MODEL QUESTION PAPER (REV-21)

THIRD SEMESTER DIPLOMA EXAMINATION IN ENGINEERING/TECHNOLOGY

INTRODUCTION TO SOFTWARE ENGINEERING-SET-I

(Maximum Marks : 75)

TIME : 2HRS

PART -A

Answer **all** questions in one word or one sentence. Each question carries 1 marks

I.

1. Why can't we follow the waterfall model in actual product development?
2. How inheritance supports the concept of reusability.
3. List out the disadvantages of strong coupling.
4. State the main purpose of requirement analysis?
5. Define Big Bang Approach.
6. Define sandwich integration?
7. State the goal of Devops?
8. Why is the Spiral model known as meta model?
9. Define CMM?

(1*9=9marks)

PART B

Answer any **eight** questions from the following. Each question carries 3 marks.

II.

1. Which model is used when the cost of project change is not too high.why?
2. Compare incremental and spiral models?
3. Discuss about the causes of the software crisis.
4. Consider the case of a music player software, List out the various functional requirements of SRS?.
5. What is the purpose of integration testing?
6. Compare Test Case & Test Plan.
7. Discuss about Directing and controlling?
8. Explain the different project management phases?
9. List out the stages to get ISO certification?
10. State any three objectives of Unit Testing.

(8*3=24marks)

PART C

Answer **ALL** questions. Each question carries 7 marks

III. Explain Classical waterfall model.

OR

IV. Explain Iterative waterfall model.

V. Explain the various requirement elicitation techniques.

OR

VI. Explain in detail about the characteristics of a good SRS Document..

VII. Difference between Blackbox & Whitebox testing..

OR

VIII. Explain the various categories of system testing.

IX. Explain CMM maturity levels with the help of a neat diagram.

OR

X. Explain in detail the different standard series of ISO 9000.

XI. Discuss about the various coding guidelines recommended by software development organizations.

OR

XII. Discuss in detail about the various types of integration testing.

XIII. Draw the UML Use Case diagram for the credit card processing system.

OR

XIV. Draw the UML Use Case diagram for Website Administration.

(6*7=42marks)

MODEL QUESTION PAPER (REV-21)

THIRD SEMESTER DIPLOMA EXAMINATION IN ENGINEERING/TECHNOLOGY

INTRODUCTION TO SOFTWARE ENGINEERING-SET-II

(Maximum Marks : 75)

TIME : 2HRS

PART -A

Answer **all** questions in one word or one sentence. Each question carries 1 mark.

I.

1. Discuss the need for Extreme Programming (XP)?
2. Define Encapsulation.
3. Define Message Coupling.
4. List out any two problems to be resolved during requirement Analysis.
5. Compare alpha & beta testing?
6. Define Test Plan.
7. Define CMM?
8. State the major drawback of the Spiral Model?
9. Define unit testing?

(1*9=9marks)

PART B

Answer any **eight** questions from the following. Each question carries 3 marks.

II.

1. List out the advantages & disadvantages of the classical waterfall model?
2. Explain the different types of Polymorphism?
3. Write in down any two software elicitation methods in detail?
4. Discuss any three necessary characteristics of SRS?
5. Discuss the objectives of testing?
6. List out any three advantages of blackbox testing.
7. State the benefits of Devops?
8. List out any three functions of staffing?
9. Write down any three coding guidelines recommended by software development organizations?
10. Discuss about the causes of software crisis?

(8*3=24marks)

PART C

Answer **ALL** questions. Each question carries 7 marks

III. Explain various phases of the spiral model.

OR

IV. Explain various phases of prototyping models.

V. Discuss in detail about the part of an SRS document.

OR

VI. List out the qualitative criteria used to measure Functional independence. Describe the modular design concepts Cohesion in detail.

VII. Explain in detail about various white box testing techniques.

OR

VIII. Discuss in detail about the various types of integration testing.

IX. Explain COCOMO model in Detail.

OR

X . Describe Software Configuration management.

XI. Discuss about various Devop Tools.

OR

XII. Differentiate between ISO & CMM.

XIII. Draw the level 1 DFD for the ATM system.

OR

XIV. Draw the level 1 DFD for the Food ordering system.

(6*7=42marks)
