Women education is the need of the hour. Without educating the women of the country we can't hope for a / developed nation. Women play a vital role in the all round progress of a country. If we want to make // democracy successful, women must be educated. They are the real builders of happy homes.

It is said that if we /// educate a man, we educate a man only, but if we educate a woman,

we educate the whole family. This (1) highlights the importance of female education. It is a fact that women are the first teachers of their children. It / is in their lap that the children receive the very first lessons.. We must give up our conservative outlook and // create an atmosphere in which not a single woman remains uneducated. Women have three major roles to perform in the /// course of their life. They have to discharge their duties as good daughters, good wives and good mothers. Apart from (2) these important duties, they have to prove themselves as good citizens of a free democracy. Hence, it is necessary to / give women a different kind of education from the one given to boys. Their education should be such as may // enable them to discharge their duties in a proper way. Educated women are well aware of their duties and rights./// They can contribute the development of the country in the same way as men do. Society runs on two wheels, (3) both the wheels must be equally strong to run smoothly. It is a good sign that today's women are not / considered a weaker sex. They are being taught properly right from their childhood. As a result we see women working // in almost every field. They work even in police and defence departments. Our constitution grants them equal rights more rights /// as compared to men. Although legally and theoretically women are now considered as equal to men yet there are people (4) who refuse to give them their due. They think that the women are inferior to men and ill treat them / and misbehave with them. All right thinking people should protest against it. They should try to broaden the outlook of // those who have conservative feelings for women. Female education is important and all the impediments must be removed from the /// way of their education. Let's take a view to extend a cooperative attitude in imparting education to the women folk. (5) Dear Sirs, This is the season when we are tempted to look ahead and try to glimpse the course our/ lives will take in the New Year. Looking at the prospects for international peace and security, I believe that we// must be realistic. Quite clearly, the world as a whole does not seem ready to turn over a new leaf /// although there are some grounds for believing that the difficulty and danger, as well as the successes, will stimulate stronger, (6) better concerted efforts to overcome the obstacles to real peace and to the changes that peace would give to the /betterment of the lives of all peoples everywhere. The two-third of the world became poorer still, relative to the other// third. Within the United Nations, the financial crisis brought us close to a crises of confidence in the Organisation itself. /// And over all these setbacks looked the growing dangers of a nuclear armaments race and even of full-scale war. Sincerely yours(7)

-----.

Mr. Speaker Sir, I have great pleasure in seconding this Motion. The mover of the Motion has dealt with all / matters. At this stage, I have not had the benefit of the criticisms of the opposition. So, I do not // think I can very much contribute to the debate. But, by way of supporting what my Honourable Friend has said /// I will try to say a few words. No we have had two big natural calamities. One is the famine (1) and the other is the cyclone. As

we know, the cyclone has affected a large number of people. It will not be out of place to pay tributes to the Collectors and the staff and others who co-operated in giving // relief to the affected people. On this occasion, I would suggest that the relief measures, though they have been adequate /// might have been more reasonably spread among the various affected areas.

Now I would like to refer to famine in (2) this connection I may point-out that all the districts in this State have been facing famine conditions. Anyway / the relief measures taken by the Government are welcome. On account of the drought during the last five years there // is great need in every village for supply of drinking water. Top priority has been given in the Fiver Year Plan to agriculture. I do not know the position in other States. So far as this State is concerned I (3) would suggest that supply of drinking water to the rural population must be given the same priority as agriculture. We / cannot call ourselves a civilized State unless we are able to giver protected water to the poor people in the // villages. Then I come to electricity. I would like to poit out that the failure of monsoon has affected irrigation /// sources. On account of the cut in electricity, very many extension schemes for irrigation have to be stopped. All this (4) means that in spit of our having made efforts, we are not able to produce food grains at a time when / Nature has failed. Us. Then there was much criticism about the rural welfare scheme has come to stay in this state. The people must see that they stand on their /// own legs and do some work for what they want with minimum help from the Government. This is our aim. (5)

Letter from the Indian Overseas Bank, Kolkata to N.Bose, Kolkata. Dear Sir, we thank you for your letter / we have pleasure in informing you of some of the services rendered by us. In addition to our normal business // we also take up a number of agency services on behalf of our customers like collection of bills, coupons, etc /// we have also made necessary arrangements to keep valuables in safety lockers. You may be interested also in a special (6) department of this Bank Which has been recently where we receive proposals

for appointment of the Bank as trustees. / In view of the efficient way in which we can carry on the work in this department we hope that // it will be useful and popular.

We are assure that you will be interested in some of these services and /// will specify them in your reply so that we may be able to supply detained information about them.

Yours faithfully, (7)
