

SECOND SEMESTER DIPLOMA EXAMINATION IN ENGINEERING
AND TECHNOLOGY

SHORTHAND ENGLISH THEORY II
MODEL QUESTION PAPER – SET-1

Time: 3 hours

Maximum Marks: 75

PART A

I. Answer all questions in one word or one sentence. Each question carries one mark.

(9 x 1 = 9 Marks)

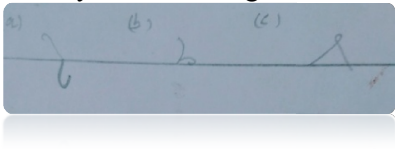

1	Initial R written downward when proceeded by a _____, and initially before ____.	M1.01	R
2	Medial l is generally written _____.	M1.02	R
3	All double length down strokes is written _____.	M2.02	R
4	In words of more than one syllable, a stroke may be halved for either _____ or _____.	M2.05	R
5	Half-length forms should not be written through the line for _____.	M2.06	R
6	Initial con-,com- represented by _____.	M3.01	R
7	In suffixes, Logical and Logically are expressed by a disjoined _____.	M3.01	R
8	In logograms joined or disjoined, may be used as _____ or _____.	M3.03	R
9	_____ are formed from contracted lines by attaching a prefix or suffix.	M4.02	R

PART B

II. Answer any eight questions from the following. Each question carries 3 marks

(8 x 3 = 24 Marks)

1	Explain the principles of writing L upward and downwards.	M1.02	U
---	---	-------	---

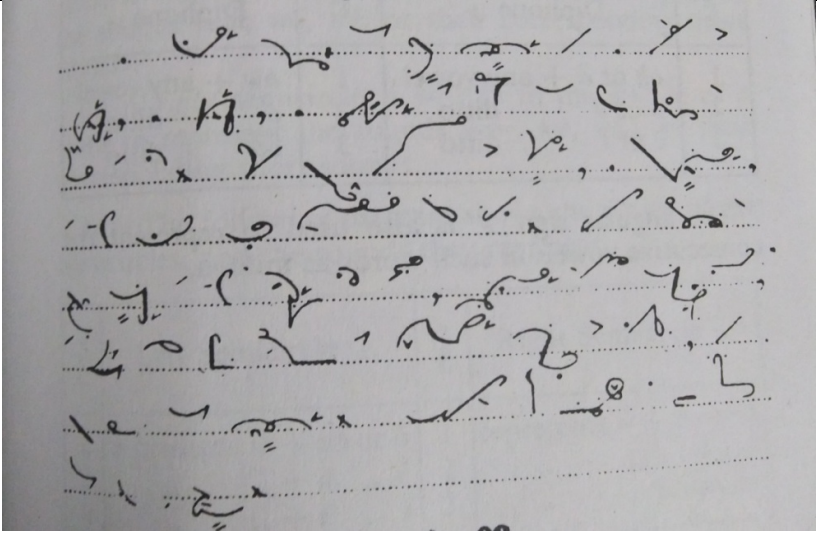

2	Write the following outlines. 1. Whether 2. Impossible 3. Important	M1.05	R
3	Explain the principles of writing upward and downward SH	M1.02	U
4	Write the following outlines 1. Cannot 2. Opportunities 3. Tried	M2.01	R
5	Explain the positions of double length strokes	M2.03	U
6	Explain the rules of using diphones	M2.06	U
7	Describe the principles of medial semicircle.	M3.01	U
8	Write the following outlines 1. Selfishness 2. Inscription 3. Instruction	M3.03	R
9	Identify the following contractions 	M4.01	A
10	Write the following figures in shorthand 1. 500 2. 6000 3. \$ 17000	M4.02	R

PART C

Answer all questions. Each question carries seven marks

(6 x 7 = 42 Marks)

III	Explain the principal of writing L and SH upward and downwards.	M1.01	U
	OR		
IV	Explain the principals of compound consonants	M1.04	U
V	Explain the doubling principals	M2.03	U
	OR		
VI	Write in English	M2.05	A

			
VII	Write the following out lines 1. Child 2. Hand 3. Told 4. Particular 5. Gentleman 6. Towards 7. Under	M2.01	A
	OR		
VIII	Write the following out lines 1. Sprit 2. Word 3. Rather 4. Short 5. Send 6. Therefore 7. Third	M2.03	A
IX	Explain the principles of Prefixes of understanding	M3.02	U
	OR		
X	Write the following outlines 1. This was 2. At the same time 3. We are able to 4. According to the 5. At some time 6. That was 7. You will be able to	M3.03	A
XI	Explain the conditions while writing negative words in prefixes	M3.02	U
	OR		
XII	Identify different suffixes	M3.03	U
XIII	Write a letter to a friend regarding a movie	M4.03	U
	OR		
XIV	Precis the following passage Everybody knows what a “good” man means and how he should be. Our definition of a good man is the one who does not smoke, or drink or avoids the usage of bad language. A good man is ideally expected to converse in front of men as he would in front of women. He is also expected to attend the Church regularly and have correct opinions on all subjects. He has a wholesome horror of wrong-doing and realizes that it is our painful duty to reprimand sin. He is not anticipated to have wrong thinkings and has the authority to protect	M4.04	U

	the young. His duties are not just restricted to the professional front but also needs to spend quality time doing good deeds. He must be patriotic and a keen believer of military training, he should promote industry, must be sober and have virtue among wage earners and their children. He must be a role model for all and it is expected that he leads a way which the younger generation would willingly follow. Above all, of course, his “morals” in the narrow sense must be admirable.

