

DIPLOMA EXAMINATION IN ENGINEERING
/TECHNOLOGY/MANAGEMENT/COMMERCIAL PRACTICE.
MODEL QUESTION PAPER
BUILDING SERVICES

Time: 3 hours

Maximum marks: 75

PART A

I. Answer all the following questions in one word or one sentence. Each question carries one mark.

(9 x 1 = 9 Marks)

Module Outcome Cognitive level

1	What is meant by RCCB?	M1.01	R
2	Define earth electrode.	M1.02	R
3	 are used to join two straight pieces of pipe of the same diameter.	M2.01	R
4	Differentiate between soil pipe and waste pipe.	M2.05	U
5	List any 4 types of ventilating systems utilized in buildings.	M3.01	R
6	Write any two purposes of air conditioning.	M3.03	R
7	Why is air conditioning in hospitals more significant?	M3.03	R
8	Define vertical transportation, and give examples.	M4.02	R
9	List various types of fire extinguishers.	M4.01	R

PART B

II. Answer any eight questions from the following. Each question carries three marks.

(8 x 3 = 24 Marks)

		Module Outcome	Cognitive level
1	List out different parts of a fuse. Write their functions.	M1.02	R
2	Write on the anti-siphonic pipe.	M2.05	R
3	Explain the purpose of rainwater harvesting.	M2.02	U
4	Explain the different systems of ventilation.	M3.01	U
5	Define Mechanical ventilation and write about any two types.	M3.02	R
6	Explain the passive measures for air conditioning of space.	M3.03	U
7	Write two recommendations for the good acoustical design of a building.	M3.04	R
8	What are the different classifications of fire?	M4.01	R
9	Explain the machine room and hoist way.	M4.02	U
10	List out the different parts of escalators.	M4.03	R

PART C

III. Answer all questions from the following. Each question carries seven marks.

(6 x 7 = 42 Marks)

		Module Outcome	Cognitive level
1	Explain different types of fuse units. OR Explain the following: -	M1.02	U
2	a. Cleat wiring b. CTS wiring	M1.01	U
3	List out the factors which affect earth resistance. OR	M1.02	R
4	Enumerate the properties of insulating materials.	MI.01	R

5	Illustrate with sketches, the design aspects of a septic tank. OR	M2.06	A
6	Illustrate with sketches the features of soak pits	M2.06	A
7	Explain the working of air valves in a water supply system. Write the function of the air valve in a water supply system. OR	M2.01	U
8	Explain the features of an overhead water tank.	M2.03	U
9	Explain any three systems of air conditioning provided in buildings. OR	M3.03	U
10	Summarize the factors that should be considered in the acoustical design of a concert hall.	M3.04	U
11	Explain the causes and consequences of fire accidents in buildings. OR	M4.01	U
12	Demonstrate any three design considerations required for lifts.	M4.02	U
