

MODEL QUESTION PAPER

REVISION-2010
SUB CODE:3069

Reg. No.....
Signature.....

THIRD SEMESTER DIPLOMA EXAMINATION IN ENGINEERING/ TECHNOLOGY
(Common to CT & IF)
OOP THROUGH JAVA

Time: 3hrs

Max. Marks:100

PART – A
(Maximum Marks : 10)

I. Answer the following in one or two sentences. Each carries 2 marks)

1. List integer data types in Java and their storage size.
2. State the need of **super** keyword with example.
3. State the use of interfaces.
4. Write the names of any four Java system packages and their classes.
5. Write the function of exceptions.

(5 x 2 = 10)

PART – B
(Maximum Marks : 30)

II. Answer any *five* questions. Each carries 6 marks

1. Compare POP and OOP.
2. Differentiate between methods and constructors with example.
3. Distinguish between final class and abstract class.
4. List the steps involved in creating a package.
5. Explain synchronization related to multithreading
6. Compare applets and stand-alone applications.
7. Describe passing parameters to applets with example.

(5 x 6 = 30)

PART – C
(Maximum Marks : 60)

MODULE I

- III. a) Derive the general structure of a Java program. (7)
b) Describe method overloading with example. (8)

OR

- IV. a) Differentiate between class members and instance members with example. (7)
b) Explain the basic concepts of OOP. (8)

MODULE II

- V. a) Explain the method of passing values to parent class constructors in Java with example. (7)
b) Describe the implementation of multiple inheritance in Java with suitable example. (8)

OR

- VI. a) Explain the visibility modes. (7)
b) Illustrate method overriding with suitable example. (8)

MODULE III

- VII. a) Explain creating and extending of threads. Give example. (8)
b) Write an example for creating and accessing of packages. (7)

OR

- VIII. a) Describe the benefits of packages. (3)
b) Illustrate any four Java API package names and their contents. (4)
c) Explain the life cycle of a thread. (8)

MODULE IV

- IX. a) Explain exception handling and the tasks incorporated with exception handling. (7)
b) Explain the Applet life cycle. (8)

OR

- X. a) Describe the creation and running of applets. (7)
b) Demonstrate reading and writing of files with example. (8)