SECOND SEMESTER DIPLOMA EXAMINATION IN ENGINEERING
AND TECHNOLOGY

SHORTHAND ENGLISH THEORY II
MODEL QUESTION PAPER – SET-2

Time: 3 hours

Maximum Marks: 75

PART A

I. Answer all questions in one word or one sentence. Each question carries one mark.

(9 x 1 = 9 Marks)

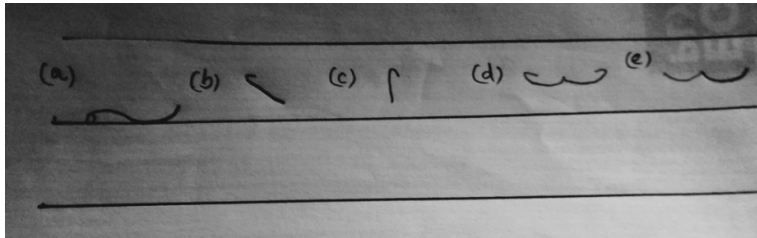

1	Write outline of Barely.	M1.01	R
2	Final l is written downward after _____ and _____.	M1.02	R
3	Half-length form should not be written _____ the line for vowel indication.	M2.02	R
4	The halving principles are used in phraseography to represent <i>it</i> , <i>not</i> , _____ and _____.	M2.05	R
5	The doubling principles is not applied when a _____ immediately follows –tr, -dr, etc.	M2.6	R
6	A semicircle is employed medially as an alternative to the stroke _____.	M3.01	R
7	A disjoined circle s written in the second place represented by _____.	M3.01	R
8	_____ May be used as suffixes and prefixes.	M3.03	R
9	The principal monetary unit pounds expressed as _____.	M4.02	R

PART B

II. Answer any eight questions from the following. Each question carries 3 marks

(8 x 3 = 24 Marks)

1	Give the outline for the following. 1. Just now 2. Last year 3. This is 4. At first	M1.02	R
---	--	-------	---

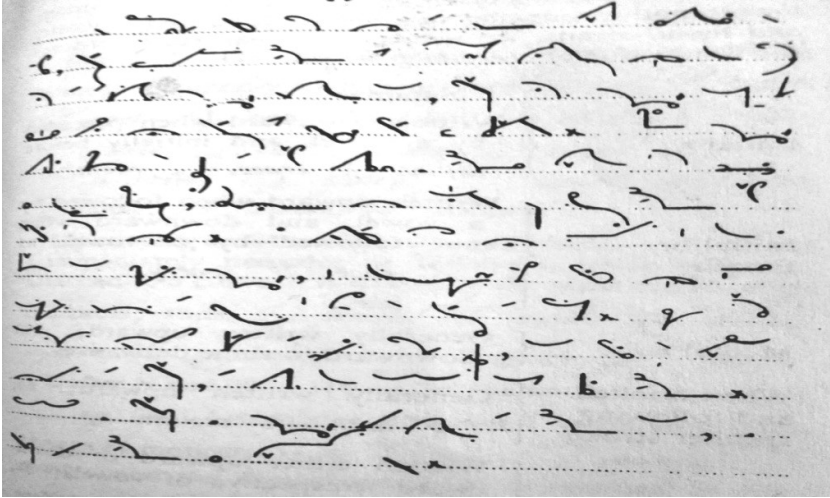

2	Explain the principles of compound consonants.	M1.01	U
3	Identify the following outlines. 	M1.02	U
4	Describe with examples the doubling of strokes mp/mb.	M 2.02	U
5	Explain diphones in short hand.	M2.05	U
6	Explain the general rule of halving principle?(sec.1)	M2.02	U
7	Explain the application of suffix –Fulness and –lessness or –lousness.	M3.03	U
8	How the prefixes TRANS, MAGNA and INTRO are written.	M3.02	U
9	Give the outline for the following. 1.attainment 2.Ministry 3.Propect 4.Irrespective	M4.01	R
10	Give the outline for the following figures. 1.400 2. \$15000 3.400000 4.£6000	M4.02	R

