and skill shall be able to do the project with somebody's guidance.
2. Repetition of same project done by any other batch of same year/previous years shall not be permitted.
3. The main motive of the project shall be gaining of knowledge and skill by the students.
4. The expense towards the project work shall not be a big burden to the parents.
5. The total number of students in a batch shall not exceed six.
