THIRD SEMESTER DIPLOMA EXAMINATION IN ENGINEERING / TECHNOLOGY

MACHINE DRAWING

[Time:3 hours

(Maximum marks: 100)

[Note: - 1. All dimensions are in mm

2. First angle projections is to be followed
3. Missing data if any may be suitably assumed
4. Both sides of the drawing sheet may be used
5. Sketches accompanied.]

Marks

MODULE- I

I Draw the profile of the following thread forms of pitch 30 mm

- a) Square thread b) British standard withworth (BSW) 15

OR

II Draw the following rivet heads in proportion dimensions.

- a) Snap head b)pan head c) flat and countersunk head 15

MODULE II

III An isometric view of a socket and spigot joint shown in Fig I . Draw top half sectional elevation and end view from left side.

30

OR

IV An isometric view of a flanged coupling unprotected type shown in Fig. II . Draw the top half sectional elevation and end view from right side

30

MODULE III

V Detailed view of a stuffing box is given in Figure III. Assemble the parts and draw right half sectional elevation and prepare the bill of material 40

OR

VI Detailed views of a Plummer block shown in figure IV. Assemble the parts and draw left half sectional front view and top view. Prepare the bill of material. 40

MODULE IV

VII Draw the following welded joints

- Butt joint
- Lap joint
- Tee joint
- Corner joint
- Edge joint

15

OR

VIII Draw the double line orthographic symbol of the following pipe fittings

- 45° Elbow
- Tee
- Cross
- Dead end
- Union
