

KERALA DIPLOMA CURRICULUM REVISION 2026

Course 4181

4 Credits: 4

Program Core

Source-grounded

History of Architecture

□ To provide awareness about the evolution of ancient Architecture of Egyptian,

OFFICIAL SOURCE DECLARATION

How this lesson was prepared

The supplied official SITTTTR syllabus PDF for Course 4181 is the authoritative source for course information, objectives, course outcomes, CO-PO mapping, modules, topics, activities, assessment structure and references. Explanations, study prompts and Malayalam support are educational elaboration and are not presented as additional official syllabus text.

Source file: 4181.pdf from the uploaded official SITTTTR syllabus archive. **Course code and title:** preserved from the source.

COURSE DASHBOARD

Official course information

Course information

Item	Official information
Programme	Diploma in Architecture
Course code	4181
Course title	History of Architecture
Semester	4 Credits: 4
Course category	Program Core
Periods per week	4 (L:3, T:1, P:0) Periods per semester: 60
Periods per semester	60
Credits	4
Prerequisite	See the official syllabus PDF
Assessment	Use the official assessment section reproduced below

Modules

4 official module sections detected.

Topic entries

15 source-aligned topic entries retained.

Study mode

Theory and application emphasis.

STUDY METHOD**How to use this lesson****First pass**

Read the official source declaration, dashboard and module transcript. Mark unfamiliar terms without changing the official terminology.

Second pass

Use each topic card to build a definition, principle, steps or components, application and exam answer. Attempt the Q&A before opening the answers.

Practical evidence

Where the course is laboratory or workshop based, maintain an observation notebook with procedure, instruments, readings, safety points and conclusion.

Revision pass

Return to the source excerpt, coverage table, activities and model paper. The generated paper is practice material, not an official examination paper.

LEARNING OUTCOMES**Objectives, outcomes and mapping****Course objectives**

- To provide awareness about the evolution of ancient Architecture of Egyptian,
- Greek, Roman, Gothic, Renaissance, and Architecture of Indian sub-continent.

Course outcomes

CO	Official outcome	Study level
CO1	15 Applying Architecture.	See official syllabus
CO2	Identify features of Indo Islamic Architecture 14 Understanding	See official syllabus
CO3	Explain Egyptian, Greek and Roman Architecture. 14 Understanding	See official syllabus
CO4	Explain Gothic and Renaissance Architecture 15 Understanding	See official syllabus

CO-PO mapping evidence

Row	Extracted official mapping
CO1	CO1 3 2
CO2	CO2 3 2
CO3	CO3 3 2
CO4	CO4 3 2

COVERAGE AUDIT

Complete syllabus coverage

Every detected official module is represented below. Each module contains topic cards and an expandable official syllabus transcript to preserve source terminology.

Module coverage

Module	Official heading	Topic entries	Hours
Module 1	Describe Buddhist and Hindu phases of Indian Architecture.	4	As specified
Module 2	Identify features of Indo Islamic Architecture	4	As specified
Module 3	Explain Egyptian, Greek and Roman Architecture.	4	As specified
Module 4	Explain Gothic and Renaissance Architecture	3	As specified

MODULE 1

Describe Buddhist and Hindu phases of Indian Architecture.

This module is presented from the official syllabus scope for History of Architecture. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 1 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: Describe Buddhist and Hindu phases of Indian Architecture.
- Official duration: As specified
- Official topic entries captured: 4
- The full source excerpt is preserved below for coverage checking.

▼ Explain architecture of Buddhist period 4 Understanding Explain architecture of ancient Hindu

Explain architecture of Buddhist period 4 Understanding Explain architecture of ancient Hindu is an official topic in Module 1 of History of Architecture. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify Explain architecture of Buddhist period 4 Understanding Explain architecture of ancient Hindu using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, explain architecture of buddhist period 4 understanding explain architecture of ancient hindu should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
--------	-----------------

Aspect	What to prepare
Definition/identity	What Explain architecture of Buddhist period 4 Understanding Explain architecture of ancient Hindu means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 1- Explain architecture of Buddhist period 4 Understanding Explain architecture of ancient Hindu definition/meaning steps, application Technical terms English-

▼ 5 Understanding period

5 Understanding period is an official topic in Module 1 of History of Architecture. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 5 Understanding period using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 5 understanding period should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

