

FIFTH SEMESTER DIPLOMA EXAMINATION IN TEXTILE TECHNOLOGY

TEXTILE TESTING AND QUALITY ASSURANCE
(Maximum marks: 100)

[Time: 3 hours]

*(Graph paper should be supplied)***PART-A**

(Maximum marks: 10)

Marks

I Answer the following questions in one or two sentences:

2 Marks each

1. Define the term "Range"
2. Weight of 100 gms of cotton after oven drying is found to be 92 gms. Find the moisture regain
3. State yield point.
4. Write the principle of Knowles balance?
5. Define air permeability?

(5 x 2 = 10)

PART-B

(Maximum marks-30)

II (Answer any five of the following question. Each question carries 6 marks)

1. Differentiate between random sampling and biased sampling?
2. Mention the factors effecting the regain of textile materials?
3. Illustrate the relationship between air flow and fiber fineness
4. Describe the analysis of Baer sorter diagram?
5. Explain the testing procedure of Beesley's balance?
6. Describe the inclined plane principle with CRL?
7. Explain the working procedure of ICI pill box tester?

(5x6=30)

PART-C

(Answer one full question from each module. Each question carries 15 marks)

MODULE-I

III (a) State the terms Median and Mode? (3)

(b) With the help of an example prepare a frequency distribution table and construct Histogram and frequency polygon (12)

OR

IV (a) Estimate the standard regains of 67/33 P/C blends? (3)

(b) Explain the working of a Sling Hygrometer with a neat sketch and list the advantages (12)

MODULE-II

V (a) What is Span length? (3)

(b) Describe the working of a Sheffield Micronaire with a neat sketch? (12)

OR

VI (a) What are the various factors obtain from a stress-strain curve? (3)

(b) With the help of a neat sketch and processing line diagram explain the working of a Shirley Trash analyser? (12)

MODULE- III

VII (a) Write short note on Periodic variation? (3)

(b) Describe the working of a Knowles Balance with a neat diagram? (12)

OR

VIII (a) Differentiate Twist On Twist and Weft On Twist? (3)

(b) With the help of a neat sketch explain the testing procedure of a single yarn strength tester Working on CRT principle? (12)

MODULE-IV

IX (a) Mention the cloth cover factor? (3)

(b) Explain Shirley Crimp tester with a neat sketch? (12)

OR

X (a) What is Drape Co-efficient? (3)

(b) Describe with a neat sketch the working of a Martindale abrasion tester? (12)
