

KERALA DIPLOMA CURRICULUM REVISION 2026

Course 6142

6 Credits: 3.5

Program Core

Source-grounded

Shorthand Malayalam (Speed &

□ To develop the ability to write Malayalam shorthand @ 50 WPM.

OFFICIAL SOURCE DECLARATION

How this lesson was prepared

The supplied official SITTTTR syllabus PDF for Course 6142 is the authoritative source for course information, objectives, course outcomes, CO-PO mapping, modules, topics, activities, assessment structure and references. Explanations, study prompts and Malayalam support are educational elaboration and are not presented as additional official syllabus text.

Source file: 6142.pdf from the uploaded official SITTTTR syllabus archive. **Course code and title:** preserved from the source.

COURSE DASHBOARD

Official course information

Course information

Item	Official information
Programme	Diploma in Commercial Practice
Course code	6142
Course title	Shorthand Malayalam (Speed &
Semester	6 Credits: 3.5
Course category	Program Core
Periods per week	3 (L:1, T:0, P:2) Periods per semester: 45
Periods per semester	45
Credits	3.5
Prerequisite	See the official syllabus PDF
Assessment	Use the official assessment section reproduced below

Modules

4 official module sections detected.

Topic entries

16 source-aligned topic entries retained.

Study mode

Theory and application emphasis.

STUDY METHOD**How to use this lesson****First pass**

Read the official source declaration, dashboard and module transcript. Mark unfamiliar terms without changing the official terminology.

Second pass

Use each topic card to build a definition, principle, steps or components, application and exam answer. Attempt the Q&A before opening the answers.

Practical evidence

Where the course is laboratory or workshop based, maintain an observation notebook with procedure, instruments, readings, safety points and conclusion.

Revision pass

Return to the source excerpt, coverage table, activities and model paper. The generated paper is practice material, not an official examination paper.

LEARNING OUTCOMES**Objectives, outcomes and mapping****Course objectives**

- □ To develop the ability to write Malayalam shorthand @ 50 WPM.
- □ To develop the ability to transcribe shorthand notes taken into longhand.
- □ To develop the ability to read printed or written shorthand scripts with ease and

Course outcomes

CO	Official outcome	Study level
CO1	7 Applying Shorthand. Make use of phrases in speed practice of Malayalam	See official syllabus

CO2	CO2 3
CO3	CO3 3
CO4	CO4 3

COVERAGE AUDIT**Complete syllabus coverage**

Every detected official module is represented below. Each module contains topic cards and an expandable official syllabus transcript to preserve source terminology.

Module coverage

Module	Official heading	Topic entries	Hours
Module 1	Apply intersections in speed practice of Malayalam Shorthand.	4	As specified
Module 2	Make use of phrases in speed practice of Malayalam Shorthand.	4	As specified
Module 3	Practice speed in Malayalam shorthand @ 40 wpm.	4	As specified
Module 4	transcription.	4	As specified

MODULE 1

Apply intersections in speed practice of Malayalam Shorthand.

This module is presented from the official syllabus scope for Shorthand Malayalam (Speed &. Use the topic cards for learning and the source transcript for exact coverage.

As specified
official hours

CO-linked
see outcomes

Learning goals

- Explain the official Module 1 scope and its relationship to the course outcomes.
- Recognise the terminology, sequence, components and evidence expected in examination answers.
- Connect at least one official topic to a practical, industrial, laboratory or design context.

Key facts

- Official module title: Apply intersections in speed practice of Malayalam Shorthand.
- Official duration: As specified
- Official topic entries captured: 4
- The full source excerpt is preserved below for coverage checking.

