

Program : Diploma in Architecture	
Course Code : 5187	Course Title: Architectural Drawing -III
Semester : 5	Credits: 1.5
Course Category: Program Core	
Periods per week: 3(L:0, T:0, P:3)	Periods per semester: 45

Course Objectives:

- To provide knowledge in developing design of multi-storied buildings incorporating building rules and regulations.

Course Prerequisites:

Topic	Course code	Course name	Semester
Spatial and functional planning		Architectural drawing II	4
Building service details		Building services	4

Course Outcomes:

On completion of the course, the student will be able to:

COn	Description	Duration (Hours)	Cognitive Level
CO1	Summarize data related to spatial and functional planning of multi storied buildings	6	Understanding
CO2	Develop spatial and functional planning of multi storied buildings	15	Applying
CO3	Develop detailed architectural drawing incorporating structural and services details	12	Applying
CO4	Develop presentation drawings and reports	6	Applying
	Series Test	6	

CO- PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3				2	2	
CO2	3	2					
CO3	3		2		3		
CO4	3			2		3	

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

On completion of the course, the student will be able to:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Summarize data related to spatial and functional planning of multi storied buildings		
M1.01	Discuss the given problem	1	Understanding
M1.02	Refer standards specified in KMBR and NBC incorporate them in design – Literature study	2	Understanding
M1.03	Conduct case studies	3	Applying
CO2	Develop two storied and multi storied buildings		
M2.01	Functional planning of two storied buildings – Plan Primary school, museum / art gallery, library and hospital building with 25 beds	6	Applying
M2.02	Functional planning of multi- storied buildings - Plan four storied apartment with two units in each floor, hostel building to accommodate 50 students, commercial building - hotel with 10 rooms, shopping complex up to 4 stories	6	Applying
M2.03	Develop the form of the building using the concept of planning framed structures	3	Applying
	Series test -I	3	
CO3	Develop detailed architectural drawing incorporating structural details and services.		
M3.01	Preparation of two-dimensional drawings of two storied buildings - Develop plan, elevation section, site and service drawings of primary school, museum / art gallery, library and hospital building with 25 beds.	6	Applying

M3.02	Preparation of two-dimensional drawings of multi storied buildings- Develop plan, elevation and sectional drawings of four storied apartment with two units in each floor, hostel building to accommodate 50 students, hotel with 10 rooms, shopping complex up to 4 storeys.	6	Applying
CO4	Prepare rendered drawings		
M4.01	Prepare two-point perspective views of the buildings	3	Applying
M4.01	Application of colour and other rendering techniques in the above prepared drawings	3	Applying
	Series test -II	3
