

KERALA DIPLOMA CURRICULUM REVISION 2026

Course 5142

5 Credits: 3

Program Core

Source-grounded

Shorthand English (Condensation)

□ To enable the student to prepare condensed reports of given matter in indirect form

OFFICIAL SOURCE DECLARATION

How this lesson was prepared

The supplied official SITTTR syllabus PDF for Course 5142 is the authoritative source for course information, objectives, course outcomes, CO-PO mapping, modules, topics, activities, assessment structure and references. Explanations, study prompts and Malayalam support are educational elaboration and are not presented as additional official syllabus text.

Source file: 5142.pdf from the uploaded official SITTTR syllabus archive. **Course code and title:** preserved from the source.

COURSE DASHBOARD

Official course information

Course information

Item	Official information
Programme	Diploma in Commercial Practice
Course code	5142
Course title	Shorthand English (Condensation
Semester	5 Credits: 3
Course category	Program Core
Periods per week	3 (L:3, T:0, P:0) Periods per semester: 45
Periods per semester	45
Credits	3
Prerequisite	See the official syllabus PDF
Assessment	Use the official assessment section reproduced below

Modules

4 official module sections detected.

Topic entries

16 source-aligned topic entries retained.

Study mode

Theory and application emphasis.

STUDY METHOD**How to use this lesson****First pass**

Read the official source declaration, dashboard and module transcript. Mark unfamiliar terms without changing the official terminology.

Second pass

Use each topic card to build a definition, principle, steps or components, application and exam answer. Attempt the Q&A before opening the answers.

Practical evidence

Where the course is laboratory or workshop based, maintain an observation notebook with procedure, instruments, readings, safety points and conclusion.

Revision pass

Return to the source excerpt, coverage table, activities and model paper. The generated paper is practice material, not an official examination paper.

LEARNING OUTCOMES

Objectives, outcomes and mapping

Course objectives

- To enable the student to prepare condensed reports of given matter in indirect form
- through stenography.
- To attain language proficiency.
- To provide theoretical base in stenography.

Course outcomes

CO	Official outcome	Study level
CO1	phraseography to develop dictation speed, to attain 10 Applying a speed of 90wpm. Interpret vowel indication, halving principles 1 & 2	See official syllabus
CO2	and doubling principle. Improve speed to attain 95 11 Applying Identify diphone and medial semi circles. Develop	See official syllabus
CO3	speed to attain 100wpm. Relate Reporting style in 9 Applying leading English dailies. Compare prefixes, suffixes, contraction and figures.	See official syllabus
CO4	Apply speed @ 100wpm and summarise the 13 Applying dictated passage in reporting style.	See official syllabus

CO-PO mapping evidence

Row	Extracted official mapping
CO1	CO1 3 3
CO2	CO2 3
CO3	CO3 3 3
CO4	CO4 3 3

COVERAGE AUDIT

Complete syllabus coverage

Every detected official module is represented below. Each module contains topic cards and an expandable official syllabus transcript to preserve source terminology.

Module coverage

Module	Official heading	Topic entries	Hours
Module 1	dictation speed, to attain a speed of 90wpm.	4	As specified
Module 2	principle. Improve speed to attain 95 wpm.	4	As specified
Module 3	Relate Reporting style in leading English dailies.	4	As specified
Module 4	100wpm and summarise the dictated passage in reporting style.	4	As specified

MODULE 1**dictation speed, to attain a speed of 90wpm.**

This module is presented from the official syllabus scope for Shorthand English (Condensation. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 1 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: dictation speed, to attain a speed of 90wpm.
- Official duration: As specified
- Official topic entries captured: 4
- The full source excerpt is preserved below for coverage checking.

▼ 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling

3 Applying. practice lists and exercises Make use of dictation writing skills by recalling is an official topic in Module 1 of Shorthand English (Condensation. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 3 applying. practice lists and exercises make use of dictation writing skills by recalling should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
--------	-----------------

Aspect	What to prepare
Definition/identity	What 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 1-3 Applying. practice lists and exercises Make use of dictation writing skills by recalling definition/meaning. , steps, application . Technical terms English- .

▼ and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying

and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying is an official topic in Module 1 of Shorthand English (Condensation. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, and practicing special contractions and translate 2 applying. the dictated matter. rephrase the theory of advanced phraeography. applying should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying means in the official course context
Study lens	Principle → components or stages → result → application

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 3- 2 Applying dictation and translate the same. Diphonic or two vowel sounds – Practice exercises - Medial semicircle - practice exercises – Familiarise with reporting styles in dailies – speed practice @100wpm. Compare prefixes, suffixes, contraction and figures. Apply speed @ ഓരോന്നിനെയും വ്യക്തമായി definition/meaning വ്യക്തമാക്കുക. ഓരോന്നിനെയും വ്യക്തമായി, steps, application വ്യക്തമായി വ്യക്തമാക്കുക. Technical terms English- വ്യക്തമായി വ്യക്തമാക്കുക.

► **Official syllabus detail and terminology (expand in digital version)**

Module study routine: Read the source wording, make a one-page concept map, practise one short answer and one structured answer, then review the Malayalam support notes.

MODULE 4

100wpm and summarise the dictated passage in reporting style.