▼ 1 building. . Revise rules of aspirates, vowels, diphthong, Understanding

1 building. . Revise rules of aspirates, vowels, diphthong, Understanding is an official topic in Module 1 of Shorthand Malayalam (Speed &. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify 1 building. . Revise rules of aspirates, vowels, diphthong, Understanding using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, 1 building. . revise rules of aspirates, vowels, diphthong, understanding should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
--------	-----------------

Aspect	What to prepare
Definition/identity	What 1 building. . Revise rules of aspirates, vowels, diphthong, Understanding means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 1- 1 building. . Revise rules of aspirates, vowels, diphthong, Understanding definition/meaning steps, application Technical terms English-

▼ triphones, “W” Sound. Practice speed to attain @30 2 . wpm. Practice phrases using intersections and special Understanding

triphones, “W” Sound. Practice speed to attain @30 2 . wpm. Practice phrases using intersections and special Understanding is an official topic in Module 1 of Shorthand Malayalam (Speed &. Study the terminology first, then connect the stated purpose, sequence, components or application to the wider course outcome.

Concept and explanation

To learn this topic effectively, identify what the system, process, material, method or concept is; state its governing idea; describe the important parts or stages; and explain what changes when operating conditions change. The official source wording is retained in the module transcript so that examination answers remain aligned with the syllabus.

Study points

- Define or identify triphones, “W” Sound. Practice speed to attain @30 2 . wpm. Practice phrases using intersections and special Understanding using standard technical terminology.
- Arrange the important components, steps or characteristics in a logical sequence.
- Relate the topic to one laboratory, industrial, professional or design situation where appropriate.
- Use a labelled sketch, comparison table, formula or procedure when the question requires it.

Engineering or professional relevance

In Polytechnic practice, triphones, “w” sound. practice speed to attain @30 2 . wpm. practice phrases using intersections and special understanding should be discussed with attention to safe operation, correct terminology, observable evidence and the relationship between input, process and result.

Topic study guide

Aspect	What to prepare
Definition/identity	What triphones, “W” Sound. Practice speed to attain @30 2 . wpm. Practice phrases using intersections and special Understanding means in the official course context
Study lens	Principle → components or stages → result → application
Exam evidence	Definition, labelled explanation, comparison, procedure or example as appropriate

Exam tip: Begin with the exact term, then give an organised explanation with a diagram, table, procedure or example whenever the topic naturally supports it.

Common mistakes: Writing a memorised phrase without explaining the principle; omitting units, labels, conditions or sequence; or mixing this topic with a related but different term.

Malayalam support: Module 1- triphones, “W” Sound. Practice speed to attain @30 2 . wpm. Practice phrases using intersections and special Understanding definition/meaning .
 , steps, application .

PRACTICE ONLY

Practice Model Paper — Not an Official Examination Paper

Attempt one short definition, one structured explanation and one long answer from every module. Use the official assessment pattern reproduced above when selecting time and marks.

Module 1

1-mark definition: State the meaning of **1 building**. . **Revise rules of aspirates, vowels, diphthong, Understanding.**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 2

1-mark definition: State the meaning of **Revise all phrases and contractions..**

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

Module 3

1-mark definition: State the meaning of **3 Understanding suffixes, R, L and SH strokes..**

3-mark explanation: Explain one principle, process or comparison from this module.

Module 4

1-mark definition: State the meaning of **Speed practice to attain up to 50-60 WPM. 5 Applying Take down dictation from editorial in prominent.**

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

3-mark explanation: Explain one principle, process or comparison from this module.

7-mark answer: Write a structured answer using a labelled diagram, table, procedure, example or application.

QUICK REVISION

Exam checklist

Before writing

- Read the command word: define, explain, compare, draw, calculate, analyse or design.
- Use the exact course terminology from the source transcript.
- Plan labels, units, sequence and marks before writing.

Before submitting

- Check every module has been revised.
- Check diagrams, tables, formula symbols and units.
- Separate official syllabus information from personal elaboration.

REFERENCE VOCABULARY

Glossary

Study glossary

Term	Meaning in this lesson
Course Outcome	A capability the student should demonstrate after completing the course.
Module	An official syllabus unit with defined topics and hours.
CIE	Continuous Internal Evaluation.
ESE	End Semester Examination.
Source transcript	A preserved extract of the official syllabus used for coverage checking.
