

Program : Diploma in Architecture	
Course Code : 3184	Course Title: Working Drawing -I
Semester : 3	Credits: 1.5
Course Category: Program Core	
Periods per week: 3 (L:0, T:0, P:3)	Periods per semester: 45

Course Objectives:

- To explain the concept of construction details of foundation, super structure and joinery of a building and reproduce them as working drawings

Course Prerequisites:

Topic	Course code	Course name	Semester
Engg Drawing		Engineering Graphics	2

Course Outcomes:

On completion of the course, the student will be able to:

Con	Description	Duration (Hours)	Cognitive Level
CO1	Prepare detailed sections of different types of footings for walls.	8	Applying
CO2	Prepare plans and elevations of walls in English, Flemish and Rat trap bonds.	5	Applying
CO3	Prepare working drawings of different types of staircases in RCC and wood.	10	Applying
CO4	Prepare working drawings of wooden joinery details and different types of trusses using tubular and angular sections.	16	Applying
	Series Test	6	

CO-PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3						2
CO2	3						2
CO3	3						2
CO4	3						2

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Prepare detailed sections of different types of footings for walls.		
M1.01	Prepare plan and sections of R.C.C column	2	Applying
M1.02	Prepare Plan and section of raft foundation	2	Applying
M1.03	Prepare the details of pre cast and cast in situ piles	2	Applying
M1.04	Prepare the Pile cap details of heavy concrete and steel columns	2	Applying
CO 2	Prepare plans and elevations of walls in English, Flemish and Rat trap bonds.		
M2.01	Prepare Plans and elevations of odd and even courses of corners in one brick thick and one and half brick thick wall in English and Flemish bonds.	2	Applying
M2.02	Prepare Plans and elevations of odd and even courses of T joints of one brick thick wall in English and Flemish bonds	2	Applying
M2.03	Prepare Plans and elevation of rat trap bond	1	Applying
	Series Test I	3	
CO3	Prepare working drawings of different types of staircases in RCC and wood.		
M3.01	Identify stair lay outs of different types to suit different situations	6	Applying
M3.02	Prepare working drawings of RCC stairs showing reinforcement details	2	Applying
M3.03	Prepare working drawings of wooden stairs	2	Applying

CO4	Prepare working drawings of wooden joinery details and different types of trusses using tubular and angular sections.		
M4.01	Prepare the details of wooden paneled door	3	Applying
M4.02	Prepare the details of half glazed door with wooden frame	3	Applying
M4.03	Prepare the details of glazed windows in wood.	3	Applying
M4.04	Prepare working drawings of steel trusses with tubular and angular sections	6	Applying
M4.05	Prepare corrugated sheet fixing details	1	Applying
	Series Test-II	3
