

Program : Diploma in Computer Application and Business Management	
Course Code : 5257	Course Title: Visual Programming Lab
Semester : 5	Credits: 1.5
Course Category: Program Core	
Periods per week: 3 (L:0, T:0, P:3)	Periods per semester: 45

Course Objectives:

- To provide a hands-on experience in programming concepts using VB.NET Programming Language.
- To be able to develop programs for arithmetic operations, string and matrix operations, in Console Applications.
- To be able to create forms for various applications and web application.

Course Prerequisites:

Topic	Course code	Course name	Semester
Basic programming		Introduction to Python	1

Course Outcomes:

On completion of the course, students will be able to:

COn	Description	Duration (Hours)	Cognitive Level
CO1	Perform arithmetic operations in Console Application.	6	Applying
CO2	Develop console applications for performing string and matrix operations.	9	Applying
CO3	Prepare forms for various applications.	12	Applying
CO4	Create various web applications.	15	Applying
	Lab Exam	3	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3		3	3			
CO2	3		3	3			
CO3	3		3	3			
CO4	3		3	3			

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Perform arithmetic operations in Console Application.		
M1.01	Develop simple VB.NET console programs illustrating Arithmetic operations. Example: Interest Calculation	3	Applying
M1.02	Implement VB.NET console programs using loop control structures and decision control structures in C	3	Applying
CO2	Develop console applications for performing string and matrix operations.		
M2.01	Develop VB.NET console program to solve problems using one dimensional arrays – (like average of n nos, largest number, second largest etc)	3	Applying
M2.02	Develop programs to solve problems using two dimensional arrays – (like matrix operations)	3	Applying
M2.03	Implement programs using strings	3	Applying
	Lab Exam – I	1½	
CO3	Prepare forms for various applications.		
M3.01	Prepare form for preparing student mark list.	3	Applying
M3.02	Prepare form for simple calculator application.	3	Applying
M3.03	Prepare forms for message box display.	3	Applying
M3.04	Prepare a form for finding factorial of a number.	3	Applying

CO4	Create various web applications.		
M4.01	Develop web application for login form.	3	Applying
M4.02	Develop web application for registration form.	3	Applying
M4.03	Open Ended Experiments	9	Applying
	Lab Exam – II	1 ½
