

Program : Diploma in Computer Application and Business Management	
Course Code : 1252	Course Title: Business Economics
Semester : 1	Credits: 3
Course Category: Foundation Course	
Periods per week: 3 (L:3, T:0, P:0)	Periods per semester: 45

Course Objectives:

- To provide an insight into the fundamental concepts of managerial economics like goods, wants, utility, demand, supply, production, market forms and national income.

Course Prerequisites: Nil

Course Outcomes:

On completion of the course, students will be able to:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Summarize the nature, scope and fundamental concepts of Managerial Economics	10	Understanding
CO2	Explain the concepts of demand, supply and laws of demand and supply	13	Applying
CO3	Summarize the basic concepts of production.	10	Applying
CO4	Identify market and its forms, and explain the concept of National Income	10	Applying
	Series Exam	2	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3						
CO2	3						
CO3	3						
CO4	3						

3-Strongly mapped 2-Moderately mapped 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Summarize the nature, scope and fundamental concepts of Managerial Economics		
M1.01	Explain the concepts of Economics & Managerial Economics	1	Understanding
M1.02	Explain the definitions of Economics	1	Understanding
M1.03	State the meaning of wants and list out its characteristics	1	Understanding
M1.04	Explain the classification of human wants	1	Understanding
M1.05	Describe goods and identify the different types of goods	1	Understanding
M1.06	Distinguish between wealth and welfare	1	Understanding
M1.07	Distinguish between value and price	1	Understanding
M1.08	Understand the concept of utility and list out different kinds of utility.	1	Understanding
M1.09	Describe law of diminishing marginal utility	1	Understanding
M1.10	List out limitations and exceptions to the law of diminishing marginal utility	1	Understanding
Contents: Concepts of Economics & Managerial Economics - Definitions of economics - Scope of managerial economics - meaning of human wants - classifications of wants - goods and its classifications - wealth vs. welfare - value vs. price - Concept of utility - kinds of utility - law of diminishing marginal utility - limitations and exceptions of the law			
CO2	Explain the concepts of demand, supply and laws of demand and supply		
M2.01	State the meaning of demand & list out factors affecting demand	2	Understanding
M2.02	Classify demand, state the law of demand and its assumptions	1	Understanding
M2.03	Explain demand schedule and demand curve	1	Applying
M2.04	Identify the reasons for downward sloping of demand curve	1	Applying
M2.05	State various exceptions to the law of demand	1	Applying
M2.06	Understand the meaning of the terms demand curve and demand schedule	2	Understanding
M2.07	Explain the concept of elasticity of demand	1	Understanding

M2.08	Explain the factors affecting elasticity of demand.	2	Understanding
M2.09	Explain the law of supply, supply schedule and supply curve and its exceptions	2	Applying
	Series Test-I	1	
Contents: Meaning of Demand - factors affecting demand - types of demand - Law of demand - assumptions and exceptions to the law - demand schedule and demand curve - Reasons for downward sloping of demand curve - elasticity of demand - factors affecting elasticity of demand - law of supply - supply schedule and supply curve - exceptions to the law of supply			
CO3	Summarize the basic concepts of production.		
M3.01	State the meaning of production and production function	1	Understanding
M3.02	Explain various factors of production.	2	Understanding
M3.03	Understand the costs of production	1	Understanding
M3.04	Explain scales of production	1	Understanding
M3.05	Appreciate the advantages and disadvantages of large scale production	2	Applying
M3.06	Explain small scale production	1	Understanding
M3.07	Discuss the advantages and disadvantages of small scale production	2	Applying
Contents: Meaning of production - production function - factors of production - costs of production - Scales of production - large and small scale production - advantages and disadvantages of large scale and small scale production			
CO4	Identify market and its forms, and explain the concept of National Income		
M4.01	Categorize market according to competition	2	Applying
M4.02	Identify the peculiarities of each type of market forms	2	Applying
M4.03	Compare various market forms	2	Applying
M4.04	State different types of monopoly	2	Understanding
M4.05	Explain the concept of national income & its components	2	Understanding
	Series Test - II	1	

Contents:

Different types of market forms – perfect competition, monopoly & its types, monopolistic competition, oligopoly, duopoly; National Income, components, Gross National Product (GNP), Net National Product (NNP), Gross Domestic Product (GDP) and Per Capita Income.