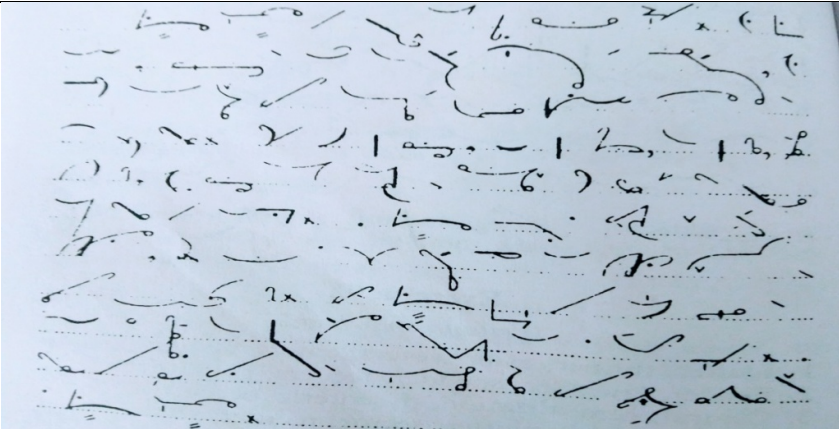

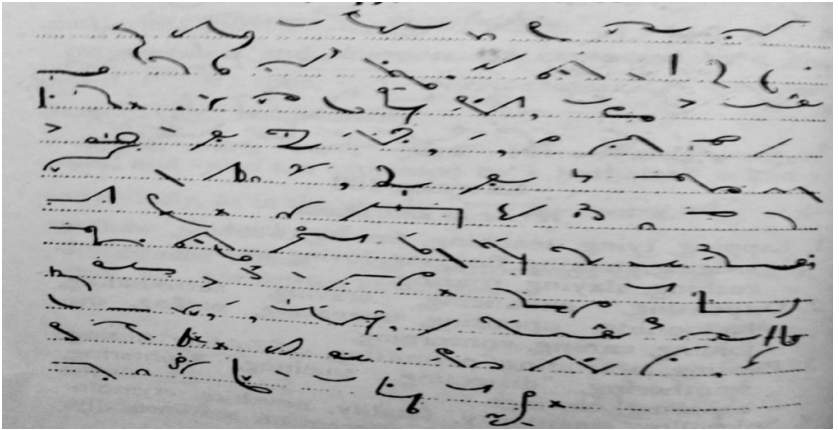

PART C

Answer all questions. Each question carries seven marks

(6 x 7 = 42 Marks)

III	Write in to shorthand. I-have-no wish to impose my views upon-the ambassador, or to embarrass him by asking for impossible improvements; but it-is important I should impress upon him the chancellor's opinion in-the case of-those lumber vessels. You-will-see how imperative it-is I should see-the ambassador, if-we-are to-have any improvement in-our relations just-now. I-desire to discover whether-the whaler's story is true, or –the idle tale of a willful imposter. I-shall occupy only a quarter of an hour, and-I-am-sure the ambassador will agree the importance of-the case is well worth-the time.	M1.04	A
-----	--	-------	---

	OR		
IV	 Write above shorthand in to English.	M1.04	A
V	Explain the applications of upward and downward SH?	M1.02	U
	OR		
VI	Explain the rules in writing L and vowel indication.	M1.02	U
	OR		
VII	Describe Position of Double-length strokes? And also explain the circumstances under which doubling principles not employed?	M2.03	U
	OR		
VIII	Write in Shorthand. It-has-been maintained that certainty does-not admit of degrees of any kind; that-there-can-be no shade of difference in-the intensity of-our certainty. But let us see. A man may-be certain that-he settled his debt with-his tailor-on-the 10th of October and-in cash or that-he paid his local rates on demand. But is-this certainty equalled by-the certainty with-which he knows that three and four make seven or that heat will melt butter? Is there not a great difference?	M2.02	A

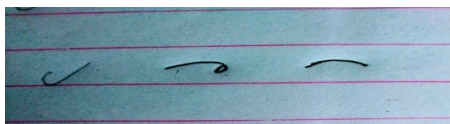

IX	 Write above shorthand in to English.	M2.03	A
	OR		
X	Explain under which circumstances joining of strokes of unequal length.	M2.03	U
XI	Explain the application of suffix 'ING'.	M3.03	U
	OR		
XII	Write in to English. 	M3.04	A
XIII	Give the outline for the following figures. 1. 400 2. \$15000 3. 400000 4. £6000 5. 200 6. 3000 7. 400 Fr.	M4.02	R
	OR		
XIV	Give the outline for the following. 1. Passenger 2. Danger 3. Attainment 4. Demonstrate 5. Prospect 6. Production 7. Objection	M4.02	R

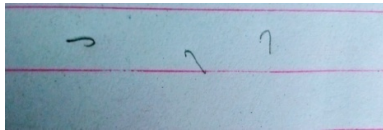

ANSWERSKEY SET - 1

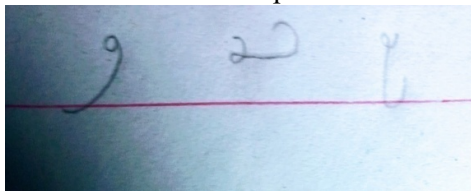

SHORTHAND ENGLISH THEORY II

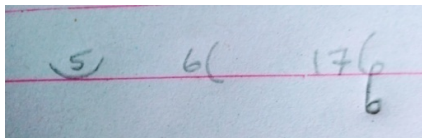

SL. NO	SCORING INDICATOR	SCORE
1	A vowel and initially Before M.	9*1=9 One mark for each answer
2	Upward.	
3	Written through the line.	
4	T or D.	
5	Vowel indication.	
6	A light dot.	
7	Disjoined "j".	
8	Prefixes and suffixes.	
9	Contractions.	

II

1	DOWNWARD AND UPWARD 'L' The liquid 'l' is represented by a light curved stroke. The stroke 'l' can be written either upward or downward for better joining with other strokes. When 'l' is standing alone, with or without any attachment is written upward. The initial 'l' is written upward when followed by a down stroke. The initial 'l' is written upward when not preceded by vowel and followed by a simple horizontal stroke. But when a vowel precedes downward 'l' is written; thus, along; but long. Final 'l' is written upward when following all straight down strokes, with or without a final vowel. Final 'l' is written upward when following all curved down strokes, except 'f', 'v', 'n', 'ng', with or without a final vowel. Medially 'l' is generally written upward when followed by horizontal strokes.	Three marks for each answer. The candidate can choose any eight questions to answer out of ten.
2	Write the following outlines. 1. Whether 2. Impossible 3. Important 	
3	DOWNWARD AND UPWARD 'SH' The light curved down stroke 'sh' is written either upward or	

