

Program : Diploma in Civil and Rural Engineering	
Course Code : 3361	Course Title: Rural Development
Semester : 3	Credits: 4
Course Category: Program Core	
Periods per week: 4 (L:3, T:1, P:0)	Periods per semester: 60

Course Objectives:

- To get an overview of Rural development
- To identify government schemes for construction of roads, housing and energy conservation.
- To know relevant cottage and agro based industries in rural areas.
- To apply the principles of rural development in rural areas.

Course Prerequisites:

Topic	Course code	Course name	Semester

Course Outcomes:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Explain an overview of Rural Development	17	Understanding
CO2	Identify the schemes for construction of roads in rural areas	14	Understanding
CO3	Identify the rural industries and sources of finance	12	Understanding
CO4	Identify the plans and government schemes for Rural Development.	15	Applying
	Series tests	2	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3	3					
CO2	3						
CO3							
CO4	3						

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

On completion of the course, the student will be able to:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Study an overview of Rural Development		
M1.01	Study the basics of Rural Development	2	Remembering
M1.02	Identify Economic Significance of Rural development	3	Understanding
M1.03	Describe the role of CAPART	2	Understanding
M1.04	Explain the procedure for socio economic survey	2	Understanding
M1.05	Understand functioning and relevance of Local self-governments	3	Understanding
M1.06	Explain sustainable rural development and basics of local development plan	3	Understanding
M1.07	Identify the role of civil engineer in the development of rural area.	2	Applying

Contents:

Rural development-Need, definition, objectives, Significance of Rural development, Economic Significance-National Income, employment, food, industrial development, internal trade and transport.

Rural development Environment-Panchayat Raj Institution, CAPART

Socio Economic Survey

Local Self Governments - Introduction to Three Tier Panchayat System - Decentralized

Planning - Role of LSGD Engineering Wing

Rural Development - Sustainable Rural Development - Local Development Plan

Role of civil Engineer in Rural development.

CO2	Identify the schemes for construction of roads and affordable housing in rural areas		
M2.01	Familiarize with basics of rural infrastructure development	3	Understanding
M2.02	Describe features of Rural Housing	3	Understanding
M2.03	Explain the concept of low-cost housing and rural roads.	4	Understanding
M2.04	Identify the sources of renewable energy	4	Understanding
	Series Test – I	1	
Contents: Rural Infrastructure - Rural Infrastructure Development – Schemes Rural Housing - Sustainable Housing - Sustainable construction materials - Affordable Rural Housing Designs - Features, Schemes, PAHAL - Design Typology Rural Roads - Features - Types - MoRD Specifications-Schemes, Pradhan Mantri Gram SadakYojana (PMGSY) - Profile of rural road in flat area and hilly area Low-cost housing-principles, purpose, use of local material for construction Rural Roads-Type, specifications, Construction techniques and road drainage Biomass-types of fuels such as firewood, agricultural residues, dung cakes Renewable energy and integrated Rural energy programmes-objectives, key elements, implementation, financial provisions, sources of renewable energy.			
CO3	Identify the rural industries and sources of finance		
M3.01	Functioning of cottage industry	5	Understanding
M3.02	Explain the working of Artificial sandstone crushing plant	2	Understanding
M3.03	Role of Agro based industry in rural development	3	Understanding
M3.04	Identify the sources of fund for rural development	2	Understanding

Contents:

Cottage industry-Brick manufacturing, concrete hollow block,

Artificial sandstone crushing plant.

Agro based industry-Dairy, Animal husbandry, Horticulture, Sericulture and fishery

Sources of fund for rural development-Domestic and foreign institutional

CO4	Identify the plans and government schemes for Rural Development.		
M4.01	Justify the necessity of planning for the development of rural area	4	Understanding
M4.02	Select the relevant policies of government in rural development.	4	Understanding
M4.03	Describe the level and functions of planning	4	Understanding
M4.04	Describe the methodology used for executing the block and district level planning for rural area	3	Understanding
	Series Test – II	1	

Contents:

Plan and planning for rural development

Central and state government schemes-National rural employment, Prime minister rural development fellows scheme, Swarna Jayanthi Gram Swarozgar Yojna(SGSY), Sampoorna Grameen Rozgar Yojna ,Deen Dayal Upadhyaya

Level and functions of planning-Micro level planning, Meso-level planning macro level planning.

Decentralization policy of planning, Block and District level planning.