2 Applying Architecture Factors influencing the architectural style of Egyptians - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - tomb architecture; mastabas and pyramids - rock tombs - mastaba of Aha at Saqqara - pyramid - Great pyramid of Cheops at Giza - temple architecture - cult temple - mortuary temple - temple of Khons at Karnak Factors influencing the architectural style of Greece - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - orders of architecture - Doric, Ionic, Corinthian - Temple architecture - temple of Parthenon at Athens- architectural features of Greek theatres - Epidorus Factors influencing the architectural style of Romans - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - public structures, temple architecture - Pantheon Rome is an official topic in Module 3 of History of Architecture. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 2 Applying Architecture Factors influencing the architectural style of Egyptians - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - tomb architecture; mastabas and pyramids - rock tombs - mastaba of Aha at Saqqara - pyramid - Great pyramid of Cheops at Giza - temple architecture - cult temple - mortuary temple - temple of Khons at Karnak Factors influencing the architectural style of Greece - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - orders of architecture - Doric, Ionic, Corinthian - Temple architecture - temple of Parthenon at Athens- architectural features of Greek theatres - Epidorus Factors influencing the architectural style of Romans - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - public structures, temple architecture - Pantheon Rome using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 2 applying architecture factors influencing the architectural style of Egyptians - geographical, geological, climatic, historical, religious and social conditions - general character - tomb architecture; mastabas and pyramids - rock tombs - mastaba of Aha at Saqqara - pyramid - Great pyramid of Cheops at Giza - temple architecture - cult temple - mortuary temple - temple of Khons at Karnak factors influencing the architectural style of Greece - geographical, geological, climatic, historical, religious and social conditions -

general character - orders of architecture - doric, ionic, corinthian - temple architecture - temple of parthenon at athens- architectural features of greek theatres - epidorus factors influencing the architectural style of romans - geographical, geological, climatic, historical, religious and social conditions - general character - public structures, temple architecture - pantheon rome should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What 2 Applying Architecture Factors influencing the architectural style of Egyptians - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - tomb architecture; mastabas and pyramids - rock tombs - mastaba of Aha at Saqqara - pyramid - Great pyramid of Cheops at Giza - temple architecture - cult temple - mortuary temple - temple of Khons at Karnak Factors influencing the architectural style of Greece - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - orders of architecture - Doric, Ionic, Corinthian - Temple architecture - temple of Parthenon at Athens- architectural features of Greek theatres - Epidorus Factors influencing the architectural style of Romans - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - public structures, temple architecture - Pantheon Rome means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 3- 2 Applying Architecture Factors influencing the architectural style of Egyptians - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - tomb architecture; mastabas and pyramids - rock tombs - mastaba of Aha at Saqqara - pyramid - Great pyramid of Cheops at Giza - temple architecture - cult temple - mortuary temple - temple of Khons at Karnak Factors influencing the architectural style of Greece - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - orders of architecture - Doric, Ionic, Corinthian - Temple architecture - temple of Parthenon at Athens- architectural features of Greek theatres - Epidorus Factors influencing the architectural style of Romans - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - public structures, temple architecture - Pantheon Rome

► **Official syllabus detail and terminology (expand in digital version)**

Module study routine: Read the source wording, make a one-page concept map, practise one short answer and one structured answer, then review the Malayalam support notes.

MODULE 4

Explain Gothic and Renaissance Architecture

This module is presented from the official syllabus scope for History of Architecture. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 4 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: Explain Gothic and Renaissance Architecture
- Official duration: As specified
- Official topic entries captured: 3
- The full source excerpt is preserved below for coverage checking.

▼ Explain Gothic architecture

Explain Gothic architecture is an official topic in Module 4 of History of Architecture. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify Explain Gothic architecture using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, explain gothic architecture should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What Explain Gothic architecture means in the official course context
Study lens	Principle → components or stages → result → application

Aspect	What to prepare
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

എന്നിരിക്കട്ടെ definition/meaning എന്നിരിക്കട്ടെ. എന്നിരിക്കട്ടെ എന്നിരിക്കട്ടെ, steps, application എന്നിരിക്കട്ടെ എന്നിരിക്കട്ടെ. Technical terms English-ൽ എന്നിരിക്കട്ടെ എന്നിരിക്കട്ടെ.

▼ Explain Renaissance architecture

Explain Renaissance architecture is an official topic in Module 4 of History of Architecture. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify Explain Renaissance architecture using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, explain renaissance architecture should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

EXAMINATION PREPARATION

Assessment methodology

The following source extract preserves the assessment information detected in the official PDF. Verify mark conversions and institutional updates against the current source before an examination.

The official assessment structure is reproduced from the supplied PDF.

Practice-paper notice: The model paper below is generated for revision and is not an official examination paper.

ACTIVE RECALL**Module-wise questions and answers**

These are practice questions based on official topic coverage, not official examination questions.