	downward for convenience in joining and also for vowel indication. 'sh' when standing alone is always written downward. Initial 'sh' is mostly written downward; but before 'f', 'v', 'th', 'TH', 'l' it is written upward. Final 'sh' is generally written downward; but it is written upward after 'd', 'f', 'v', 's'. After upward 'l' not preceded by a stroke, final 'sh' is written downward, but it is written upward in past tenses. When a straight down stroke has an initial attachment, the final 'sh' is written on the opposite side to maintain the straightness of the straight down stroke. After two or more down strokes, 'sh' is generally written upward; just not to carry away far from the writing line. 'sh' is written medially in the direction which gives sharper angle or more convenient outline. Derivatives generally follow their rootwords.	8*3=24
4	Write the following outlines 1. Cannot 2. Opportunities 3. Tried 	
5	Position of double length strokes a) All double length downstrokes are written through the line whether there is a first, second or third place vowel, e.g. painter voter tender avoider fitter b) All double length horizontal strokes will be written on the line if the first sounded vowel is of second or third place e.g. motor enter metre nature neater Doubling of straight strokes A straight stroke can be doubled for the addition of tr. dr. THr. and ture when: i) another stroke occurs before it e.g. folder chapter dictator picture ii) has an initial circle e.g. sector scatter spider iii) has a final hook or final joined diphthong e.g. painter printer tutor Doubling of Curved strokes a) Curved strokes are doubled to indicate tr. dr. THr, ture, e.g. enter finder order father mother future nature..... b) When a final circle 's' is attached to double length forms, it is to be read after tr. dr. THr, etc. matters letters pictures Doubling of stroke 'L' a) Only tr. will be added when stroke 'L' standing alone is doubled. Circle 'S' can also be added. e.g. letter letters litre litres	

	b) However, stroke 'L' can be doubled for tr. or dr. when it has attachments e.g. lender slaughter holder money-lender..... EXCEPTIONS The doubling principle is not employed in the following cases: a) in past tenses of any word; e.g. wonder..... But wondered..... Enter..... but entered Ponder..... But pondered..... Matter..... but mattered b) When a vowel follows final tr. dr. Thr. because the final vowel requires a final stroke for the vowel sign e.g. anger..... But angry..... Flatter..... But flattery..... Inventor..... But inventory..... Winter..... But wintry.....	
6	DIPHONES Definition "Diphones is a union of two vowel sounds occurring consecutively and pronounced separately." Diphones are represented by two angular signs as..... And..... The rules for diphones are given below: (i) DOT VOWEL DIPHONES In a diphones, if the first vowel is a dot vowel and the second, any other vowel (any one out of the remaining eleven), the diphones sign will be represented by an angular sign..... and written at the position of first vowel e.g. theory layer real gaity laying Leo neo..... Asia radio..... Zia..... (ii) DASH VOWEL DIPHONES In a diphones, if the first vowel is a dash vowel and the second, any other vowel (any one out of the remaining eleven) the diphones sign will be represented by an angular sign and written at the position of the first vowel e.g. poet lower poem goa goal (Goyal).....going sawing lui	
7	1. A semi circle is employed medially as an alternative to stroke w. 2. A medial left semi circle represents wah, wa, we, or the corresponding short sounds. 3. A medial right semi circle represents waw, wo, woo or the corresponding short sounds.	
8	Write the following outlines 1. Selfishness 2. Inscription 3. Instruction 	
9	Identify the following contractions 1. Production 2. Assignment 3. Respect-ed.	

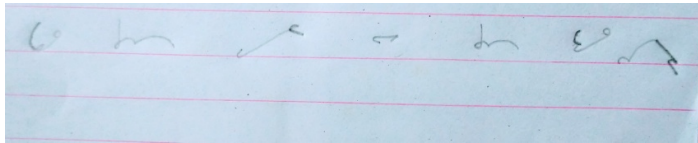

10	Write the following figures in shorthand 1. 500 2. 6000 3. \$ 17000 	
----	---	--

III	DOWNWARD AND UPWARD ‘L’ The liquid ‘l’ is represented by a light curved stroke. The stroke ‘l’ can be written either upward or downward for better joining with other strokes. When ‘l’ is standing alone, with or without any attachment is written upward. The initial ‘l’ is written upward when followed by a down stroke. The initial ‘l’ is written upward when not preceded by vowel and followed by a simple horizontal stroke. But when a vowel precedes downward ‘l’ is written; thus, along; but long. Final ‘l’ is written upward when following all straight down strokes, with or without a final vowel. Final ‘l’ is written upward when following all curved down strokes, except ‘f’, ‘v’, ‘n’, ‘ng’, with or without a final vowel. Medially ‘l’ is generally written upward when followed by horizontal strokes. DOWNWARD AND UPWARD ‘SH’ The light curved down stroke ‘sh’ is written either upward or downward for convenience in joining and also for vowel indication. ‘sh’ when standing alone is always written downward. Initial ‘sh’ is mostly written downward; but before ‘f’, ‘v’, ‘th’, ‘TH’, ‘l’ it is written upward. Final ‘sh’ is generally written downward; but it is written upward after ‘d’, ‘f’, ‘v’, ‘s’. After upward ‘l’ not preceded by a stroke, final ‘sh’ is written downward, but it is written upward in past tenses. When a straight down stroke has an initial attachment, the final ‘sh’ is written on the opposite side to maintain the straightness of the straight down stroke. After two or more down strokes, ‘sh’ is generally written upward; just not to carry away far from the writing line. ‘sh’ is written medially in the direction which gives sharper angle or more convenient outline. Derivatives generally follow their rootwords.	7 Answer any one question from the choice. Each answer carries seven marks
	OR	
IV	Rules for the use of the compound consonants:- 1. The compound consonants KW, GW, WH, MP or MB are used when two consonants immediately succeed one another without any vowel between them. 2. Similarly the other compound consonants are used when they	7

