

Program : Diploma in Architecture	
Course Code : 6182A	Course Title: Interior Space Planning
Semester : 6	Credits: 4
Course Category: Program Elective	
Periods per week: 4 (L:3, T:1, P:0)	Periods per semester: 60

Course Objectives:

- To familiarize the principles of interior design
- To identify appropriate materials and designed furniture

Course Prerequisites: Nil

Course Outcomes:

On completion of the course, the student will be able to:

CO _n	Description	Duration (Hours)	Cognitive level
CO1	Interpret the design methodology for interior design	14	Understanding
CO2	Develop furniture design scheme for residential interiors	17	Applying
CO3	Select finishing material for residential and commercial interiors	14	Applying
CO4	Outline the application of landscape and ergonomics in interior design	13	Understanding
	Series Tests	2	

CO-PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1					2		
CO2					2		
CO3					2		
CO4					2		

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive level
CO1	Interpret the design methodology for interior design		
M1.01	Discuss elements and principles of interior design	6	Understanding
M1.02	Explain design methodology	4	Understanding
M1.03	Explain space modulation	4	Understanding
Contents: Introduction to design methodology. Space modulation- quantitative and qualitative - quality of interior space - colour and light -			
CO2	Develop furniture design scheme for residential interiors		
M2.01	Explain anthropometric data related to furniture design	6	Understanding
M2.02	Identify different types of furniture and furniture design concepts	6	Understanding
M2.03	Organize furniture with respect to its style	5	Applying
	Series Test I	1	
Contents: Introduction to anthropometry. Living room furniture - different types of sofas - L type, corner type; bedroom furniture - cot, side tables, wardrobes, bunk beds - study table, dining tables, chairs, cupboards, shelves, display furniture -			
CO3	Select finishing material for residential and commercial interiors		
M3.01	Explain different finishing material for walls, floor and ceiling	4	Understanding
M3.02	Explain the role of fabric in interiors	2	Understanding
M3.03	Choose finishing material for interiors	2	Applying
M3.04	Utilize market survey to identify materials used for interiors (This can be done in groups of 5 to 6 students/batch)	6	Applying
Content: Finishing material for walls, floor and ceiling - criteria for selection - Know the role of fabric in interiors - Curtains - function - terminology - materials - blinds - carpets - types - rugs			
CO4	Outline the application of landscape and ergonomics in interior design		
M4.01	Explain landscapes for interiors.	6	Understanding
M4.02	Explain the importance of ergonomic design in interior	7	Understanding
	Series Test II	1	

Contents:

Landscape in interiors - plants used in different types of spaces - criteria for Design furniture and interior spaces for physically challenged people
