

Program: Diploma in Food Processing Technology	
Course Code: 6429	Course Title Bakery and Confectionery Lab
Semester: 6	Credits: 1.5
Course Category: Program elective	
Periods per week: 3(L:0 T:0 P:3)	Periods per semester: 45

Course Objectives:

- Perform quality tests on various bakery and confectionary samples
- Study of preparation of various samples

Course Prerequisites:

Topic	Course Code	Course Name	Semester
Awareness about Bakery and confectionary		Bakery and confectionery	6

Course Outcomes:

On completion of the course, the student will be able to:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Apply quality assessment techniques to test gluten content in wheat flour, evaluate fat/butter for bakery applications on different parameters, assess yeast quality, and test skimmed milk powder for bakery applications.	11	Applying
CO2	Apply techniques for preparing bread rolls and cakes, while assessing their quality.	8	Applying
CO3	Prepare various confectionery items and apply quality assessment tests to evaluate their properties.	12	Applying
CO4	Apply knowledge of bakery and confectionery production processes by observing industry practices during site visits.	14	Applying

CO–PO Mapping

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3						
CO2	3						
CO3	3						
CO4	3						

3-Strongly mapped,2-Moderately mapped,1-Weakly mapped

Course Outline:

Module Outcomes	Description	Duration (Hours)	Blooms Taxonomy Level
CO1	Apply quality assessment techniques to test gluten content in wheat flour, evaluate fat/butter for bakery applications on different parameters, assess yeast quality, and test skimmed milk powder for bakery applications.		
M1.01	Apply quality testing techniques to determine the gluten content in wheat flour.	2	Applying
M1.02	Apply quality testing techniques to assess the fat/butter used in bakery applications across various parameters.	3	Applying
M1.03	Apply quality assessment tests to evaluate yeast.	3	Applying
M1.04	Apply quality assessment techniques to evaluate skimmed milk powder for bakery applications.	3	Applying
CO2	Apply techniques for preparing bread rolls and cakes, while assessing their quality		
M2.01	Apply knowledge and skills to prepare bread rolls, and assess their quality based on established criteria.	3	Applying
M2.02	Demonstrate the ability to prepare a cake and evaluate its quality based on established criteria.	3	Applying
	Lab Test –I	2	
CO3	Prepare various confectionery items and apply quality assessment tests to evaluate their properties.		

M3.01	Prepare orange-flavored candy and apply appropriate quality assessment tests to evaluate its tests standards.	3	Applying
M3.02	Apply the process of preparing Mango-flavored candy and perform quality assessment tests to tests evaluate its characteristics.	3	Applying
M3.03	Apply knowledge to prepare toffee from apple and tomato pulp, and perform quality assessment tests to evaluate its characteristics and quality.	3	Applying
M3.04	Apply appropriate techniques to prepare chocolate cookies and assess their quality based on established standards.	3	Applying
CO4	Apply knowledge of bakery and confectionery production processes by observing industry practices during site visits		
M4.01	Apply theoretical knowledge to analyze and assess the operations, processes, and production techniques observed during a visit to a bakery industry.	6	Applying
M4.02	Apply the knowledge of confectionery production processes by analyzing operations and demonstrating practical skills during a visit to confectionery industries.	6	Applying
	Lab Test– II	2