	immediately succeed one another. (i) The compound consonants KW(kwa) & GW (gwa) A large initial hook written with the left motion or anticlockwise motion to the stroke k prefixes w and thereby represents the compound consonant kw. For example: quick..... Request requires inquiry quote..... Exceptions : The compound consonant kw is not employed in the following cases: (i) In order to avoid lengthy or awkward form, especially when the outline is quite legible without the 'w' being expressed. Thus..... quality qualitative (ii) In the derivatives from the logograms.....equal: Thus:-equality..... equalise..... equalisation equalizing. (iii) In distinguishing outlines. Thus.....‘queer’ to keep distinct from‘clear’ notwithstanding the difference in the size of the initial hook. The compound consonant.....gw (gwa) A large initial hook written with the same motion like kw to the stroke g, prefixes w, and thereby represents gw. Thus lingual..... linguist..... The final attachments in the forms of circle, loops or hooks can be added to 'gw'. Example..... linguist..... penguin..... Note: When 'gw' occurs medially before 'sh', the outline is contracted by omitting the 'g' and expressing the 'w' and following vowel by the diphthong. Thus..... anguish.....languish The Compound Consonant.....WH (HWA) When the sound of aspirate 'h' immediately precedes 'w', the compound consonant 'hw' is formed. It is represented by enlarging the initial hook of stroke 'w'. It is used initially and medially. For examplewheywhip..... whig..... The Compound Consonant.....WL (WEL) A small initial hook written inside upward 'L' prefixes 'W' and thereby represents the compound consonant 'WL'. It is used initially, medially and finally example: wail.....well.....wall.....wool..... commonwealth..... unwilling unwellill-will. The final attachments are affixed to 'wl' in the same manner as they are attached to all the other curved strokes. The Compound ConsonantWHL (HWEL) When the sound of 'h' immediately precedes 'wl' the compound consonant 'hwl' is formed. It is represented by enlarging the small initial hook of the Compound consonant 'wl' and is used initially and finally: 132:: Shorthand Writing For example:wheel.....whiled.....whelm..... The Compound Consonant.....LR (LER) The downward	
--	---	--

	'L' thickened adds 'r' and thereby represents the compound consonant 'Lr'. The compound consonant 'Lr' is never used initially. It is employed after the strokes to which final 'L' is written downward: a) After the strokes f,v,sk,kw,skw and the straight upstrokes r,w,y, and h. The Compound Consonant.....RR (Rer) The downward 'R' thickened adds er and thereby represents the compound consonant 'rer'. It is only used finally. For example...repair.....bearer.....curer..... fairer. Initial and final attachments are also added with 'rr'. Thus.....swearers.....bearers.....ad mi The Compound Consonant.....MP or MB (Emp or Emb) The stroke 'm' when thickened adds 'p' or 'b' and thereby represents the compound consonant mp or mb. It must be used without a vowel between the two consonants. It is used initially, medially and finally: For example:embody.....camp lamp. Initial and final attachments can be written with 'mp' and 'mb'	
V	a) All double length down strokes are written through the line whether there is a first, second or third place vowel, e.g. painter voter tender avoider fitter..... b) All double length horizontal strokes will be written on the line if the first sounded vowel is of second or third place e.g. motor enter meter nature neater Doubling of straight strokes A straight stroke can be doubled for the addition of tr. dr. THr. and ture when: i) Another stroke occurs before it e.g. folder chapter dictator picture..... ii) Has an initial circle e.g. sector scatter spider..... iii) Has a final hook or final joined diphthong e.g. painter printer tutor..... Doubling of Curved strokes a) Curved strokes are doubled to indicate tr. dr. THr, ture, e.g. enter finder order father mother future nature..... b) When a final circle 's' is attached to double length forms, it is to be read after tr. dr. THr, etc. matters letters pictures Doubling of stroke 'L' a) Only tr. will be added when stroke 'L' standing alone is doubled. Circle 'S' can also be added. e.g. letter letters	7

	litre litres b) However, stroke 'L' can be doubled for tr. or dr. when it has attachments e.g. lender slaughter holder money-lender..... EXCEPTIONS The doubling principle is not employed in the following cases: a) in past tenses of any word; e.g. wonder..... But wondered..... Enter..... But entered..... Ponder..... But pondered..... Matter..... But mattered..... b) When a vowel follows final tr. dr. Thr. because the final vowel requires a final stroke for the vowel sign e.g. anger..... But angry..... Flatter..... But flattery..... Inventor..... But inventory..... Winter..... But wintry.....

VI	The various rooms in-the British Museum are the resort of-the theologian the geologist, the historian, and-the scholar in every department of science and art. There-are to be-found relics of-the Assyrians, the Babylonians, and other ancient nations long-since passed away. Wonderful specimens of beautiful Indian and other oriental arts and-crafts, miscellaneous ornaments ingeniously carved, and showing-the most delicate work and-the liveliest imagination of-the artist, are to be seen in-the Museum. No-wonder that-it exercises a great attraction for-the visitor to-London	7
VII	Write the following out lines 1. Child 2. Hand 3. Told 4. Particular 5. Gentleman 6. Towards 7. Under 	7
	OR	
VIII	Write the following out lines 1. Sprit 2. Word 3. Rather 4. Short 5. Send 6. Therefore 7. Third 	7
IX	(a) Initial-Con-Com is represented by a light dot written before the commencement of the following stroke, e.g., condition..... continue..... company conversation contrary complaint (b) Medial Con-Com-Cum-Cog is represented by writing the syllable or word by disjoining the preceding syllable or word with the following syllable, e.g. misconduct disconnect recognize	7

