

FOURTH SEMESTER DIPLOMA EXAMINATION IN TEXTILE TECHNOLOGY**FABRIC FORMATION- II**

Maximum marks 100

Time: 3 Hours

Marks

Part A

I. (Answer all the questions in one or two sentences. Each question carries two marks)

- a. Mention the object of warp stop motion.
- b. List the secondary motion.
- c. Give minimum number of lag require for climax dobby.
- d. Name the type of harness mounting.
- e. List the name of any two CATD software.

(5×2=10)

Part B

II. (Answer any five questions. Each carries six marks)

- a. Find the dividend of seven wheel take-up motion.
- b. Compare loose reed and fast reed mechanism.
- c. Write the features of cross border dobby.
- d. Describe the method of pegging of lags for climax dobby.
- e. Explain the various harness ties used in jacquard.
- f. Explain weave library in Textile CAD?

(6×5=30)

Part C

(Answer one full question from each module. Each question carries 15 marks.)

MODULE 1

- III a. State the object of auxiliary motions. (3)
- b. Explain the working of mechanical warp stop motion with a neat sketch. (12)

OR

- IV. a. State the object of Brake motion. (3)
- b. Explain the working of centre weft fork motion with a neat sketch. (12)

MODULE II

- V a. State the function of heald levelling device in dobby. (3)
- b. Explain the working of Ruti cam dobby with a neat sketch. (12)

OR

- VI a. State the scope of dobby (3)
- b. Explain the working of knowls positive dobby with a neat sketch. (12)

MODULE III

- VII a. Define the first hook of Jacquard. (3)
- b. Explain the working of double lift double cylinder jacquard with neat sketch (12)

OR

- VIII a. List the steps involved in developing a Jacquard design (3)
- b. Explain the working of cross border Jacquard with a neat sketch . (12)

MODULE IV

- IX. a. State any three advantage of CATD (3)
- b. Explain colour simulation in design soft ware and its function. (12)

OR

- XI a. Mention yarn simulation (3)
- b. Explain the common features of Textile CAD (12)
