SIXTH SEMESTER DIPLOMA EXAMINATION IN ENGINEERING / TECHNOLOGY

MODEL QUESTION PAPER

PRODUCTION MANAGEMENT

Time: 3Hours

Max.marks.100

PART –A

I Answer all questions in one or two sentences.

1. Explain the concept of Productivity.
2. Define Plant Layout.
3. Explain Just in Time manufacturing.
4. Define Method study.
5. Explain Marginal opportunity cost.

(5x2=10)

PART-B

II Answer any five questions. All questions carry 6 marks.

1. Explain the objectives of P P C.
2. State the principles of Plant Layout.
3. Explain the preparation of Maintenance schedule.
4. State the importance of Work study.
5. State and explain Value Engineering.
6. Define Replacement and Historical cost.
7. Explain the application of Break Even Analysis.

(5x 6=30)

PART –C

Answer one full question from each module. Each question carries 15 marks.

MODULE I

- III State and explain Job production, Batch production, Mass production and continuous production

OR

IV State and explain Routing, Scheduling and Despatching 15

MODULE II

V Explain with sketches different types of Plant Layouts. 15

OR

VI Explain the selection and type of Material Handling Equipments. 15

MODULE III

VII Explain the principles and uses of Value analysis. 15

OR

VIII State and explain Estimation and Estimation procedures. 15

MODULE IV

IX Explain with sketch the importance of Break even analysis 15

OR

X Explain the different types of cost. 15
