

MODEL QUESTION PAPER -1

SHORTHAND ENGLISH (CONDENSATION & THEORY) 100 WPM

PART – CONDENSATION*Time for dictation: 6 minutes**(PART A – 40 Marks)*

1. The following matter is to be dictated to the candidates loudly and distinctly and only once @100 wpm
2. The candidates should be asked to take down the dictation in shorthand and condense it in reporting style in around 200 words and have to answer both parts (A&B) within 3 hrs.
3. **This question paper should not be handed over to the candidates.**

1	Mr. President, Ladies and Gentlemen, I am very happy to be here today amidst you all on this happy occasion when this Educational Institution is/ celebrating its Golden Jubilee. This Institution has completed its fifty years of glorious and useful service in the field of Education. I am told that // this Institution was started by the efforts of a few enterprising educationists at a time when there were no schools or colleges anywhere near and /// the children had to be sent to far off places for even Secondary and Higher Education. The honest and sincere efforts of those great men (1) of learning who have worked hard to build this institution are not with us today but their guiding spirit appears to be hovering round in / these premises leading the present authorities in a right path. A beginning was made in starting a Primary and Secondary School in two small buildings // by the pioneers fifty years ago and now the Institution has grown from strength to strength to gigantic dimension. Now, there are High Schools, /// Colleges of Science, Arts and Commerce, Teachers Training Schools, /// Colleges. It has a number of Branch Institutions in the neighbouring rural areas also, catering (2) to the needs of the student population. An Institution of this nature requires enormous financial resources for its smooth and efficient working. Whereas Private Sector / Educational Institutions collect funds much more than is needed and have earned a bad reputation as money squeezers, this Institutions has not followed	M 4.04	A
---	--	--------	---

	this bad // example of collecting funds as donations, building funds, text books and like on various pretexts. But the unique feature of this Institution is that /// the students are not charged any extra fees other than what has been prescribed by Government. Most of the students who are really poor and (3) deserving are given freeships and scholarships. It is a happy thing to note that our country is known for philanthropic persons who have championed the / cause of Education by donating liberally to Educational Institutions. The Institution is being financed by such liberal minded persons. It has also built up huge // funds and the annual interest arising out of this deposit is sufficient to manage the Organisation. Out of this deposit is sufficient to manage the Organisation. The entire extent of land on which more than /// a dozen Schools and Colleges are located and the surroundings vast play grounds gives a beautiful picture of the campus and I am told that (4) the entire land has been donated by one of the founders of this Institution. In the past people used to build temples for worship of Gods and now people are coming forward to build temples of learning namely the Educational Institutions. I hope that many more liberal minded people would // come forward and donate funds and properties to the cause of Education, as Education is the key for a happy life and it is the /// paramount duty of every individual to teach every other individual. In this direction our people are not lagging behind. Now coming to the Teaching Staff, (5) I am convinced personally that these Schools and Colleges are manned by most experienced, efficient and devoted teachers. The relation between the teachers and the / students is cordial and this I know because there have been no incidents whatsoever of student unrest, disturbances, strikes, etc., in this campus since its// inception, whereas it is everyday feature in many other Institutions. I appreciate and congratulate the Teachers and the Management in this regard. I am extremely /// happy to inaugurate the Golden Jubilee Celebrations this morning and wish you success in all your endeavours in the years to come. Thank you all (6)

Shorthand English (Condensation and Theory) 100 wpm

Time: 3 Hour (For Part A & B combined)

Max.Marks: 75

(PART B – THEORY -35 MARKS)

I Answer all the following questions

(9 x 1 = 9 Marks)

