

FIFTH SEMESTER DIPLOMA EXAMINATION IN WOOD AND PAPER TECHNOLOGY

WOOD PRODUCTS-II

Maximum Marks:100

Time:3 Hours

PART-A

I. Answer the following questions in one or two sentences .(2x5=10 Marks)

- 1.State block board
2. State lipping of flush door
3. Define particle board
4. State resultant mat
5. State pre-pressing of particle board

PART-B

II. Answer any five questions (6x5=30Marks)

- 1.Explain continuous gluing and spot gluing
2. Describe the raw materials used in particle board
- 3.Describe suspension type dryer
4. Describe horizontal storage bin
- 5.Describe batch operation
- 6.Describe the influence of hardner
- 7.Describe the determination of bending strength of particle board

PART-C

Answer one full question from each module (15x4=60 Marks)

Module-I

- III. 1.Describe the three types of block boards with diagrams

2. Describe water resistances test of block board and knife test of flush door	6
OR	
IV. 1. Describe the characteristics of flush doors	8
2. Describe the manufacture of block board by block method	7
Module-II	
V.1. Describe toothed disc chipper	5
2. Describe the classification of particle board	10
OR	
VI. 1. Describe any three additives used in particle board	9
2. Draw the schematic out line of particle board manufacture	6
Module-III	
VII. 1. Describe dosing of resonated chips by volumetric dosing with diagram	7
2. Describe any two screens used in particle board industry	8
OR	
VIII. 1. Describe the sifting methods with diagrams	6
2. Draw a neat diagram of spreading machine of high capacity	9
Module-IV	
IX. 1. Describe calendar particle board manufacturing process with diagram	10
2. Describe sizing of particle board	5
OR	
X. 1. Explain vertical extrusion process	8
2. Draw a neat diagram of Lane Wood particle board manufacture	7
