

Program : Diploma in Robotic Process Automation	
Course Code : 6308	Course Title: RPI Tool Familiarization Lab
Semester : 6	Credits: 1.5
Course Category: Program Core	
Periods per week: 4 (L:0 T:1 P:3)	Periods per semester: 45

Course Objectives:

- To provide hands on experiments with the basic concepts of Robotic Process Automation Tools.
- To learn how to install Blue prism Community Edition.
- To Develop Bots using Blue prism.
- To learn how to install Automation Anywhere Community Edition.
- To Develop Bots using Automation Anywhere.

Course Prerequisites:

Topic	Course code	Course name	Semester
Basic knowledge of RPA and basic skills for performing automation using Uiopath.	3309	Introduction to RPA lab	3
Automation skills using the RPA tool Uiopath studio.	4309	Advanced RPA lab	4

Course Outcomes:

On completion of the course student will be able to:

CO_n	Description	Duration (Hours)	Cognitive Level
CO1	Installation and Familiarization of Blue prism Community Edition tool	9	Applying
CO2	Develop bots using Data item, Calculation stage and multi calculation stage in Blue prism	12	Applying
CO3	Installation and Familiarization of Automation Anywhere Community Edition tool	9	Applying
CO4	Develop bots using commands like mouse click, String operations, Excel automation, OCR.	12	Applying
	Series Test	3	

CO – PO Mapping:

Course Outcomes	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7
CO1	3		3	3			
CO2	3	3	3	3			
CO3	3	3	3	3			
CO4	3	3	3	3			

3-Strongly mapped, 2-Moderately mapped, 1-Weakly mapped

Course Outline:

Module Outcomes	Name of Experiment	Duration (Hours)	Cognitive Level
CO1	Installation and Familiarization of Blue prism Community Edition tool		
M1.01	Installation of Blue prism Community Edition	1	Applying
M1.02	Familiarization of the Blue prism User Interface components- Home, Studio, Control.	4	Applying
M1.03	Familiarization of the Blue prism Interface components- Analytics, Releases, Digital Exchange, System.	4	Applying
CO2	Develop bots using Data item, Calculation stage and multi calculation stage in Blue prism		
M2.01	Create a simple process in Blue prism.	2	Applying
M2.02	Develop an automation using Data item and calculation stage- Calculate the sum of two numbers.	5	Applying
M2.03	Develop an automation using Multi Calculation stage- Perform the operations addition, subtraction, multiplication and division.	5	Applying
	Series Test – I	1.5	
CO3	Installation and Familiarization of Automation Anywhere Community Edition tool		
M3.01	Installation of Automation Anywhere Community Edition	1	Applying
M3.02	Familiarization of Automation Anywhere Interface components- Menu bar, Tool bar, Automate & Manage bar.	4	Applying

M3.03	Familiarization of Automation Anywhere Commands	4	Applying
CO4	Develop bots using commands like mouse click, String operations, Excel automation, OCR.		
M4.01	Develop an automation using mouse click command- Automate task of clicking at a special position on the application.	3	Applying
M4.02	Develop an automation using the String Operations command in Automation Anywhere- Task for comparing two strings, Task for replacing a substring from a string.	3	Applying
M4.03	Develop an automation using excel automation command- Extract data from an excel file according to some condition and save in another file.	3	Applying
M4.04	Develop an automation using OCR command- Extract text from an image or a window.	3	Applying
	Series Test – II	1.5	

**** - Micro Project**

Students are expected to do a micro project using Blue prism or Automation Anywhere tool during the course for the purpose of continuous evaluation. This experiment shall be included in the bona-fide record.

Example: Extract data from multiple pdf document and store the data into CSV file, Get title of an active window etc.