This module is presented from the official syllabus scope for Shorthand English (Condensation. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 4 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: 100wpm and summarise the dictated passage in reporting style.
- Official duration: As specified
- Official topic entries captured: 4
- The full source excerpt is preserved below for coverage checking.

▼ 3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation

3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation is an official topic in Module 4 of Shorthand English (Condensation. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 3 applying. suffixes. practice all exercises. make use of speed writing skills for dictation should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
--------	-----------------

Aspect	What to prepare
Definition/identity	What 3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

EXAMINATION PREPARATION

Assessment methodology

The following source extract preserves the assessment information detected in the official PDF. Verify mark conversions and institutional updates against the current source before an examination.

The official assessment structure is reproduced from the supplied PDF.

Practice-paper notice: The model paper below is generated for revision and is not an official examination paper.

ACTIVE RECALL

Module-wise questions and answers

These are practice questions based on official topic coverage, not official examination questions.

Module 1

► **Define or explain 3 Applying. practice lists and exercises Make use of dictation writing skills by recalling. (3 marks)**

► **Define or explain and practicing special contractions and translate 2 Applying. the dictated matter. Rephrase the theory of advanced phraeography. Applying. (3 marks)**

► **Define or explain Apply advanced phrases to improve dictation 3 skill to 90wpm Practice speed dictation @90 wpm and. (3 marks)**

► **Define or explain translate the same applying special contractions 2 Applying. and advanced phrases. Special Contractions - practice exercises - translation- Advanced Phraseography-practice exercises - speed @90wpm Interpret vowel indication, halving principles 1 & 2 and doubling. (3 marks)**

Module 2

► **Define or explain 2 Remembering and practice exercises. Illustrate halving principles section I and. (3 marks)**

► **Define or explain practice exercises. Apply 95wpm speed for 3 Applying. dictation and translate the same. Illustrate halving principle section II and Understanding.. (3 marks)**

► **Define or explain 2 practice exercises. Explain the application of doubling principles. (3 marks)**

► **Define or explain and practice exercises. Practice speed dictation 4 Applying. to get the speed @95wpm. Vowel Indication - Practice exercises - Halving principle section I - practice exercise - grammalogues - Halving principles section II - practice exercises - grammalogues - Doubling principle - grammalogues - practice exercises. Identify diphone and medial semi circles. Develop speed to attain 100wpm.. (3 marks)**

Module 3

► **Define or explain practice exercises. Apply speed to attain 2 Applying. 100wpm. Explain medial semicircles and practice. (3 marks)**

► **Define or explain 3 Applying exercises. Apply 100wpm speed on dictation. Compare reporting styles in leading English. (3 marks)**

► **Define or explain dailies by giving dictation and translate the 2 Applying. same. Develop speed to 100wpm for taking down. (3 marks)**

► **Define or explain 2 Applying dictation and translate the same. Diphonic or two vowel sounds - Practice exercises - Medial semicircle - practice exercises - Familiarise with reporting styles in dailies - speed practice @100wpm. Compare prefixes, suffixes, contraction and figures. Apply speed @. (3 marks)**

Module 4

► **Define or explain 3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation. (3 marks)**

► **Define or explain @100wpm and practice to construct draft report 2 Applying. contain main points. Explain contraction and figures. Practice all. (3 marks)**

► **Define or explain 3 Applying exercises. Construct condensed report in indirect form. (3 marks)**

► **Define or explain 5 Applying from a dictated passage @100wpm. Prefixes -Practice exercises - Suffixes - practice exercises -practice to construct draft report - Contractions - practice exercise and practice lists - exercises - figures - practice exercise - dictation @100wpm - construct condensation in reporting style. PRACTICE ONLY

Practice Model Paper — Not an Official Examination Paper

Attempt one short definition, one structured explanation and one long answer from every module. Use the official assessment pattern reproduced above when selecting time and marks.

Module 1

1-mark definition: State the meaning of **3 Applying. practice lists and exercises Make use of dictation writing skills by recalling.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 2

1-mark definition: State the meaning of **2 Remembering and practice exercises. Illustrate halving principles section I and.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 3

1-mark definition: State the meaning of **practice exercises. Apply speed to attain 2 Applying. 100wpm. Explain medial semicircles and practice.**

Module 4

1-mark definition: State the meaning of **3 Applying. suffixes. Practice all exercises. Make use of speed writing skills for dictation.**

3-mark explanation: Explain one principle, process or comparison from

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

QUICK REVISION

Exam checklist

Before writing

- Read the command word: define, explain, compare, draw, calculate, analyse or design.
- Use the exact course terminology from the source transcript.
- Plan labels, units, sequence and marks before writing.

Before submitting

- Check every module has been revised.
- Check diagrams, tables, formula symbols and units.
- Separate official syllabus information from personal elaboration.

REFERENCE VOCABULARY

Glossary

Study glossary

Term	Meaning in this lesson
Course Outcome	A capability the student should demonstrate after completing the course.
Module	An official syllabus unit with defined topics and hours.
CIE	Continuous Internal Evaluation.
ESE	End Semester Examination.
Source transcript	A preserved extract of the official syllabus used for coverage checking.
