

COURSE TITLE : TEXTILE TESTING & QUALITY ASSURANCE-II PRACTICAL
COURSE CODE : 6068
COURSE CATEGORY : A
PERIODS/ WEEK : 5
PERIODS/ SEMESTER : 75
CREDIT : 3

Course Outcome :

SL NO.	STUDENT WILL BE ABLE TO
1	Understand measurement of yarn count
2	Know the estimation of yarn twist
3	Understand the measurement of yarn strength
4	Know the estimation of yarn evenness, hairiness and calssimat fault
5	Understand the estimation of cover factor, dimensions and crimp of fabric
6	Know the determination of fabric strength
7	Understand the estimation of abrasion, pilling and drape of the fabric
8	Know the determination of crease property and stiffness of the fabric
9	Understand the determination of air and water permeability of the fabric
10	Know the color matching of dyed fabric

LIST OF EXPERIMENTS

1. Yarn count test by analytical balance
2. Yarn count test by Knowles balance
3. Single yarn twist test by tension type twist tester
4. Double yarn twist test by take up twist tester
5. Yarn twist test by electronic yarn twist tester
6. Single yarn strength test
7. Lea strength test
8. Yarn evenness test by ASTM black board appearance
9. Yarn evenness test by Uster evenness tester
10. Yarn hairiness test
11. Yarn fault test
12. Fabric Yarn count test by Beesley's balance
13. Fabric cover factor test
14. Fabric thickness test
15. Warp and weft crimp test
16. Fabric tensile strength test
17. Fabric tearing strength test
18. Fabric bursting strength test
19. Fabric crease recovery test
20. Fabric stiffness test
21. Fabric abrasion and pilling test
22. Fabric drape test

23. Fabric air permeability test
24. Fabric water permeability test
25. Color matching

INSTRUMENTS, EQUIPMENTS & TOOLS

1. Analytical balance (electronic) 1mg-100gm
2. Direct yarn count balance (Knowles balance
3. Single yarn breaking strength tester – 0 to 50 Kgs
4. Wrap reel
5. Lea strength tester - 0 to 50 Kgs
6. Single yarn twist tester
7. Double yarn twist tester
8. Electronic twist tester
9. Yarn appearance winder
10. ASTM standard boards
11. Uster evenness tester
12. Uster yarn classimat fault tester
13. Yarn hairiness tester
14. Fabric yarn count balance (Beeley's balance)
15. Counting glass
16. Fabric thickness gauge
17. Fabric Crimp tester
18. Fabric tensile strength tester
19. Fabric tearing strength tester
20. Fabric bursting strength tester
21. Crease recovery tester
22. Cloth stiffness tester
23. Abrasion resistance tester
24. Pilling tester
25. Drape meter
26. Air permeability tester
27. Water permeability tester
28. Color matching system- Spectrophotometer
