

MODEL QUESTION PAPER

ADHESIVE TECHNOLOGY

Time: 3 Hours

Maximum Marks : 75

Part A

I. Answer **all** questions in one word or one sentence.**(9x1 =9 Marks)**

Module Outcome Cognitive level

1	Give an example of the rmo plastic adhesive	M1.02	R
2	Name any two filler sused in adhesive	M1.02	R
3	Recall the instrument to measure viscosity	M2.03	R
4	List any two methods of glue spreading.	M2.02	R
5	Recall the raw materials for urea for malde hyderes in synthesis	M3.02	R
6	Give two uses of phenol for malde hyde resin	M3.03	R
7	Identify one advantage of melamine for malde hyde over other resins	M3.03	R
8	Recall CNSL	M4.01	R
9	Identify one industrial application of polyurethane resin	M4.01	R

Part B

II. Answer any **eight** questions from the following , Each question carries 3 marks.**(8x3=24 marks)**

1	Classify the term “adhesives”	M1.02	U
2	Write a short notes on vegetable glue	M1.02	U
3	Summarize the polarity of adhesives.	M2.01	U
4	Give an account for the method of glue spreading.	M2.02	U

5	Describe the chemistry of resole resin.	M3.02	U
6	Distinguish between the major application of UF resin and PF resin	M3.03	U
7	Briefly explain the manufacture of UMF resin.	M3.02	U
8	Compare the cohesion-adhesion theory of gluing	M2.03	U
9	Write short notes on polyamides	M4.01	U
10	List the properties of epoxy resin	M4.03	R

PART C

III Answer all questions .Each question carries seven marks

(6x7=42marks)

1	Describe shellac ,Asphalt ,natural &synthetic rubber	M1.02	U
	OR		
2	Explain the composition of adhesives.	M1.03	U
3	Discuss the pre-treatments of wood prior to gluing	M2.02	U
	OR		
4	Describe inter molecular forces ,primary and secondary forces	M2.01	U
5	Describe the chemistry of Resorcinol resin	M3.02	U
	OR		
6	Illustrate the method of manufacture of MF resin	M3.04	A
7	Summarize the of method of manufacture of epoxy resin.	M4.01	U
	OR		
8	Distinguish the advantages and disadvantages of polyvinyl acetate.	M4.03	U
9	Explain the concept to fglue mixing	M1.04	U
	OR		
10	Summarize the amount of polymerization on harden in go fglue joints	M2.01	U
11	Describe the method of manufacture of RF resin.	M3.02	A
	OR		
12	Explain the method of manufacture of UMF resin	M3.02	A
