MODEL QUESTION PAPER

FOURTH SEMESTER DIPLOMA EXAMINATION IN ENGG./TECHNOLOGY

AUTOMOBILE ENGINEERING

Max:marks:100

Time :3 Hrs

Part A

I Answer all questions in one or two sentences, each carries 2 marks .

1. State the functions of cooling system in IC engine
2. Classify governing system in IC engine
3. Name the components of centrifugal clutch
4. Define bouncing of vehicle
5. State the purpose of intercooler

Part B

II Answer any five questions ,each question carries 6 marks.(5x6=30marks)

- a. Draw simple carburettor and list its demerits
- b. Explain the working of AC mechanical fuel pump
- c. Describe the working of three quarter floating rear axle
- d. Differentiate between universal joint and constant velocity joint
- e. Summarise the working of dual brake system
- f. Describe the constructional features of tubed tyre.
- g. Write short notes on central locking system

Part C

Answer one full questions from each Module (15x4= 60 marks)

MODULE-I

III. (a) Name the components of petrol fuel feed system and ,state the function of carburettor

(7)

*(b) Write the function of lubricating system in IC engines. Justify petrol system* (8)

OR

*IV. (a) Interpret fuel feed pump and fuel injection pump* (7)

*(b) Compare battery ignition and magneto ignition* (8)

MODULE-II

*V. (a) Illustrate the construction details of propeller shaft* (7)

*(b) Describe the working of synchromesh gear box with a neat sketch* (8)

OR

*VI. (a) Describe the working principle of differential* (7)

*(b) Explain with sketch the working of a multiplate clutch* (8)

MODULE-III

*VII. (a) With the help of block diagram explain the principle of hydraulic brake*

*System* (7)

*(b) Write the procedure of bleeding of brakes* (8)

OR

*VIII. (a) Describe in detail the construction features of tubeless tyre* (7)

*(b) With a neat sketch explain the working of a rack and pinion steering gear box* (8)

MODULE-IV

*IX (a) List any 7 advantages of MPFI* (7)

*(b). Describe the working of electronic ignition system* (8)

OR

*X (a) List any seven protection system used in automobiles* (7)

*(b) Explain pollution control and emission standards* (8)

---
