CO – PO Mapping:

CO	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3						
CO2	3						
CO3		3					
CO4						3	

3-Strongly mapped

2-Moderately mapped

1-Weakly mapped

Course Outline:

The Major Project course shall include:

- Problem identification (Accountancy, Economics, Marketing, Finance, Human Resource, and other relevant Commerce and Management areas).
- Synopsis writing.
- Review of Literature.
- Questionnaire preparation or accessing data source.
- Data collection and tabulation (Primary/Secondary data).
- Data analysis and interpretation (using statistical tools like mean, median, mode, correlation and regression).
- Report writing.

A problem statement shall be prepared by the student. Once the project idea is approved by the panel constituted by the HOD, the project work implementation shall be scheduled. The project can be done individually or a team of 5 members. The work shall be guided by Faculty member. However, the project supervisor should make sure that each student constructively

contributes to the completion of the project. The project is subject to periodic evaluation using suitable rubrics and interim evaluation at the end of 5th semester. The student shall prepare and submit a project report to the Department. The report shall be in English with not less than 30 pages, printed or typed (A4 size paper, 1.5 line spacing, Times New Roman font, font size 12) and spiral bound. The project report should be submitted to the Head of the Department one week before the last working day of the sixth semester, duly certified by the Guide. The candidate shall prepare at least two copies of the report; one copy for submission to the Department and another copy for the student which he/she has to bring with him/her at the time of viva voce.

Structure of the Report

Title page

Declaration of the student

Certificate from the supervising teacher / organization (for having done the project work)

Acknowledgements

Contents: -

Chapter I: Introduction (Organization profile, Research problem, Objectives of the study, Research methodology, Limitations of the study)

Chapter II: Review of Literature

Chapter III: Theoretical Framework

Chapter IV: Data Analysis

Chapter V: Findings, Suggestions and Conclusion.

Appendix: (Questionnaire, specimen copies of forms, other exhibits etc.)

Bibliography: (Books, journals & Articles used for the project work).
