

Program: Diploma in Engineering and Technology	
Course Code: 6422B	Course Title: Food Laws and Regulations
Semester: 6	Credits: 4
Course Category: Open elective	
Periods per week: 4(L:4 T:0 P:0)	Periods per semester: 60

Course Objectives:

1. To understand the concepts of food safety and standards, rules and regulations implemented
2. To study the different types of hazards found and its control measures
3. To impart knowledge about various food acts and regulatory bodies.

Course Prerequisites:

Topic	Program/Course Name
Basic knowledge of food laws	Food analysis

Course Outcomes:

On completion of the course, the student will be able to:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Explain the concept of food safety and standards, the rules established in India to ensure food safety and purity and the standards for various food products by FPO.	15	Understanding
CO2	Summarize different types of food hazards and contaminations and know about food safety aspects of novel methods of food processing	16	Understanding
CO3	Distinguish various food safety regulations, risk assessment and voluntary quality standards and certification	15	Understanding
CO4	Compare different types of food acts and food standardization	14	Understanding

CO–PO Mapping

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	2						
CO2	2						
CO3	2						
CO4	2						

3-Strongly mapped,2-Moderately mapped,1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Cognitive Level
CO1	Explain the concept of food safety and standards, the rules established in India to ensure food safety and purity and the standards for various food products by FPO.		
M1.01	Introduce the concept of food safety and standards	5	Understanding
M1.02	Explain the rules established in India to enforce safety and purity of food products	5	Understanding
M1.03	Discuss the standards of various food products by FPO	5	Understanding
Contents: Introduction, concept of food safety and standards, rules established in India to enforce safety and purity of food products- Prevention of Food Adulteration Act 1954 & 1955, Standards of various food products by FPO			
CO2	Summarize different types of food hazards and contaminations and control measures		
M2.01	Explain the biological food hazards and contaminations	5	Understanding
M2.02	Explain the chemical food hazards and contaminations	5	Understanding
M2.03	Explain the physical food hazards and contaminations	5	Understanding
	Series Test –I	1	

Contents: Food hazards, biological Food hazards and contaminations with controlling measures, chemical Food hazards and contaminations with controlling measures, physical Food hazards and contaminations with controlling measures.			
CO3	Distinguish various food safety regulations, risk assessment and voluntary quality standards and certification		
M3.01	Explain the food Safety and Standards Act, 2006,	4	Understanding
M3.02	Discuss about PFA Act and Rules, Essential Commodities Act, 1955, Codex Alimentarius	6	Understanding
M3.03	Outline the food safety inspection services (FSIS) and their utilization	5	Understanding
Contents: Food Safety and Standards Act, 2006,PFA Act and Rules, Essential Commodities Act, 1955, Codex Alimentarius, Food safety inspection services (FSIS) and their utilization			
CO4	Compare different types of food acts and food standardization		
M4.01	Discuss about the voluntary National Food Standards: BIS, AGMARK.	4	Understanding
M4.02	Tell about other International Food Standards (e.g. European Commission, USFDA etc).	4	Understanding
M4.03	Summarize Export & Import Laws and Regulations, Export (Quality Control and Inspection) Act, 1963. Customs Act and Import Control Regulations	5	Understanding
	Series Test–II	1	
Contents: Voluntary National Food Standards: BIS, AGMARK, International Food Standards (e.g. European Commission, USFDA etc). Export & Import Laws and Regulations, Export (Quality Control and Inspection) Act, 1963. Customs Act and Import Control Regulations