	discomfort uncommon..... However sometimes the syllable con-com is also written in full for the sake of legibility e.g. commissioncommerce..... (c) Accom or Accommo is represented by joined or disjoined 'k' (always in the first position) accompany accommodate accomplish..... (d) Intro is represented by double length 'N' and the following stroke is written in the third place e.g. introduce introducedintrospection..... (e) Magna-Magne-Magni is expressed by disjoined m and the following stroke is written in first place e.g. magnanimous magnificent magnetize..... (f) Trans is contracted in many words by omitting the n and is written in first place e.g. transfers translate transcribe..... (g) Self is represented by a small disjoined circle written immediately before the following stroke in the IInd place e.g. self made self defense self help self-satisfied..... (h) Self-con is also represented by a small disjoined circle but the circle is written in the place of con dot i.e., just before the commencement of the following stroke. e.g. self control self confidence self contained (i) In before str ...skr and..... H (upward) is represented by a small hook, written in the direction of s circle e.g. instruct inhabit inscriber..... (j) Un-, Il-, Im- (Negative words) are represented by repeating the first consonant e.g. unknown unnecessary illegal..... In- in negative word is always expressed by the stroke n, as in inhuman inhospitable.....	
	OR	
X	Write the following outlines 1. This was 2. At the same time 3. We are able to 4. According to the 5. At some time 6. That was 7. You will be able to 	7
XI	Negative words: The small hook written for 'in-' is never used in words where it signifies 'not'. In such words where 'in-' gives a negative meaning, it must be written with stroke 'n'; thus compare hospitable ,inhumanity. il- , im-, in-, ir-, un. The prefixes il-, im-, in-, ir-, un are represented by writing the downward 'r' or 'l' when the rules for writing them permits, besides distinction between positive and negative words is obtained; thus, compare resolute, irresolute, resistible, irresistible limitable, illimitable. In other cases the prefixes il-, im-, in-, ir-, un- are represented by repeating l, m, n, or r, where distinction between positive and negative	7

	could also be obtained; thus, compare Legal, illegal, Mortal, Necessary, irradiance Logograms Logograms can be used as prefixes or suffixes; thus almost undermine	
	OR	
XII	Final ing- The syllable ng- is generally represented by stroke Where this stroke cannot be written or when written, it would result in awkward joining, a light dot is used to represent the suffix 'ing', as detailed below: The dot 'ing' is written (a) After light straight down strokes and downward 'r', as in paying, tying, chewing, hearing. (b) After circle 'ns'; after 'k' or 'g' hooked for 'f' or 'v'; and after an upstroke finally hooked bouncing, coughing, starving, (c) After half-length or double length strokes, where no angle would be obtained by writing stroke ; thus plotting, mating, folding, (d) After some logograms where it is convenient to use dot; and in other cases stroke is convenient to write. coming, thinking, remembering; but stroke is convenient in wishing, surprising -ings Wherever -ing is represented by dot, in those cases, -ings is represented by dash dropping, droppings winning, winnings, carving, carvings, posting, postings -ing is not used medially The dot -ing cannot be used medially and hence stroke is to be used; thus sparing, sparingly, deserving, deservingly. -ality, -ility, -arity, -ority, -elty and similar terminations -Ality, -ility, -arity, -ority, -elty and similar terminations are expressed by disjoining the stroke occurring just before the termination; thus hospitality, acceptability, inability solidarity, majority, novelty, frivolity prosperity casualty In few cases, full form is written to obtain more distinct outline; thus speciality, reality actuality, personality, etc · -logical and -logically -Logical and -logically are represented by disjoined 'j' ; thus ideological psychological mythological -ment -Ment is generally represented by mnt. Where this form of mnt is not convenient to join, the termination -ment is represented by nt; thus agreement, document, supplement, but refinement, ferment -mental -mentally -Mental, -mentally, and -mentality are expressed by disjoined mnt; thus sentimental fundamental instrumental ,hospitality, neutrality acceptability, inability solidarity, popularity majority, minority novelty, frivolity prosperity casualty speciality, reality actuality, seniority, personality, etc. ical-ly psychological-ly, mythological-ly agreement, document supplement, but refinement, pre-achievement, sentimental-ly-lity fundamental-ly instrumental-ly-ity. -ly -Ly is expressed by joined or disjoined 'l' and in some cases with hook 'l' also; thus Jointly, blindly, evenly, kindly, strongly, cheaply,	7

	roughly -ship -ship is expressed by a joined or disjoined 'sh' ; thus citizenship, scholarship, ship, township, In some cases, for legibility 'sh' is written fully with 'sh' & 'p'. Steamship, ship, worship. -fullness -fullness is represented by disjoined 'fs' ; thus hopefulness, fulness, -lessness, -lousness -Lessness and –lousness are represented by disjoined 'ls'; thus hopelessness, carelessness, useless perilousness -ward, -wart -wort -Ward, -wart, -wort are expressed by joined half-length 'w' ; thus forward, stalwart, -yard -Yard is represented by joined half-length 'y' ; thus brickyard, backyard	
XIII	9/A Talpuri Bhilai Dear friend How are you? I hope you are fine. I want to tell you about the new movie ' URI ' which I have recently watched. It was the best movie which I have watched in my life. The movie is based on the surgical strike happened in 2016 in Indonesia. It was a very interesting and we enjoyed very much. I insist you if you haven't watched yet then go and watch. At last come soon I am waiting and also give your best in your exams best of luck yours lovingly your name	7

2	Explain the principles of compound consonants. Rules for the use of the compound consonants:- 1. The compound consonants KW, GW, WH, MP or MB are used when two consonants immediately succeed one another without any vowel between them 2. Similarly the other compound consonants are used when they immediately succeed one another. (i) The compound consonants KW (kwa) & GW (gwa) A large initial hook written with the left motion or anticlockwise motion to the stroke k prefixes w and thereby represents the compound consonant kw.	

