

Program : Diploma in Computer Application and Business Management	
Course Code : 1259	Course Title: Office Automation Software Lab
Semester : 1	Credits: 1.5
Course Category: Program Core	
Periods per week: 3 (L:0, T:0, P:3)	Periods per semester: 45

Course Objectives:

- To enable the students in crafting professional word documents; excel spread sheets, power point presentations using the Microsoft office tools.
- To be able to handle day-to-day activities at their workplace using the skills gained from this.

Course Prerequisites:

Topic	Program/Course name
Basics Computer knowledge	Secondary school

Course Outcomes:

On completion of the course, students will be able to:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Use Word Processing software applications for creating documents and reports.	8	Applying
CO2	Use M S Excel for creating basic spreadsheets required at business world.	10	Applying
CO3	Apply the knowledge of Advanced Excel by using formulae and other data manipulation techniques to work on existing spreadsheets.	12	Applying
CO4	Build presentations for general and business purpose and gain knowledge about creation of databases using MS Access	12	Applying
	Lab Exam	3	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3			3			
CO2	3			3			
CO3	3		3	3			
CO4	3			3			

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Use Word Processing software applications for creating documents and reports.		
M1.01	Create word documents as per various requirements.	3	Applying
M1.02	Apply the concept of Mail Merge for preparing multiple letters envelopes etc.	3	Applying
M1.03	Develop documents with pictures tables hyperlinks and exporting in pdf format	2	Applying
CO2	Use M S Excel for creating basic spreadsheets required at business world.		
M2.01	Prepare Excel spreadsheets for various requirements in real and business world	3	Applying
M 2.02	Create tables using excel adjusting rows and columns size and using data referencing between tables	3	Applying
M2.03	Apply the auto sum, averages, other basic formulae and perform logical calculations using conditional statements like IF	4	Applying
	Lab Exam – I	1½	
CO3	Apply the knowledge of Advanced Excel and other data manipulation techniques to work on existing spreadsheets.		
M3.01	Prepare bar, pie and other charts and perform Look-up functions	3	Applying
M3.02	Perform functions like split cells, merge cells, freeze planes, conditional formatting and inserting graphics.	3	Applying

M3.03	Perform sorting, filtering, Pivot tables, Data protections in excel	4	Applying
M3.04	Prepare a basic dashboard in Excel	2	Applying
CO4	Build presentations for general and business purpose and gain knowledge about creation of databases using MS Access.		
M4.01	Prepare Power point presentations with charts pictures for giving business presentations.	3	Applying
M4.02	Creating tables using MS Access and inserting data into these tables	3	Applying
M4.03	Retrieving data from database using basic queries	3	Applying
	Open ended experiments	3	
	Lab Exam – II	1½
