

Program: Diploma in Food Processing Technology	
Course Code: 4429	Course Title: Food Preservation Lab
Semester: 4	Credits: 1.5
Course Category: Program Core	
Periods per week: 3 (L:0 T:0 P:3)	Periods per semester: 45

Course Objectives:

- To estimate the various components of food in the given sample
- To evaluate the quality attributes of the sample
- To understand various preservation techniques for food samples

Course Prerequisites:

Topic	Course Code	Course Name	Semester
Awareness about food preservation techniques		Food processing technology	III

Course Outcomes:

On completion of the course, the student will be able to:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Estimation of various components in the sample	14	Applying
CO2	Evaluation of acidic components and specific gravity in the sample	11	Applying
CO3	Evaluate quality attributes after heat treatment of sample	12	Applying
CO4	Apply different preservation techniques on food materials	8	Applying

CO–PO Mapping

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1				3	3		
CO2				3	3		
CO3				3	3		
CO4				3	3		

3-Stronglymapped,2-Moderatelymapped,1-Weaklymapped

CourseOutline

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Estimation of various components in the sample		
M1.01	Demonstration of various food processing equipment	2	Understanding
M1.02	Determination of total soluble solids of various food samples	6	Applying
M1.03	Identification of different food grains	3	Applying
M1.04	Determination of the ash content of food sample	3	Applying
CO2	Evaluation of acidic components and specific gravity in the sample		
M2.01	Determination of pH of different food samples	3	Applying
M2.02	Measurement of acidity by titration method	3	Applying
M2.03	Measurement of specific gravity of liquid sample	3	Applying
	Lab Test –I	2	
CO3	Evaluate quality attributes after heat treatment of sample		
M3.01	Assessment of adequacy of blanching of food sample	3	Applying

M3.02	Measurement of cooking quality of rice grains	6	Applying
M3.03	Studies on the effect of boiling time on egg quality	3	Understanding
CO4	Apply different preservation techniques on food materials		
M4.01	Preparation of the sugar syrup of different degree brix	3	Applying
M4.02	Preservation of vegetable with the help of fermentation technique	3	Applying
	Lab Test– II	2
