

COURSE TITLE : PRESS TOOL DRAWING
COURSE CODE : 5118
COURSE CATEGORY : P
SEMESTER : 5
PERIODS PER WEEK : 4
PERIODS PER SEMESTER : 60
CREDITS : 3

TIME SCHEDULE

MODULE	TOPIC	PERIODS
1	Draw Guide Plate Tool Blanking Tool with die set Strip layout for progressive tool	12
2	Progressive tool with piercing and blanking Progressive tool incorporating stock lifters, Cut and carry, Cutting and non cutting punches Parting off punching	28
3	Progressive tool incorporating traveling stripper, Cut off punches, Side cutter, Split dies	20
	TOTAL	60

COURSE OUTCOMES

On completion of course, Students will be able to:

- 1.Comprehend Press Tool drawing.
- 2.Know the Progressive Tool with Piercing and Blanking.
- 3.Understand the progressive tool with strippers-Side cutter-Split dies-Stock lifter

SPECIFIC OUTCOMES

MODULE: I

1.1.0 Comprehend press tool drawings

1.1.1 Draw guide plate tool-single stage-progressive

MODULE:II.

2.1.0 Know Progressive tool with piercing and blanking

2.1.1 Draw Blanking tool with die set

2.1.2 Draw the detailed and assembled views of progressive tools-various types

MODULE:III

3.1.0 Understand progressive tool with -strippers-side cutter-split dies-stock Lifters.

3.1.1 Draw progressive tool with -strippers-side cutter-split dies-stock lifters

3.1.2 Identify and draw- cutting and non-cutting punches-parting off punches

CONTENT DETAILS

MODULE:I.

Guide plate tool – single stage – progressive guide plate tool Blanking tool with die set Strip layout – single row, two rows, irregular contour

MODULE:II.

Progressive tool with piercing and blanking, progressive tool with finger stop, fixed, Stop, rigger stop

MODULE:III

Progressive tools with strippers, side cutter, split dies Stock lifters, cut and carry, cutting and non cutting punches, parting off punches.
