

COURSE TITLE : QUALITY MANAGEMENT & STANDARDIZATION LAB
COURSE CODE : 6108
COURSE CATEGORY : P
PERIODS/ WEEK : 4
PERIODS/ SEMESTER : 60
CREDIT : 2

Course Outcomes:

G.O	ON THE COMPLETION OF THE STUDY OF THIS MODULE STUDENT WILL BE ABLE :
1	To identify the problems using different patches
2	To evaluate different print properties using densitometer and spectrophotometer
3	To measure different properties of paper
4	To measure different properties of ink

PRACTICAL EXPERIMENTS:

1. Identifying problems using different quality control patches
2. Determining the different print properties using densitometer – density, trapping, dot gain, print contrast, etc.
3. Measuring color values using spectrophotometer
4. Testing of paper grain direction of the paper sample
5. Measuring of different paper properties using appropriate equipments
6. Finding the pH and conductivity of the dampening solution
7. Measuring different properties of ink using appropriate equipments
8. Identifying print related problems - causes and remedie