	For example: quick..... Requests require..... Exceptions : The compound consonant kw is not employed in the following cases: (i) In order to avoid lengthy or awkward form, especially when the outline is quite legible without the 'w' being expressed. Thus..... quality qualitative (ii) In the derivatives from the logograms.....equal: Thus:-equality..... equalize..... equalization equalizing. (iii) In distinguishing outlines. Thus.....‘queer’ to keep distinct from‘Clear’ notwithstanding the difference in the size of the initial hook. The compound consonant.....gw (gwa) A large initial hook written with the same motion like kw to the stroke g, prefixes w, and thereby represents gw. Thus lingual..... linguist..... The final attachments in the forms of circle, loops or hooks can be added to 'gw'. Example..... Linguist..... Note: When 'gw' occurs medially before 'sh', the outline is contracted by omitting the 'g' and expressing the 'w' and following vowel by the diphthong. Thus.....anguish.....languish Note: The sound of 'hwa' does not occur finally. The final attachments as in case of 'kw', 'gw' can be added to 'wh'. For examplewheezewhisky The Compound Consonant.....WL (WEL) A small initial hook written inside upward 'L' prefixes 'W' and thereby represents the compound consonant 'WL'. It is used initially, medially and finally. For Example: wail.....well..... The final attachments are affixed to 'wl' in the same manner as they are attached to all the other curved strokes. The Compound Consonant.....MP or MB (Emp or Emb) The stroke 'm' when thickened adds 'p' or 'b' and thereby represents the compound consonant mp or mb. It must be used without a vowel between the two consonants. It is used initially, medially and finally:	
3	Identify the following outlines. a. Something b. By all c. At all c.In our opinion d. Anything	
4	DOUBLE LENGTH MP/MB The character..... Mp-mb, when not initially or finally hooked, is doubled for the addition of -er. E.g. bumper..... Timber..... Chamber..... Jumper..... Amber..... September..... Temper..... Alternative forms of MPR/MBR The strokes MP/MB can also be represented in hooked form when attached to any upstroke or K. e.g. lumber..... Cumber..... Camper.....	

	Hamper.....	
5	DIPHONES Definition "Diphones is a union of two vowel sounds occurring consecutively and pronounced separately." Diphones are represented by two angular signs as..... And..... The rules for diphones are given below: (i) DOT VOWEL DIPHONES In a diphones, if the first vowel is a dot vowel and the second, any other vowel (any one out of the remaining eleven), the diphones sign will be represented by an angular sign..... and written at the position of first vowel e.g. theory layer real gaity laying Leo neo..... Asia radio..... Zia..... (ii) DASH VOWEL DIPHONES In a diphones, if the first vowel is a dash vowel and the second, any other vowel (any one out of the remaining eleven) the diphones sign will be represented by an angular sign and written at the position of the first vowel e.g. poet lower poem goa goal (Goyal).....going sawing lui 6 GENERAL RULES: (a) Writing a stroke to its half length indicates the addition of or 'd'. (b) In single syllable words (without a final hook or a joined diphthong), a light stroke is halved for addition thus, pat, plate, spate, fat, thought, shot, mate, but in words like paid, tied, kid, goat, food, showed, light strokes are not halved for the addition of 'd' and hence, full form is written. (c) In single syllable words (without a final hook or a joined diphthong), a light stroke is halved for the addition of and a heavy stroke is halved for the addition of thus, tight, treat, pat, pant, bed, bread, blade, dead, jade, good, but in words like paid, tidy, bat, date, jute, greet, light strokes are not halved for the addition of strokes are not halved for the addition of 't'. H form is written. (d) In single syllable words with final hook or joined diphthong a stroke is halved for the addition of either 't' or 'd' span, spent, spend, ban, bent, view, viewed, proud, paved, Kent, kind. (e) In words of more than one syllable, a stroke is halved for the addition of either 't' or 'd'; thus, skipped, raided, orbit, coupled, started. (f) Vowel signs to half-length forms are read next to the primary strokes; thus, apt, pat, thought, sect, skate, seeker, secret. Circle 's' at the end of half length form is read after the 't' or 'd' indicated by halving; thus, act, acts, bid, bids,	8*3=24 Three marks for each answer. The candidate can choose any eight questions to answer out of ten.

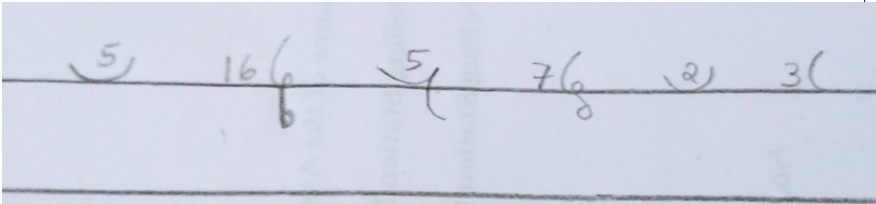

7	-Fullness -fullness is represented by disjoined 'fs' ; example: hopefulness, fulness. -lessness, -lousness -Lessness and -lousness are represented by disjoined 'ls'; thus hopelessness, carelessness, uselessness and perilousness	
8	The prefix Magna- or magne or magni- is represented by disjoined 'm'; thus magnanimous, magnetise, magnificent Trans- The prefix 'trans' is represented by joined 'trs' i.e. by omitting 'n', thus transfer , transmission Intro- Intro- is represented by joined double length 'n' (ntr); thus Introduce, Introspect

