

COURSE TITLE : ELECTRONIC PUBLISHING
COURSE CODE : 5104
COURSE CATEGORY : E
PERIODS/ WEEK : 4
PERIODS/ SEMESTER : 44
CREDIT : 4

TIME SCHEDULE

MODULE	TOPIC	PERIODS
1	Electronic Publishing	10
2	PDF Production, Copy Editing and Proof Reading	14
3	HTML and XML	12
4	Web to Print	8
TOTAL		44

Course Outcomes :

MODULE	G .O.	ON THE COMPLETION OF THE STUDY OF THIS MODULE STUDENT WILL BE ABLE :
1	1	To understand E-book and E- publishing.
2	2	To understand PDF Production, Copy Editing and Proof Reading
3	3	To know HTML and XML
4	4	To understand digital work flow and Digital Workflow for web to print

MODULE I ELECTRONIC PUBLISHING

1.1.0. To understand E-book and E- publishing.

- 1.1.1. To define E-publishing
- 1.1.2. To describe different steps of E-publishing
- 1.1.3. To know ISBN registration
- 1.1.4. To state marketing strategies.

MODULE II PDF PRODUCTION, COPY EDITING AND PROOF READING

2.1.0 To understand PDF Production, Copy Editing and Proof Reading

- 2.1.1 To define what is PDF
- 2.1.2 To discuss how PDF is created by using Adobe Indesign, Quark Xpress and Adobe distiller.
- 2.1.3 To list copy editing symbols and marks
- 2.1.4 To distinguish proof reading symbols and marks.

MODULE III HTML AND XML

3.1.0 To know HTML and XML

- 3.1.1 To define HTML and XML
- 3.1.2 To discuss basic tags and attributes of HTML
- 3.1.3 To describe how image handling is done using HTML
- 3.1.4 To define Cascading method and syntax (CSS)
- 3.1.5 To discuss CSS properties.
- 3.1.6 To list out the features of XML
- 3.1.7 To distinguishes HTML and XML
- 3.1.8 To discuss various Steps for the creation of XML document

MODULE IV WEB TO PRINT

4.1.0 To understand digital work flow and Digital Workflow for web to print

- 4.1.1 To define web to print.
- 4.1.2 To discuss Network concepts and Interfaces
- 4.1.3 To explain Digital Workflow for web to print.
- 4.1.4 To discuss Production Management/Monitoring Systems

CONTENT DETAILS

MODULE I

Introduction about E-publishing, Advantages and disadvantages of E-Publishing.

Basic principles of E-book, List of various manufactures of E-book and Application of E-book.

Steps involved for creation of e-book – Editing - Types of E-book editing – HTML compiler, PDF compiler, other compiler, Cover page design, E-book design, ISBN registration - Barcode, Copyright certification and Marketing.

Marketing strategies -Ezines, Joint ventures, Pay-per-click search engines, Search engines, Press releases and news.

MODULE II

Introduction about PDF, Application of PDF, Adobe PDF for professional publishing, PDF production using Adobe Indesign, Export a document, PDF predefined presets and PDF versions.

Steps involved in PDF production using Quark Xpress, Introduction about Adobe distiller and Steps involved PDF production using Adobe distiller.

Copy editing using symbols and marks, Qualification and duties of copy editor.

Proof reading – Proof reading symbols, Methods of Proof reading, Proof reading marks, Proof reading symbols and meaning.

MODULE III

Introduction about HTML, Meaning for HTML, Definition of tag and syntax.