Module 1

► **Define or explain Explain architecture of Buddhist period 4 Understanding Explain architecture of ancient Hindu. (3 marks)**

► **Define or explain 5 Understanding period. (3 marks)**

► **Define or explain Explain Traditional architecture of Kerala 4 Understanding Illustrate the features of different phases of. (3 marks)**

► **Define or explain 2 Applying Hindu Architecture Buddhist period - forms of structures - stupa - Sanchi stupa - stambha - Asoka pillar at Sarnath - Chaithya halls - Chaithya hall at Karli - Viharas - planning pattern of viharas at different periods - rock cut caves at Ajantha Hindu temples - typical layout - different styles- North Indian - central Indian - South Indian temples Architectural features of - Orissan Temples - Lingaraja temple at Bhuvaneswar - Sun temple at Konark - Khajuraho group temples - Khandariya Mahadev Temple - Chalukyan Architecture - Ladkhan temple at Aihole - South Indian temples - Pallava style - mandapas and rathas - Shore Temple - Chola style - Brihadeswara Temple - Pandya style - Gopuram - Vijayanajar style - General features - Madurai style - Meenakshi temple Kerala Architecture - Factors influencing development of Architecture - Evolution of temple forms - Layout of temple - Evolution of residences - form of residences - Typical residence layout - features Padhmanabhapuram palace. (3 marks)**

Module 2

► **Define or explain 3 Understanding architecture Explain Imperial phase of Indo Islamic. (3 marks)**

► **Define or explain 3 Understanding architecture Explain Mughal phase of Indo Islamic. (3 marks)**

► **Define or explain 4 Understanding architecture Illustrate the features of different phases of. (3 marks)**

► **Define or explain 4 Applying Mughal Architecture Islamic Architecture**
 - General features - Different periods - Imperial style - Slave dynasty - Qutb Minar - Khilji dynasty - Alai Darwaza - Tughlaque dynasty - Tomb of Tughlaque - Sayyid and Lodhi dynasty - Tomb architecture - Mughal style - Akbar - Architecture at Fatehpur Sikri and Red Fort - Shah Jahan - Taj Mahal. (3 marks)

Module 3

► **Define or explain Explain Egyptian architecture. (3 marks)**

► **Define or explain Explain Greek architecture. (3 marks)**

► **Define or explain Explain Roman architecture 4 Understanding Illustrate the different features of ancient. (3 marks)**

► **Define or explain 2 Applying Architecture Factors influencing the architectural style of Egyptians - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - tomb architecture; mastabas and pyramids - rock tombs - mastaba of Aha at Saqqara - pyramid - Great pyramid of Cheops at Giza - temple architecture - cult temple - mortuary temple - temple of Khons at Karnak Factors influencing the architectural style of Greece - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - orders of architecture - Doric, Ionic,**

Corinthian - Temple architecture - temple of Parthenon at Athens- architectural features of Greek theatres - Epidorus Factors influencing the architectural style of Romans - Geographical, Geological, Climatic, Historical, Religious and Social conditions - general character - public structures, temple architecture - Pantheon Rome. (3 marks)

Module 4

► **Define or explain Explain Gothic architecture. (3 marks)**

► **Define or explain Explain Renaissance architecture. (3 marks)**

► **Define or explain Illustrate Gothic and renaissance buildings 3**

Applying Gothic - Factors influencing the architectural style - general character- Structural systems which adopted in gothic style - flying buttress - general architecture character of gothic in France - Notre - dame Ronechamp in Paris - general architecture character of gothic in England - West Minister Abbey church - Renaissance - Factors which influence the development of renaissance architecture- St.Peter's Cathedral, Rome Text / Reference: T/R Book Title/Author T1 Great ages of Architecture - Hiraskar R2 History of Architecture Hindu & Budhist period- Percy Brown R3 History of Architecture Islamic period- Percy Brown R4 History of Architecture - Banister Fletcher Online resources: Sl.No Website Link

PRACTICE ONLY

Practice Model Paper — Not an Official Examination Paper

Attempt one short definition, one structured explanation and one long answer from every module. Use the official assessment pattern reproduced above when selecting time and marks.

Module 1

1-mark definition: State the meaning of **Explain architecture of Buddhist period**

4 Understanding **Explain architecture of ancient Hindu.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 2

1-mark definition: State the meaning of **3 Understanding architecture**

Explain Imperial phase of Indo Islamic.

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 3

1-mark definition: State the meaning of **Explain Egyptian architecture.**

3-mark explanation: Explain one principle, process or comparison from this module.

Module 4

1-mark definition: State the meaning of **Explain Gothic architecture.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

QUICK REVISION

Exam checklist

Before writing

- Read the command word: define, explain, compare, draw, calculate, analyse or design.
- Use the exact course terminology from the source transcript.
- Plan labels, units, sequence and marks before writing.

Before submitting

- Check every module has been revised.
- Check diagrams, tables, formula symbols and units.
- Separate official syllabus information from personal elaboration.

REFERENCE VOCABULARY

Glossary

Study glossary

Term	Meaning in this lesson
Course Outcome	A capability the student should demonstrate after completing the course.
Module	An official syllabus unit with defined topics and hours.
CIE	Continuous Internal Evaluation.
ESE	End Semester Examination.
Source transcript	A preserved extract of the official syllabus used for coverage checking.