III	Write in to shorthand. 	7
	OR	

IV	Write above shorthand in to English. To secure-the best from himself and to-give right service to others, both-the clerical worker and-the manual labourer must have fresh air and healthy rooms to-live in, bright airy rooms into which-the sun's rays may pour and-the breezes blow when desirable. Dark rooms retain germs of disease and either reduce the workers life or weaken his physical strength, so-as-to-make him unable to-do severe work either of-brain or muscle. A robust man may carry on for a time In dreary rooms, but eventually such places must cause injury to-him and bring on loss of force and energy. He-will arise in-the-early morn dull and weary from-the outset, in place of rising merry and bright, and ready for anything in-the day's work. In-our-opinion the brighter the rooms we live and work in, the better our work is likely to be.	7
V	DOWNWARD AND UPWARD 'L' The liquid 'l' is represented by a light curved stroke. The stroke 'l' can be written either upward or downward for better joining with other strokes. When 'l' is standing alone, with or without any attachment is written upward. The initial 'l' is written upward when followed by a down stroke. The initial 'l' is written upward when not preceded by vowel and followed by a simple horizontal stroke. But when a vowel precedes downward 'l' is written; thus, along; but long. Final 'l' is written upward when following all straight down strokes, with or without a final vowel. Final 'l' is written upward when following all curved down strokes, except 'f', 'v', 'n', 'ng', with or without a final vowel. Medially 'l' is generally written upward when followed by horizontal strokes. DOWNWARD AND UPWARD 'SH' The light curved down stroke 'sh' is written either upward or downward for convenience in joining and also for vowel indication. 'sh' when standing alone is always written downward. Initial 'sh' is mostly written downward; but before 'f', 'v', 'th', 'TH', 'l' it is written upward. Final 'sh' is generally written downward; but it is written upward after 'd', 'f', 'v', 's'. After upward 'l' not preceded by a stroke, final 'sh' is written downward, but it is written upward in past tenses. When a straight down stroke has an initial attachment, the final 'sh' is written on the opposite side to maintain the straightness of the straight down stroke. After two or more down strokes, 'sh' is generally written upward; just not to carry away far from the writing line. 'sh' is written medially in the direction which gives sharper angle or more convenient outline. Derivatives generally follow their rootwords.	7
	OR	
VI	For the purpose of vowel indication, initial l is written downward when preceded by a vowel and followed immediately by a horizontal, not hooked or circled initially. Example Alike, Like, Alone, Lone. Also for the purpose of vowel indication, final l is written downward	

	after f,v,sk or a straight upstroke when no vowel follows and upward when followed by a vowel. Example Fall, Follow, Vale, Valley.	
	OR	
VII	Position of double length strokes a) All double length down strokes are written through the line whether there is a first, second or third place vowel, e.g. painter voter tender avoider fitter b) All double length horizontal strokes will be written on the line if the first sounded vowel is of second or third place e.g. motor enter meter nature neater Doubling of straight strokes A straight stroke can be doubled for the addition of tr. dr. Thr. and ture when: i) Another stroke occurs before it e.g. folder chapter dictator picture..... ii) Has an initial circle e.g. sector scatter spider..... iii) Has a final hook or final joined diphthong e.g. painter printer tutor..... Doubling of Curved strokes a) Curved strokes are doubled to indicate tr. dr. THr, ture, e.g. enter finder order father mother future nature..... b) When a final circle 's' is attached to double length forms, it is to be read after tr. dr. THr, etc. matters letters pictures Doubling of stroke 'L' a) Only tr. will be added when stroke 'L' standing alone is doubled. Circle 'S' can also be added. e.g. letter letters litre liters b) However, stroke 'L' can be doubled for tr. or dr. when it has attachments e.g. lender slaughter holder money-lender..... EXCEPTIONS The doubling principle is not employed in the following cases: a) in past tenses of any word; e.g. wonder..... But wondered..... Enter..... But entered..... Ponder..... But pondered..... Matter..... But mattered b) When a vowel follows final tr. dr. Thr. because the final vowel requires a final stroke for the vowel sign e.g. anger..... But angry..... Flatter..... But flattery..... Inventor..... But inventory..... Winter..... But wintry.....	7 Answer any one question from the choice. Each answer carries seven marks 7

X	Unequal lengths of same thickness should not be joined, as it may lead to confusion while deciphering. In such cases, full forms are to be written; thus, fact, looked, minute. But, when there is difference in thickness one full length stroke can be joined to the other half length stroke in such words; as named, afford. After full-length 't' or 'd', half-length 't' or 'd' are always disjoined; thus, treated, frustrated, credited. The half forms are also disjoined in some cases where a very clear outline can be obtained by disjoining; thus, tightness, hesitatingly. In past tenses of '-ted', '-ded', are always indicated by or 'd'; thus, vote, voted, omit, omitted, printed, grade, graded. Halving principle is employed in phraseography to addition of words 'it', 'not', 'would', 'word' as in, I-am-not, I-will-not, I-do-not, few-words, would-not-be, and in phrases like able-to, at-all-times, able-to-make, etc.	
XI	Final ing- The syllable ng- is generally represented by stroke Where this stroke cannot be written or when written, it would result in awkward joining, a light dot is used to represent the suffix 'ing', a s detailed below: The dot 'ing' is written (a) After light straight down strokes and downward 'r', as in paying, tying, chewing, hearing. (b) After circle 'ns'; after 'k' or 'g' hooked for 'f' or 'v'; and after an upstroke finally hooked bouncing, coughing, starving,	

	(c) After half-length or double length strokes, where no angle would be obtained by writing stroke ; thus plotting, mating, folding, (d) After some logograms where it is convenient to use dot; and in other cases stroke is convenient to write. coming, thinking, remembering; but stroke is convenient in wishing,
