

Program : Diploma in Architecture	
Course Code : 2181	Course Title: Basic Architectural drawing
Semester : 2	Credits: No Credit
Course Category: Engineering Science	
Periods per week: 3 (L:1, T:0, P:2)	Periods per semester: 45

Course Objectives:

- To introduce the students to fundamental techniques of Visual representation
- To introduce the basic techniques of Drawing, Painting and Drafting
- To comprehend the basics of graphic design and three-dimensional composition.

Course Prerequisites: Nil

Course Outcomes:

On completion of the course, the student will be able to:

CO _n	Description	Duration (Hours)	Cognitive level
CO1	Discuss basic principles of graphic representation.	6	Understanding
CO2	Develop a graphical language of architecture.	12	Applying
CO3	Develop the ability to make free hand sketches of indoor and outdoor spaces	15	Applying
CO4	Identify colour schemes and their application in a visual composition	8	Applying
	Series Test	4	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3						
CO2	3						3
CO3	3						2
CO4	3						2

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Practice basic principles of graphic representation.		
M1.01	Classify types of lines	1	Understanding
M1.02	Interpret characteristics and visual impacts of lines	1	Understanding
M1.03	Practice exercises with lines	2	Applying
M1.04	Represent design principles with the help of lines	2	Applying
Contents: Draw different types of Lines, study its characteristics and Visual Impacts (Vertical, Horizontal, Diagonal, Zig-Zag, Curvilinear, Spiral etc.,) Representation techniques focusing on rhythm, harmony, character, balance, emphasis, Interpretation of scale and proportion			
CO2	Acquire skills in developing a graphical language of architecture.		
M2.01	Discuss graphical language of architecture	2	Understanding
M2.02	Make visual compositions using points, lines, shapes, tone and texture	4	Applying
M2.03	Apply shades on varied shapes to make visual compositions	2	Applying
M2.04	Practice lettering, symbols and scale	4	Applying
	Series Test – I	2	
Contents: Sheet layouts with line & shape, tone & texture, figure & ground. Exercises in Point, line and shapes, tone and texture Study of Objects: Study of objects having varied shapes (Cuboids, Prismatic, Spherical, Globular, etc.,) in different media-Charcoal, Pastel, Pencil. Lettering & art lettering, symbols & scale Graphic representations: Exercises involving Logo Design, Collage and Calligraphy			
CO3	Develop the ability to make free hand sketches of indoor and outdoor spaces		
M3.01	Discuss on free-hand sketches	1	Understanding

M3.02	Discuss on types of three - dimensional views	3	Understanding
M3.03	Develop free-hand drawing appropriate to visual & architectural representation	5	Applying
M3.04	Sketch Three dimensional views of still life, interiors and exteriors in pencil.	6	Applying
Contents: Free - hand drawing appropriate to visual & architectural representation, Indoor & outdoor sketching, drawing from observation.			
CO4	Explore colour schemes and their application in a visual composition		
M4.01	Understand Chromatic Values, Colour Wheel, Colour theory	1	Understanding
M4.02	Identify primary, secondary and tertiary colours and prepare a colour wheel	1	Understanding
M4.03	Explore Colour Schemes based on principles of Harmony and Contrast and degree of Chromatism	6	Understanding
	Series Test – II	2	
Contents: Elements of Painting: Theory of Colour: Chromatic Values, Colour Wheel, Colour chart, application in a visual composition and in architectural forms and spaces;
