CO4	Utilize the concepts of financial management and investment.	16	Applying
	Series Test	2	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	2						
CO2	2		3				
CO3	3						
CO4	3	2					

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hour)	Cognitive Level
CO1	Illustrate the macro-economic environment of the business and its impact on enterprise.		
M1.01	Meaning, Definition of Managerial Economics.	1	Understanding.
M1.02	Describe Relationship with other disciplines, Managerial Decisions Firms and its types.	11	Understanding.
Contents: Meaning and definition of Managerial Economics - Relationship with Statistics, Mathematics, Operations research, Accounting - Firms and its types - Objectives and goals - Managerial decisions.			
CO2	Interpret demand forecasting for managerial decision making.		
M2.01	Meaning of demand and Types of Demand.	2	Understanding
M2.02	Describe determinants of demand, demand function, Demand elasticity, Demand forecasting.	6	Understanding
M2.03	Identify Supply, Determinants of supply, Supply function, supply Elasticity.	6	Applying
	Series Test – I	1	
Contents: Meaning of Demand - Types of demand - determinants of demand - Demand Function - Demand Elasticity - Demand forecasting - supply - Determinants of supply - Supply Function - Supply elasticity.			
CO3	Apply cost elements of the product and its effect on decision making.		
M3.01	Explain production function, Returns to scale, Production optimization.	4	Understanding

M3.02	Develop managerial uses of production function, cost concepts, cost function, types of cost, determinants of cost.	6	Applying
M3.03	Describe short run and long run cost curves, cost output decision, estimation of cost.	6	Understanding
Contents: Production Function - Returns to scale - Production Optimization - Managerial uses of production function - Cost Concepts - Cost Function - Types of cost - determinants of cost - Short run and long run cost curves - Cost output Decision - Estimation of cost.			
CO4	Utilize the concepts of financial management and investment.		
M4.01	Explain Balance Sheet, Profit & Loss Statement and related concepts.	3	Understanding
M4.02	Analyze and interpret comparative financial statements.	6	Applying
M4.03	Evaluate investment decision, risk and return evaluation of investment decision, average rate of return, payback period, net present value, internal rate of return.	7	Analyzing
	Series Test – II	1	
Contents: Balance Sheet, Profit & Loss related concepts- Analysis and interpretation of financial statements, Investment Decision - Risk and return evaluation of investment decision - Average rate of return - Payback Period - Net present value - Internal rate of return - Simple Problems.
