

Program : Diploma in Information Technology	
Course Code : 3267	Course Title: Web Development Lab
Semester : 3	Credits: 1.5
Course Category: Program Core	
Periods per week: 3 (L:0 T:0 P:3)	Periods per semester: 45

Course Objectives:

- To provide hands-on experience for the students with the basic concepts in web design.
- To develop web pages/applications using HTML, HTML5 CSS3 and JavaScript.

Course Pre-requisites:

Topic/Description	Course code	Course Name	Semester
Knowledge of basics of Computer		Introduction to IT systems	1
Basic Knowledge of IT skills and basic problem solving		Problem Solving and Programming Lab	2

Course Outcomes:

On completion of the course student will be able to:

CO _n	Description	Duration (Hours)	Cognitive Level
CO1	Construct web pages using HTML	9	Applying
CO2	Construct web pages using HTML5 and CSS3	13	Applying
CO3	Develop JavaScript applications.	10	Applying
CO4	Develop JavaScript applications with JSON and XML	10	Applying
	Lab Exam	3	

CO – PO Mapping:

Course Outcomes	PO1	PO2	PO3	PO4	PO5	PO6	PO7
CO1	3						

CO2	3						
CO3	3						
CO4	3						

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline

Module Outcomes	Name of the Experiment	Duration (Hours)	Cognitive Level
CO1	Construct web pages using HTML		
M1.01	Develop a web page to display Bio-Data using Basic Tags.	2	Applying
M1.02	Develop a web page to display Grade Card using Table.	2	Applying
M1.03	Develop a web page to display Resume of a student with photograph and academic details (use images, tables, hyperlinks).	3	Applying
M1.04	Develop a Web page to display User Registration Form (Use forms, text box, radio button, text area, check boxes and buttons).	2	Applying
CO2	Construct web pages using HTML5 and CSS3		
M2.01	Develop a web page to embed Audio and Video.	2	Applying
M2.02	Develop a web page to draw basic shapes using Scalable Vector Graphics.	3	Applying
M2.03	Develop a web page for your college to display basic details (using header, footer, div, section, article, figure, figcaption).	4	Applying
M2.04	Apply CSS styles to the contents in the above web page(II.3)	4	Applying
	Lab Exam – I	1.5	
CO3	Develop JavaScript applications.		
M3.01	Develop a JavaScript program to create a simple calculator	1	Applying
M3.02	Develop a JavaScript application to create an array and print the data into an unordered list.	3	Applying
M3.03	Develop a JavaScript application to validate a login form	4	Applying
M3.04	Develop a JavaScript application to bind on-click event function to all paragraphs inside a webpage such that when user clicks on a paragraph, its background colour should change to red and colour	2	Applying

	to white.		
CO4	Develop JavaScript applications with JSON and XML		
M4.01	Develop a JavaScript program to create a JSON variable like a two-dimensional array that contains India's states and districts and print then as an ordered list.	3	Applying
M4.02	Develop a JavaScript program to create an XML text like a two-dimensional array that contains India's states and districts and print them as an ordered list.	3	Applying
	Open Ended Project	4	
	Lab Exam – II	1.5
