Item	Official information
Programme	Diploma Programme
Course code	2143
Course title	Co-operative Theory and Practice
Semester	II
Course category	As specified in the official PDF
Periods per week	As specified in the official PDF
Periods per semester	As specified in the official PDF
Credits	As specified in the official PDF
Prerequisite	Topic Course code Course Title Semester Types of organisations 1142 Fundamentals of business I Course Outcome CO Course Outcome Blooms Taxonomy Level Explain the basic concepts of co-operation, co-operative principles, economic systems, and the CO1 Understand International Co-operative Alliance. CO2 Explain the historical development of the Co-operative movement in different countries. Understand CO3 Explain the evolution and functioning of the Co-operative sector in India and Kerala Understand CO4 Describe the different types and structures of Co-operative societies Understand CO-PO mapping COURSE ARTICULATION MATRIX PROGRAM OUTCOMES
Assessment	Use the official assessment section reproduced below

Modules

4 official module sections detected.

Topic entries

17 source-aligned topic entries retained.

Study mode

Theory and application emphasis.

STUDY METHOD

How to use this lesson

First pass

Read the official source declaration, dashboard and module transcript. Mark unfamiliar terms without changing the official terminology.

Second pass

Use each topic card to build a definition, principle, steps or components, application and exam answer. Attempt the Q&A before opening the answers.

Practical evidence

Where the course is laboratory or workshop based, maintain an observation notebook with procedure, instruments, readings, safety points and conclusion.

Revision pass

Return to the source excerpt, coverage table, activities and model paper. The generated paper is practice material, not an official examination paper.

LEARNING OUTCOMES

Objectives, outcomes and mapping

Course objectives

- Study the official course objectives in the source syllabus.

COVERAGE AUDIT

Complete syllabus coverage

Every detected official module is represented below. Each module contains topic cards and an expandable official syllabus transcript to preserve source terminology.

Module coverage

Module	Official heading	Topic entries	Hours
Module 1	14 0	3	As specified
Module 2	Movement (Global operative Movement in Denmark - Dairy Co-operatives - Co-operative 14 0	3	As specified
Module 3	16 0	3	As specified
Module 4	Institutions and Financial 16 0	8	As specified

MODULE 1**14 0**

This module is presented from the official syllabus scope for Co-operative Theory and Practice. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 1 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: 14 0
- Official duration: As specified
- Official topic entries captured: 3
- The full source excerpt is preserved below for coverage checking.

▼ and Co-operative Philosophy Alliance(ICA). - Symbols representing the Co-operative movement - Role of Co-

and Co-operative Philosophy Alliance(ICA). - Symbols representing the Co-operative movement - Role of Co- is an official topic in Module 1 of Co-operative Theory and Practice. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify and Co-operative Philosophy Alliance(ICA). - Symbols representing the Co-operative movement - Role of Co- using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, and co-operative philosophy alliance(ica). - symbols representing the co-operative movement - role of co- should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What and Co-operative Philosophy Alliance(ICA). - Symbols representing the Co-operative movement - Role of Co- means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 1-ഓപ്പറേറ്റീവ് ഫിലോസഫി അലൈൻസ്(ICA). - സിംബോളുകൾ പ്രതിനിധീകരിക്കുന്ന കോ-ഓപ്പറേറ്റീവ് ചലനം - റോളിംഗ് കോ- ഓപ്പറേറ്റീവ് ഫിലോസഫിയിൽ. ഓപ്പറേറ്റീവ് ഫിലോസഫിയിൽ, steps, application എന്നിവയെക്കുറിച്ച് വിശദീകരിക്കുക. Technical terms English-ൽ എഴുതുക.

▼ operatives in Social and Economic Development

operatives in Social and Economic Development is an official topic in Module 1 of Co-operative Theory and Practice. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify operatives in Social and Economic Development using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, operatives in social and economic development should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What operatives in Social and Economic Development means in the official course context

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 4-ഓപ്പറേറ്റീവ് സെക്ടർ - ഫിന്റെക് പാർട്ട്നർഷിപ്പ്സ് ആൻഡ് സോഷ്യൽ ഇമ്പാക്റ്റ് ഇൻവെസ്റ്റ്മെന്റ്സ് ഇൻ കോ-ഓപ്പറേറ്റീവ് സെക്ടർ. definition/meaning ഓപ്പറേറ്റീവ് സെക്ടർ. ഓപ്പറേറ്റീവ് സെക്ടർ ഓപ്പറേറ്റീവ്, steps, application ഓപ്പറേറ്റീവ് സെക്ടർ ഓപ്പറേറ്റീവ്. Technical terms English-ഓപ്പറേറ്റീവ് സെക്ടർ.

▼ Inclusion

Inclusion is an official topic in Module 4 of Co-operative Theory and Practice. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify Inclusion using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, inclusion should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What Inclusion means in the official course context
Study lens	Principle → components or stages → result → application

Aspect	What to prepare
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 4-ഇറക്കുമതി നിർവ്വചനം/അർത്ഥം നിർവ്വചിക്കുക. നിർവ്വചനം നിർവ്വചിക്കുക, steps, application നിർവ്വചിക്കുക നിർവ്വചിക്കുക. Technical terms English-ഇറക്കുമതി നിർവ്വചിക്കുക.