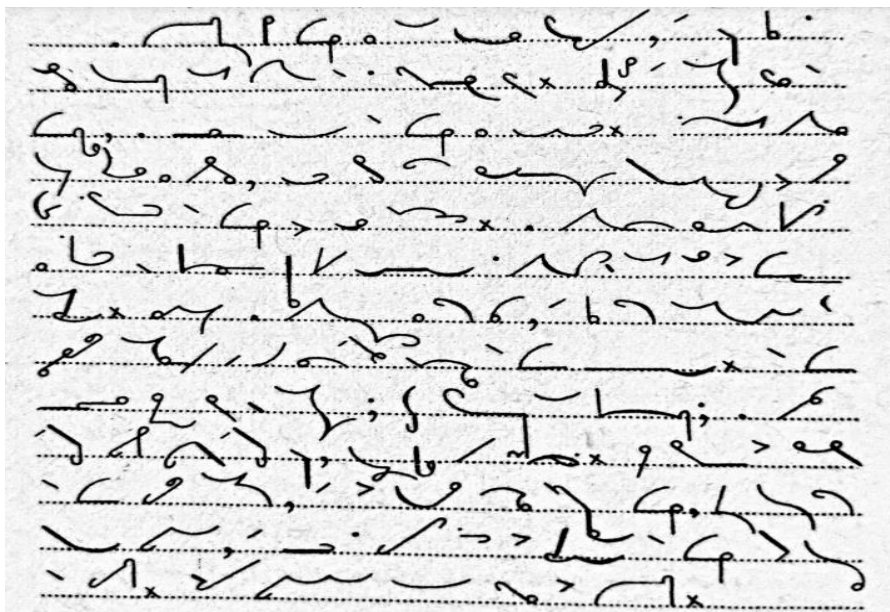

1	 may be formed by employing the first two or three strokes of full outline.	M1.01	R
2	The word irregular is represented in shorthand by	M1.02	R
3	principle is used for the representation of the word dear in Advanced Phraseography	M1.03	R
4	In many words two vowels occur consecutively, each being separately pronounced. It's called as	M 3.01	R
5	An Initial vowel requires the use of in order to give a place for the vowel sign.	M 2.01	R
6	Shorthand outline for ' arising ' is	M 2.01	R
7	The word quality in shorthand is represented as	M 3.02	R
8	 ING cannot be used medially.	M 4.01	R
9	Medial T immediately following circle S, may be In many words.	M 4.03	R

II. Answer any four questions from the following, each question carries 3 marks.

(4 x 3 = 12 Marks)

1	Explain Medial Semi Circle.	M 3.02	U
2	Illustrate Special Contractions with example.	M 1.02	U
3	State when Doubling Principles is not employed with example.	M 2.04	U
4	List any four Prefixes with examples.	M 4.01	U
5	Give outline for the following: 1. It has been 2. For his sake 3. Satisfactory	M 1.03	U
6	Give outline for the following: 1. Thousand 2. 400 3. billion	M 4.03	U

III. Answer all questions. Each question carries 7 marks. (2 x 7 = 14 Marks)

1	Write into Shorthand: We have to hand today, under last Wednesday's date, another copy of the wonderful catalogue issued by Crowder and Sanderson. Their motor cycle department rather appeals to the boys in this school, and we have, therefore, sent word that we should like several extra copies of the catalogue. The new leather belt, just over a yard in length, for use with a waterproof coat, seems wonderfully cheap. There is also, a rather attractive lamp, with silvered reflector, suitable for any holder, and this should take well with the boys. These people are enterprising. They are inventors as well as dealers, and therefore we should be able to rely upon their motor fittings being absolutely up to date.	M 2.04	A
2	Translate into English: 	M 1.01	A

MODEL QUESTION PAPER -2

SHORTHAND ENGLISH (CONDENSATION & THEORY) 100 WPM**PART – CONDENSATION***Time for dictation: 6 minutes**(PART A – 40 Marks)*

1. The following matter is to be dictated to the candidates loudly and distinctly and only once @100 wpm
2. The candidates should be asked to take down the dictation in shorthand and condense it in reporting style in around 200 words and have to answer both parts (A&B) within 3 hrs.

3. This question paper should not be handed over to the candidates.

1	Speaking on the New Educational Policy in the Rajya Sabha, a Member said: “The Resolution before this House is a very highly sensitive subject for it is going to shape the pattern of Higher Education at various levels in different stages. At the outset, I should like to say that it is one of the most burning problems facing the country and it is intimately connected with the further Economic Development and progress of our country. I, therefore, wish to impress upon the Government that a full and free debate must be allowed on this Resolution as otherwise I am afraid that the scope of Education may go from bad to worse. “Now, I want to make it very clear that I am neither an advocate nor a pleader for intellectual Higher Education. I fully support the provision for increased opportunities for Higher Education for the weaker sections of the society. It is not at all my intention to make Higher Education an exclusive privilege for a few people and to deny it to large sections of the people. I am totally against the extension of the Public School System. “Higher Education has been expanding at the rate of ten per cent during the last two decades. In fact, there are one hundred Universities in our country. At least sixty per cent of our Higher Education is subsidized by the State. One can obviously say that this is an indication	M 4.04	A
---	--	--------	---

	of progress and achievement. But, I wish to point out that the situation prevails in our Indian Universities. There has been a four-fold increase in the number of students in about ten years in many Universities. The Colleges and the Institutions of higher learning are all being put under intolerable pressure. Many Members of this House had, on numerous occasions pointed out that there should be only about a thousand students in each College. However, the number at present is easily well over two thousand in every College. Many Colleges do not have buildings of their own. There are no facilities either for the staff or for the students. Obviously, this kind of a situation should not continue year after year. Further, seventy per cent of the students are getting an Education which serves no need of our society. It has no relevance to the problem faced by our country. It only makes hem desk-oriented. This type of Education therefore makes their mind think in terms of getting jobs in Government Offices or in Private firms. They lack initiative and patience, which results in frustration. The Members are all aware of the old saying that an idle brain is a devil's workshop. I therefore wish to stress the point that the atmosphere in the college campus should create ideal brains instead of idle brains. “The first need is to relate Secondary Education and the Vocational Education to labour work and productivity. I know very well that the Government has many Schemes for imparting Vocational and Technical Education. But I should like to point out that in effect, the trend is away from useful Education. To overcome all these difficulties, I would like to suggest that Education must be made a concurrent subject so that it can play its effective role in our Economic Development. “I finally want to mention another fundamental problem being faced by our country in the field of Education. The Minister for Education is not the one who can carry the entire burden. Educational expansion and economic expansion cannot go separately. They have to go forward hand in hand. I now commend his Resolution to the House”.

Shorthand English (Condensation and Theory) 100 wpm

Time: 3 Hour (For Part A & B combined)

Max.Marks: 75

(PART B – THEORY -35 MARKS)

I Answer all the following questions

(9 x 1 = 9 Marks)

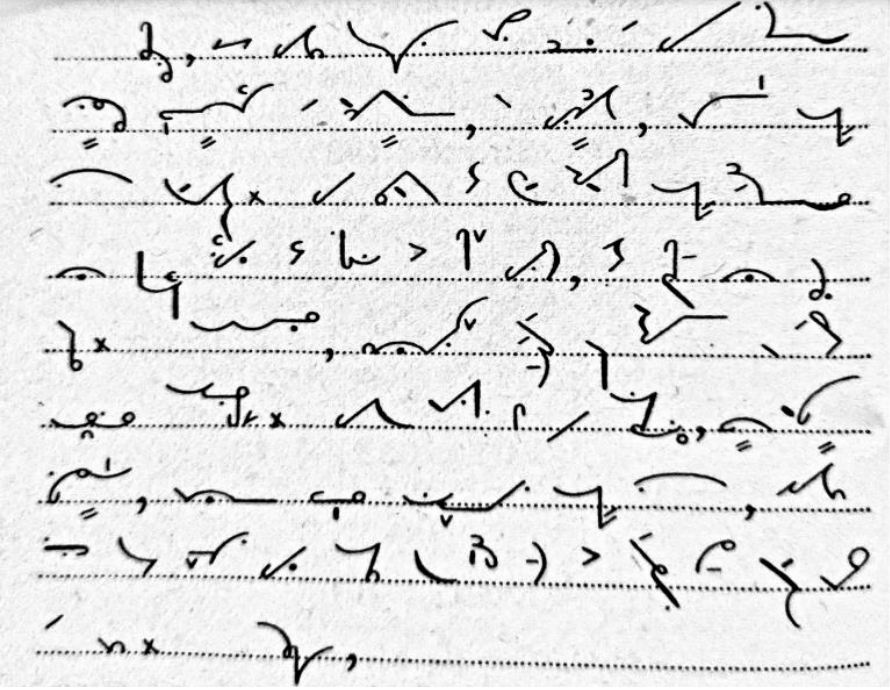

1	An essential point in forming contracted outlines is to choose forms that are and legible at sight.	M 1.01	R
2	The outline for 'enlarge'	M 1.02	R
3	 vowel requires the use of final stroke to indicate the vowel.	M 2.01	R
4	The outline for 'repair' is	M 2.01	R
5	'Re-enter' is written as	M 3.01	R
6	is employed medially as an alternative to the stroke 'W'	M 3.02	R
7	Trans may be contracted by omitting	M 4.01	R
8	In suffixes 'ings' is indicated by a	M 4.01	R
9	In forming contractions where P is very slightly sounded I may be	M 4.03	R

II Answer any four questions, each question carries 3 marks.

(4 x 3 = 12 Marks)

1	Explain with example the angular sign used to represent the dot vowel and any vowels immediately following.	M 3.01	U
2	Explain Special Contractions	M 1.01	U
3	Illustrate the joining of strokes of unequal length	M 2.02	U
4	Write any four suffixes with at least one example	M 4.01	U
5	Give outline for the following: This is, Most probably, Negligence	M 1.03	U
6	Give outline for the following: 1. Per cent 2. Million 3. pounds	M 4.03	U

III Answer all questions. Each question carries 7 marks. (2 x 7 = 14 Marks)

1	Write into Shorthand: Quite early in man's attempt to penetrate into the great secrets of the earth, when he tried to find its hidden treasures of gold and diamonds for the purposes of trade, he learned one important fact, namely, that it grows hotter as you descend. This is evident, also, from the hot springs found in different parts of the world and still more evident from the volcanoes which, when violently active, pour out molten rock until it covers the country around to a thickness of many feet. A great authority on the subject has asserted that there are slight earth tremors every quarter of an hour. The hand of man seems weak indeed when we think of the wondrous power of these mighty forces.	M 2.02	A
2	Translate into English: 	M 3.02	A