▼ operatives

operatives is an official topic in Module 4 of Co-operative Theory and Practice. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify operatives using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, operatives should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What operatives means in the official course context

OFFICIAL SELF-LEARNING**Activities from the syllabus**

Use the extracted official activity wording as the record of required self-learning work.

- for Self-Learning
- Week Self-Learning description Hours Module I
- Case Study Investigation: Conduct a study of a local Co-operative to identify the Co-operative principles they demonstrate.
- Based on your findings, prepare a concise report.
- Current Events Analysis: Students find a recent newspaper or online news article related to a modern economic issue (e.g.,
- healthcare debates, minimum wage, environmental regulations). They should write a summary and analytical response, 6
- identifying the elements of capitalism or socialism present in the issue and arguing a point about current economic systems.
- Visit the official website of the International Co-operative Alliance and prepare a brief report on role in promoting Co- operatives globally
- Collect images or descriptions of the Co-operative Flag, Logo, and Slogan and explain their significance in Co-operative ideology Module II
- Write a short report on the development of Rochdale Consumer Co-operatives in Great Britain and origin of Co-operative principles
- Prepare a Concept map of Co-operative development throughout the world 6
- Compare the dairy Co-operative movement in Denmark with Co-operative movement in India and Kerala (Amul India and
- Milma) and prepare a report. Module III
- Trace the history of the Co-operative movement in India and prepare a timeline highlighting major developments. 6
- Watch a documentary or online video about the Amul Co-operative model and write the key lessons learned. 6
- Prepare a timeline chart showing the development of Co-operatives in Travancore, Cochin, and Malabar before 1956 6
- Collect the details on concept of Kerala Bank introduced after 2019 reforms 6
- Module IV
- Prepare a flowchart of the Co-operative banking sector in India. 6

- Visit your nearest Co-operative bank, collect details of the services provided to the public/community , and prepare a brief
- Collect the details on various long-term credit schemes offered by different organisations for long-term credit and prepare a comparison table

ACTIVE RECALL

Module-wise questions and answers

These are practice questions based on official topic coverage, not official examination questions.

Module 1

► **Define or explain and Co-operative Philosophy Alliance(ICA). - Symbols representing the Co-operative movement - Role of Co-. (3 marks)**

► **Define or explain operatives in Social and Economic Development. (3 marks)**

► **Define or explain Evolution of the Co-operative operative Movement in Germany - Agricultural Credit Co-operatives - Co-. (3 marks)**

Module 2

► **Define or explain Movement (Global operative Movement in Denmark - Dairy Co-operatives - Co-operative 14 0. (3 marks)**

► **Define or explain Perspective) Movement in China (Induscos) - Japan (Multipurpose), USA (Marketing), USSR. (3 marks)**

► **Define or explain (Collective Farms). (3 marks)**

Module 3

► **Define or explain India and Kerala in Kerala. (3 marks)**

► **Define or explain Rural Co-operative Credit System - Long-term Credit Structure - Structure of. (3 marks)**

► **Define or explain Non-Credit Co-operatives - Digital Financial Services and Mobile Banking in Co-. (3 marks)**

Module 4

► **Define or explain Institutions and Financial 16 0. (3 marks)**

► **Define or explain operative Sector - Fintech Partnerships and Social Impact Investments in Co-. (3 marks)**

► **Define or explain Inclusion. (3 marks)**

► **Define or explain operatives. (3 marks)**

PRACTICE ONLY

Practice Model Paper — Not an Official Examination Paper

Attempt one short definition, one structured explanation and one long answer from every module. Use the official assessment pattern reproduced above when selecting time and marks.

Module 1

1-mark definition: State the meaning of **and Co-operative Philosophy Alliance(ICA). - Symbols representing the Co-operative movement - Role of Co-**.

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 2

1-mark definition: State the meaning of **Movement (Global operative Movement in Denmark - Dairy Co-operatives - Co-operative 14 0.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 3

1-mark definition: State the meaning of **India and Kerala in Kerala.**

3-mark explanation: Explain one principle, process or comparison from this module.

Module 4

1-mark definition: State the meaning of **Institutions and Financial 16 0.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

QUICK REVISION

Exam checklist

Before writing

- Read the command word: define, explain, compare, draw, calculate, analyse or design.
- Use the exact course terminology from the source transcript.
- Plan labels, units, sequence and marks before writing.

Before submitting

- Check every module has been revised.
- Check diagrams, tables, formula symbols and units.
- Separate official syllabus information from personal elaboration.

REFERENCE VOCABULARY

Glossary

Study glossary

Term	Meaning in this lesson
Course Outcome	A capability the student should demonstrate after completing the course.
Module	An official syllabus unit with defined topics and hours.
CIE	Continuous Internal Evaluation.
ESE	End Semester Examination.
Source transcript	A preserved extract of the official syllabus used for coverage checking.
